Cybersecurity: CRS Experts

Eric A. Fischer, Senior Specialist in Science and Technology (efischer@crs.loc.gov, 7-7071)
April 15, 2015 (R42619)

Related Author

- Eric A. Fischer

Related Policy Issue

- Cybersecurity

The following table provides names and contact information for CRS experts on policy and legal issues before Congress related to cybersecurity. The frequency, impact, and sophistication of cyberattacks and the growth of cybercrime and cyberespionage have added urgency to long-standing concerns about those issues. Consensus has grown that the policy framework for cybersecurity should take into account the diversity and continuing evolution of the technology and threats, and the increasing role of the Internet in the U.S. economy and the lives of citizens. Among the issues being debated are

- reducing barriers to *information sharing* between and with private-sector entities;
- *data breaches* of personal records and other information;
- cybersecurity for privately held *critical infrastructure*;
- addressing domestic and international *cybercrime and espionage*; and
- the relationship between *cyberspace and national security*.

Legislative Issues	Name/Title	Phone	Email
Legislation in the 114th and recent Congresses	**Eric A. Fischer** Senior Specialist in Science and Technology	7-7071	efischer@crs.loc.gov
