Dear Mr. Gentry:

Your Institutional Patent Agreement with the National Science Foundation requires an annual report by the end of each fiscal year.

We have developed a form for you to use in reporting this year's information. As you can see, we have kept your job to a minimum by filling in the data already in our records. Please complete the questionnaire and correct any erroneous entries we may have made, and return it to us by September 30, 1978.

Also, since we expect to continue using this new form in future years, we would appreciate any comments you may have on it.

Sincerely yours,

Lucy Petitt
