July 7, 1978

Attached are two items of interest. The item regarding the Committee on Industrial Innovation invites nominations for membership to an Advisory Committee. It would appear useful that candidates from the university and nonprofit sector be available. If you are interested in membership or nominating a candidate, I would suggest contacting Howard Bremer (608-263-2831). As you will note, the Federal Register notice asking for candidates is dated May 30th. Accordingly, any nominations should be made within the near future.
