Mr. Ross

Listed below are, according to my records, current inventions disclosed to the Foundation by inventors whose names appear on A. W. Peterson's list sent to you entitled "Supplement to List of National Institutes of Health Grants in Effect as of February 1, 1962":

C. J. Sih - Electron Acceptors for Steroid 1-dehydrogenase (1962)
C. J. Sih - Production of 12-beta Steroids with Penicillium citrinum (1962)

Gilbert J. Mannering - Analgesic Compound (1958)
Gilbert J. Mannering-J. W. Miller - Morphine-propargyl morphinau combination (1958)
Gilbert J. Mannering-R. Parks - Catalyst for Blood Metabolism of Alcohol (1960)

F. E. Shideman - Analogue of Phenobarbital (Pat. App. filed 1960)

Harold E. Deutsch-J. W. Williams - Process of Preparing Anti-body-Rich Globulin Fraction (Patent issued 1951)

Van R. Potter - Acoustical Device (Patent issued 1959)

J. G. Cannon - Substituted Quinoline Acrylic Acids (Pat. App. filed 1960)

Takeru Higuchi-M. H. Yunker - The Stabilization of Esters of Nitrous Acid (Patent issued 1960)

S. M. Kupchan - Desatrine (Patent issued 1961)
S. M. Kupchan - Desatrine Esters (Pat. App. filed 1959; refiled 1960)
S. M. Kupchan - Angelate Process and Products (Pat. App. filed 1959)
S. M. Kupchan - Protoveratrine B. Esters (Pat. App. filed 1959; refiled 1960)
S. M. Kupchan - New & Useful Improvements in Esters of Proto-veratrine (Pat. App. filed 1960)

E. N. Lightfoot, Jr. - Instrument for Measuring H_2) Vapor in Presence of SO_2 (1960)

S. G. Knight - Coating Seeds with Bacteria (1959)
S. G. Knight - Process for Tenderizing Meat (1954)
S. G. Knight - Nuworld - Cheese & Processes of Producing Same (Patent issued 1954)
S. G. Knight - Nuworld - Roquefort-Type Cheese and Process of Preparing the Same (Patent issued 1957)
S. G. Knight - Flavor Composition (Pat. App. filed 1957; refiled 1960)
S. G. Knight - Fungicide (Pat. App. filed 1952; refiled 1954; 1956; 1958; 1959)
S. G. Knight - Triacetin-Cortisone Combination (Pat. App. filed 1960)
S. G. Knight - Spore Process (Pat. App. filed 1958; refiled 1959)

R. Bock - Method for determining protein in milk (1958)

M. Stahmann-Campbell-Link-Huebner - Dicumarol (Patent issued 1952)
M. Stahmann-Link - Synthesis of 4-Hydroxycoumarin (Patent issued 1949)
M. Stahmann-Link - Synthesis of 4-Hydroxycoumarins (Patent issued 1949)
M. Stahmann-Link-Ikawa - Warfarin Rodenticide (Patent issued 1947)
M. Stahmann-Link-Ikawa - Warfarin Rodenticide (Patent issued 1947)
M. Stahmann-Allen-Casida-Chapman - Pesticide Compositions & Processes of Preparing Same (Patent issued 1957)

F. Strong-Keitt-Leben - Antimycin & Process for Production (Patent issued 1953)
F. Strong-Skoog-Miller - Process and Products - Kinetin (Patent issued 1959)
F. I Strong - Analog of Antimycin (1961)
F. I Strong-P.H. Derse - Use of Antimycin as Fish Killer (1961)

J. E Casida-B. W. Arthur - Insecticide Composition - Acetyl Dipterex (Patent issued 1960)
J. E Casida-B. W. Arthur - Butyryl Dipterex - Insecticide Composition (Patent issued 1960)
J. E Casida-B. W. Arthur - Process - Butonate Synthesis (Patent issued 1959)
J. E. Casida - see Stahmann-Allen-Casida-Chapman
J. E. Casida - Saw Fly - Attractant (1960)

A. C. Hildebrandt-J. Dolliver - Nematode Control (1961)

E. B. Smalley - Dutch Elm Protectant - Chemotherapy (1961)

R. E. Nichols-A. Swanson - Salvage of rumen contents as feed (1957)
R. E. Nichols - Prophylaxis of Bloat (Pat. App. filed 1955)

A. C. Todd - Phenothiazine and Wheat Middling Compositions (Patent issued 1961)

W. C. Zarnstorff - Control Circuit (Pat. App. filed 1960)
W. C. Zarnstorff - Ignition System (Pat. App. filed 1961)
W. C. Zarnstorff - Telemetering/Heart Pacemaker Circuit (1961)

A. H. Friedman - Analeptic action of adrenergic neurone blocking agents in barbiturate depression (1961)

J. W. Miller - see Mannering-Miller (1958)
J. W. Miller-Murray - Potentiating Substance for Morphine Type Compounds (Pat. App. filed 1959)

R. E. Parks - see Mannering-Parks

F. E. Shideman - Analogue of Phenobarbital (Pat. App. filed 1960)

M. J. Javid-Settlage - Urevert (Patent issued 1960)

D. W. Smith - Antibiotic - Selective agent for mycobacterium (1961)

Dexter Goldman - Sugar Conversion Method (1960)

D. E. Green-Crane-Lester - Q_{254} (1958)
D. E. Green-Crane-Lester - Coenzyme Q (Pat. App. filed 1958)
D. E. Green - see Beinert-Green

H. A. Lardy-W. Brady - Analogue of Thyroxin (Pat. App. filed 1961)

Helmut Beinert-D. E. Green - Process for Isolating and Purifying Coenzyme A (Patent issued 1955)

Charles Heidelberger - Chemotherapy of Cancer by the use of Macromolecular Inhibitors (1958)

investigators

You have circled the following/names on Mr. Peterson's list; however, according to my records, all inventions which they have disclosed to the Foundation have been closed out:

E. P. Lichtenstein
J. L. Way
E. E. Van Tamelen

Also, you have encircled the name of Wm. H. Stone; however, I have no record of any disclosure by Prof. Stone to the Foundation.

Sincerely,
