10/25/83

Memo from: Doug

Re: "Uniform Patent Procedures Act of 1983"

Attached is a draft of a "Dear Colleague" which I propose to circulate to members of the Patent, Copyright and Trademark Subcommittee regarding the Dole "Uniform Patent Procedures Act of 1983".

The purpose of the bill is to extend the policy principles of the Dole/Bayh University and Small Business Patent Procedures Act of 1980 to all federal R&D contracts. The text of the bill has already been pre-cleared with the coordinating industry group on this issue, the Licensing Executives Society.

A copy of the bill, a summary and a sectional analysis are included for your review as well.

MIKE: F/Y/I.

Mike- if you could keep TRACK OF this AND help MOVE IT ALONG I WOULD APPRECIATE IT. I WOULD LIKE TO get IT out ASAP.

-THANKS-
