TITLE 17—COPYRIGHTS

CHAPTER 1—SUBJECT MATTER AND SCOPE OF COPYRIGHT

[§§ 101–122]

Sec.
101. Definitions.

* * * * * * *

104. Subject matter of copyright: National origin.

* * * * * * *

108. Limitations on exclusive rights: Reproduction by libraries and archives.

* * * * * * *

111. Limitations on exclusive rights: Secondary transmissions.
112. Limitations on exclusive rights: Ephemeral recordings.

* * * * * * *

114. Scope of exclusive rights in sound recordings.

* * * * * * *

117. Limitations on exclusive rights: Computer programs.

* * * * * * *

119. Limitations on exclusive rights: Secondary transmissions of superstations and network stations for private home viewing.

* * * * * * *

122. Limitations on exclusive rights: Secondary transmissions by satellite carriers within local markets.

§ 101. Definitions

Except as otherwise provided in this title, as used in this title, the following terms and their variant forms mean the following:

An "anonymous work" is a work on the copies or phonorecords of which no natural person is identified as author.

An "architectural work" is the design of a building as embodied in any tangible medium of expression, including a building, architectural plans, or drawings. The work includes the overall form as well as the arrangement and composition of spaces and elements in the design, but does not include individual standard features.

"Audiovisual works" are works that consist of a series of related images which are intrinsically intended to be shown by the use of machines, or devices such as projectors, viewers, or electronic equipment, together with accompanying sounds, if any, regardless of the nature of the material objects, such as films or tapes, in which the works are embodied.

The "Berne Convention" is the Convention for the Protection of Literary and Artistic Works, signed at Berne, Switzerland, on September 9, 1886, and all acts, protocols, and revisions thereto.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 723 2005

The "best edition" of a work is the edition, published in the United States at any time before the date of deposit, that the Library of Congress determines to be most suitable for its purposes.

A person's "children" are that person's immediate offspring, whether legitimate or not, and any children legally adopted by that person.

A "collective work" is a work, such as a periodical issue, anthology, or encyclopedia, in which a number of contributions, constituting separate and independent works in themselves, are assembled into a collective whole.

A "compilation" is a work formed by the collection and assembling of preexisting materials or of data that are selected, coordinated, or arranged in such a way that the resulting work as a whole constitutes an original work of authorship. The term "compilation" includes collective works.

A "computer program" is a set of statements or instructions to be used directly or indirectly in a computer in order to bring about a certain result.

"Copies" are material objects, other than phonorecords, in which a work is fixed by any method now known or later developed, and from which the work can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device. The term "copies" includes the material object, other than a phonorecord, in which the work is first fixed. "A "Copyright Royalty Judge" is a Copyright Royalty Judge appointed under section 802 of this title, and includes any individual serving as an interim Copyright Royalty Judge under such section.".

"Copyright owner", with respect to any one of the exclusive rights comprised in a copyright, refers to the owner of that particular right.

A work is "created" when it is fixed in a copy or phonorecord for the first time; where a work is prepared over a period of time, the portion of it that has been fixed at any particular time constitutes the work as of that time, and where the work has been prepared in different versions, each version constitutes a separate work.

A "derivative work" is a work based upon one or more preexisting works, such as a translation, musical arrangement, dramatization, fictionalization, motion picture version, sound recording, art reproduction, abridgment, condensation, or any other form in which a work may be recast, transformed, or adapted. A work consisting of editorial revisions, annotations, elaborations, or other modifications which, as a whole, represent an original work of authorship, is a "derivative work".

A "device", "machine", or "process" is one now known or later developed.

A "digital transmission" is a transmission in whole or in part in a digital or other non-analog format.

To "display" a work means to show a copy of it, either directly or by means of a film, slide, television image, or any other device or process or, in the case of a motion picture or

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 724 2005

other audiovisual work, to show individual images nonsequentially.

An "establishment" is a store, shop, or any similar place of business open to the general public for the primary purpose of selling goods or services in which the majority of the gross square feet of space that is nonresidential is used for that purpose, and in which nondramatic musical works are performed publicly.

A "food service or drinking establishment" is a restaurant, inn, bar, tavern, or any other similar place of business in which the public or patrons assemble for the primary purpose of being served food or drink, in which the majority of the gross square feet of space that is nonresidential is used for that purpose, and in which nondramatic musical works are performed publicly.

The term "financial gain" includes receipt, or expectation of receipt, of anything of value, including the receipt of other copyrighted works.

A work is "fixed" in a tangible medium of expression when its embodiment in a copy or phonorecord, by or under the authority of the author, is sufficiently permanent or stable to permit it to be perceived, reproduced, or otherwise communicated for a period of more than transitory duration. A work consisting of sounds, images, or both, that are being transmitted, is "fixed" for purposes of this title if a fixation of the work is being made simultaneously with its transmission.

The "Geneva Phonograms Convention" is the Convention for the Protection of Producers of Phonograms Against Unauthorized Duplication of Their Phonograms, concluded at Geneva, Switzerland, on October 29, 1971.

The "gross square feet of space" of an establishment means the entire interior space of that establishment, and any adjoining outdoor space used to serve patrons, whether on a seasonal basis or otherwise.

The terms "including" and "such as" are illustrative and not limitative.

An "international agreement" is—

(1) the Universal Copyright Convention;

(2) the Geneva Phonograms Convention;

(3) the Berne Convention;

(4) the WTO Agreement;

(5)[1] the WIPO Copyright Treaty;

(6)[2] the WIPO Performances and Phonograms Treaty; and

(7) any other copyright treaty to which the United States is a party.

[1] This paragraph was added by section 102(a)(4) of the Digital Millennium Copyright Act (P.L. 105–304). Section 105(b)(1)(A) of such Act provides "paragraph (5) of the definition of 'international agreement'" shall take effect upon the entry into force of the WIPO Copyright Treaty with respect to the United States.

[2] This paragraph was added by section 102(a)(4) of the Digital Millennium Copyright Act (P.L. 105–304). Section 105(b)(2)(A) of such Act provides "paragraph (6) of the definition of 'international agreement'" shall take effect upon the entry into force of the WIPO Performances and Phonograms Treaty with respect to the United States.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 725 2005

A "joint work" is a work prepared by two or more authors with the intention that their contributions be merged into inseparable or interdependent parts of a unitary whole.

"Literary works" are works, other than audiovisual works, expressed in words, numbers, or other verbal or numerical symbols or indicia, regardless of the nature of the material objects, such as books, periodicals, manuscripts, phonorecords, film, tapes, disks, or cards, in which they are embodied.

"Motion pictures" are audiovisual works consisting of a series of related images which, when shown in succession, impart an impression of motion, together with accompanying sounds, if any.

The term "motion picture exhibition facility" means a movie theater, screening room, or other venue that is being used primarily for the exhibition of a copyrighted motion picture, if such exhibition is open to the public or is made to an assembled group of viewers outside of a normal circle of a family and its social acquaintances.

To "perform" a work means to recite, render, play, dance, or act it, either directly or by means of any device or process or, in the case of a motion picture or other audiovisual work, to show its images in any sequence or to make the sounds accompanying it audible.

A "performing rights society" is an association, corporation, or other entity that licenses the public performance of nondramatic musical works on behalf of copyright owners of such works, such as the American Society of Composers, Authors and Publishers (ASCAP), Broadcast Music, Inc. (BMI), and SESAC, Inc.

"Phonorecords" are material objects in which sounds, other than those accompanying a motion picture or other audiovisual work, are fixed by any method now known or later developed, and from which the sounds can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device. The term "phonorecords" includes the material object in which the sounds are first fixed.

"Pictorial, graphic, and sculptural works" include two-dimensional and three-dimensional works of fine, graphic, and applied art, photographs, prints and art reproductions, maps, globes, charts, diagrams, models, and technical drawings, including architectural plans. Such works shall include works of artistic craftsmanship insofar as their form but not their mechanical or utilitarian aspects are concerned; the design of a useful article, as defined in this section, shall be considered a pictorial, graphic, or sculptural work only if, and only to the extent that, such design incorporates pictorial, graphic, or sculptural features that can be identified separately from, and are capable of existing independently of, the utilitarian aspects of the article.

For purposes of section 513, a "proprietor" is an individual, corporation, partnership, or other entity, as the case may be, that owns an establishment or a food service or drinking establishment, except that no owner or operator of a radio or television station licensed by the Federal Communications Com-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 726 2005

mission, cable system or satellite carrier, cable or satellite carrier service or programmer, provider of online services or network access or the operator of facilities therefor, telecommunications company, or any other such audio or audiovisual service or programmer now known or as may be developed in the future, commercial subscription music service, or owner or operator of any other transmission service, shall under any circumstances be deemed to be a proprietor.

A "pseudonymous work" is a work on the copies or phonorecords of which the author is identified under a fictitious name.

"Publication" is the distribution of copies or phonorecords of a work to the public by sale or other transfer of ownership, or by rental, lease, or lending. The offering to distribute copies or phonorecords to a group of persons for purposes of further distribution, public performance, or public display, constitutes publication. A public performance or display of a work does not of itself constitute publication.

To perform or display a work "publicly" means—

(1) to perform or display it at a place open to the public or at any place where a substantial number of persons outside of a normal circle of a family and its social acquaintances is gathered; or

(2) to transmit or otherwise communicate a performance or display of the work to a place specified by clause (1) or to the public, by means of any device or process, whether the members of the public capable of receiving the performance or display receive it in the same place or in separate places and at the same time or at different times.

"Registration", for purposes of sections 205(c)(2), 405, 406, 410(d), 411, 412, and 506(e), means a registration of a claim in the original or the renewed and extended term of copyright.

"Sound recordings" are works that result from the fixation of a series of musical, spoken, or other sounds, but not including the sounds accompanying a motion picture or other audiovisual work, regardless of the nature of the material objects, such as disks, tapes, or other phonorecords, in which they are embodied.

"State" includes the District of Columbia and the Commonwealth of Puerto Rico, and any territories to which this title is made applicable by an Act of Congress.

A "transfer of copyright ownership" is an assignment, mortgage, exclusive license, or any other conveyance, alienation, or hypothecation of a copyright or of any of the exclusive rights comprised in a copyright, whether or not it is limited in time or place of effect, but not including a nonexclusive license.

A "transmission program" is a body of material that, as an aggregate, has been produced for the sole purpose of transmission to the public in sequence and as a unit.

To "transmit" a performance or display is to communicate it by any device or process whereby images or sounds are received beyond the place from which they are sent.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 727 2005

A "treaty party" is a country or intergovernmental organization other than the United States that is a party to an international agreement.

The "United States", when used in a geographical sense, comprises the several States, the District of Columbia and the Commonwealth of Puerto Rico, and the organized territories under the jurisdiction of the United States Government.

For purposes of section 411, a work is a "United States work" only if

(1) in the case of a published work, the work is first published—

(A) in the United States;

(B) simultaneously in the United States and another treaty party or parties, whose law grants a term of copyright protection that is the same as or longer than the term provided in the United States;

(C) simultaneously in the United States and a foreign nation that is not a treaty party; or

(D) in a foreign nation that is not a treaty party and all of the authors of the work are nationals, domiciliaries, or habitual residents of, or in the case of an audiovisual work legal entities with headquarters in, the United States;

(2) in the case of an unpublished work, all the authors of the work are nationals, domiciliaries, or habitual residents of the United States, or, in the case of an unpublished audiovisual work, all the authors are legal entities with headquarters in the United States; or

(3) in the case of a pictorial, graphic, or sculptural work incorporated in a building or structure, the building or structure is located in the United States.

A "useful article" is an article having an intrinsic utilitarian function that is not merely to portray the appearance of the article or to convey information. An article that is normally a part of a useful article is considered a "useful article".

The author's "widow" or "widower" is the author's surviving spouse under the law of the author's domicile at the time of his or her death, whether or not the spouse has later remarried.

The "WIPO Copyright Treaty" is the WIPO Copyright Treaty concluded at Geneva, Switzerland, on December 20, 1996.[1]

The "WIPO Performances and Phonograms Treaty" is the WIPO Performances and Phonograms Treaty concluded at Geneva, Switzerland, on December 20, 1996.[2]

A "work of visual art" is—

(1) a painting, drawing, print, or sculpture, existing in a single copy, in a limited edition of 200 copies or fewer

[1] This definition was added by section 102(a)(6) of the Digital Millennium Copyright Act (P.L. 105–304). Section 105(b)(1)(B) of such Act provides this definition shall take effect upon the entry into force of the WIPO Copyright Treaty with respect to the United States.

[2] This definition was added by section 102(a)(7) of the Digital Millennium Copyright Act (P.L. 105–304). Section 105(b)(2)(B) of such Act provides this definition shall take effect upon the entry into force of the WIPO Performances and Phonograms Treaty with respect to the United States.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 728 2005

that are signed and consecutively numbered by the author, or, in the case of a sculpture, in multiple cast, carved, or fabricated sculptures of 200 or fewer that are consecutively numbered by the author and bear the signature or other identifying mark of the author; or

(2) a still photographic image produced for exhibition purposes only, existing in a single copy that is signed by the author, or in a limited edition of 200 copies or fewer that are signed and consecutively numbered by the author.

A work of visual art does not include—

(A)(i) any poster, map, globe, chart, technical drawing, diagram, model, applied art, motion picture or other audiovisual work, book, magazine, newspaper, periodical, data base, electronic information service, electronic publication, or similar publication;

(ii) any merchandising item or advertising, promotional, descriptive, covering, or packaging material or container;

(iii) any portion or part of any item described in clause (i) or (ii);

(B) any work made for hire; or

(C) any work not subject to copyright protection under this title.

A "work of the United States Government" is a work prepared by an officer or employee of the United States Government as part of that person's official duties.

A "work made for hire" is—

(1) a work prepared by an employee within the scope of his or her employment; or

(2) a work specially ordered or commissioned for use as a contribution to a collective work, as a part of a motion picture or other audiovisual work, as a translation, as a supplementary work, as a compilation, as an instructional text, as a test, as answer material for a test, or as an atlas, if the parties expressly agree in a written instrument signed by them that the work shall be considered a work made for hire. For the purpose of the foregoing sentence, a "supplementary work" is a work prepared for publication as a secondary adjunct to a work by another author for the purpose of introducing, concluding, illustrating, explaining, revising, commenting upon, or assisting in the use of the other work, such as forewords, afterwords, pictorial illustrations, maps, charts, tables, editorial notes, musical arrangements, answer material for tests, bibliographies, appendixes, and indexes, and an "instructional text" is a literary, pictorial, or graphic work prepared for publication and with the purpose of use in systematic instructional activities.

In determining whether any work is eligible to be considered a work made for hire under paragraph (2), neither the amendment contained in section 1011(d) of the Intellectual Property and Communications Omnibus Reform Act of 1999, as enacted by section 1000(a)(9) of Public Law 106–113, nor the deletion of the words added by that amendment—

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 729 2005

(A) shall be considered or otherwise given any legal significance, or

(B) shall be interpreted to indicate congressional approval or disapproval of, or acquiescence in, any judicial determination,

by the courts or the Copyright Office. Paragraph (2) shall be interpreted as if both section 2(a)(1) of the Work Made For Hire and Copyright Corrections Act of 2000 and section 1011(d) of the Intellectual Property and Communications Omnibus Reform Act of 1999, as enacted by section 1000(a)(9) of Public Law 106–113, were never enacted, and without regard to any inaction or awareness by the Congress at any time of any judicial determinations.

The terms "WTO Agreement" and "WTO member country" have the meanings given those terms in paragraphs (9) and (10), respectively, of section 2 of the Uruguay Round Agreements Act.

* * * * * * *

§ 104. Subject matter of copyright: National origin

(a) UNPUBLISHED WORKS.—The works specified by sections 102 and 103, while unpublished, are subject to protection under this title without regard to the nationality or domicile of the author.

(b) PUBLISHED WORKS.—The works specified by sections 102 and 103, when published, are subject to protection under this title if—

(1) on the date of first publication, one or more of the authors is a national or domiciliary of the United States, or is a national, domiciliary, or sovereign authority of a treaty party, or is a stateless person, wherever that person may be domiciled; or

(2) the work is first published in the United States or in a foreign nation that, on the date of first publication, is a treaty party; or

(3) the work is a sound recording that was first fixed in a treaty party; or

(4) the work is a pictorial, graphic, or sculptural work that is incorporated in a building or other structure, or an architectural work that is embodied in a building and the building or structure is located in the United States or a treaty party; or

(5) the work is first published by the United Nations or any of its specialized agencies, or by the Organization of American States; or

(6) the work comes within the scope of a Presidential proclamation. Whenever the President finds that a particular foreign nation extends, to works by authors who are nationals or domiciliaries of the United States or to works that are first published in the United States, copyright protection on substantially the same basis as that on which the foreign nation extends protection to works of its own nationals and domiciliaries and works first published in that nation, the President may by proclamation extend protection under this title to

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 730 2005

works of which one or more of the authors is, on the date of first publication, a national, domiciliary, or sovereign authority of that nation, or which was first published in that nation. The President may revise, suspend, or revoke any such proclamation or impose any conditions or limitations on protection under a proclamation.

For purposes of paragraph (2), a work that is published in the United States or a treaty party within 30 days after publication in a foreign nation that is not a treaty party shall be considered to be first published in the United States or such treaty party, as the case may be.

(c) EFFECT OF BERNE CONVENTION.—No right or interest in a work eligible for protection under this title may be claimed by virtue of, or in reliance upon, the provisions of the Berne Convention, or the adherence of the United States thereto. Any rights in a work eligible for protection under this title that derive from this title, other Federal or State statutes, or the common law, shall not be expanded or reduced by virtue of, or in reliance upon, the provisions of the Berne Convention, or the adherence of the United States thereto.

(d)[1] EFFECT OF PHONOGRAMS TREATIES.—Notwithstanding the provisions of subsection (b), no works other than sound recordings shall be eligible for protection under this title solely by virtue of the adherence of the United States to the Geneva Phonograms Convention or the WIPO Performances and Phonograms Treaty.

* * * * * * *

§ 108. Limitations on exclusive rights: Reproduction by libraries and archives[2]

(a) Except as otherwise provided in this title and notwithstanding the provisions of section 106, it is not an infringement of

[1] This subsection was added by section 102(b)(2) of the Digital Millennium Copyright Act (P.L. 105–304). Section 105(b)(2)(C) of such Act provides this subsection shall take effect upon the entry into force of the WIPO Performances and Phonograms Treaty with respect to the United States.

[2] Section 403 of the Digital Millennium Copyright Act (Public Law 105–304) provides as follows:

SEC. 403. LIMITATIONS ON EXCLUSIVE RIGHTS; DISTANCE EDUCATION.

(a) RECOMMENDATIONS BY REGISTER OF COPYRIGHTS.—Not later than 6 months after the date of the enactment of this Act, the Register of Copyrights, after consultation with representatives of copyright owners, nonprofit educational institutions, and nonprofit libraries and archives, shall submit to the Congress recommendations on how to promote distance education through digital technologies, including interactive digital networks, while maintaining an appropriate balance between the rights of copyright owners and the needs of users of copyrighted works. Such recommendations shall include any legislation the Register of Copyrights considers appropriate to achieve the objective described in the preceding sentence.

(b) FACTORS.—In formulating recommendations under subsection (a), the Register of Copyrights shall consider—

(1) the need for an exemption from exclusive rights of copyright owners for distance education through digital networks;

(2) the categories of works to be included under any distance education exemption;

(3) the extent of appropriate quantitative limitations on the portions of works that may be used under any distance education exemption;

(4) the parties who should be entitled to the benefits of any distance education exemption;

(5) the parties who should be designated as eligible recipients of distance education materials under any distance education exemption;

(6) whether and what types of technological measures can or should be employed to safeguard against unauthorized access to, and use or retention of, copyrighted materials as a condition of eligibility for any distance education exemption, including, in light of developing

Continued

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 731 2005

copyright for a library or archives, or any of its employees acting within the scope of their employment, to reproduce no more than one copy or phonorecord of a work, except as provided in subsections (b) and (c), or to distribute such copy or phonorecord, under the conditions specified by this section, if—

(1) the reproduction or distribution is made without any purpose of direct or indirect commercial advantage;

(2) the collections of the library or archives are (i) open to the public, or (ii) available not only to researchers affiliated with the library or archives or with the institution of which it is a part, but also to other persons doing research in a specialized field; and

(3) the reproduction or distribution of the work includes a notice of copyright that appears on the copy or phonorecord that is reproduced under the provisions of this section, or includes a legend stating that the work may be protected by copyright if no such notice can be found on the copy or phonorecord that is reproduced under the provisions of this section.

(b) The rights of reproduction and distribution under this section apply to three copies or phonorecords of an unpublished work duplicated solely for purposes of preservation and security or for deposit for research use in another library or archives of the type described by clause (2) of subsection (a), if—

(1) the copy or phonorecord reproduced is currently in the collections of the library or archives; and

(2) any such copy or phonorecord that is reproduced in digital format is not otherwise distributed in that format and is not made available to the public in that format outside the premises of the library or archives.

(c) The right of reproduction under this section applies to three copies or phonorecords of a published work duplicated solely for the purpose of replacement of a copy or phonorecord that is damaged, deteriorating, lost, or stolen, or if the existing format in which the work is stored has become obsolete, if—

(1) the library or archives has, after a reasonable effort, determined that an unused replacement cannot be obtained at a fair price; and

(2) any such copy or phonorecord that is reproduced in digital format is not made available to the public in that format outside the premises of the library or archives in lawful possession of such copy.

For purposes of this subsection, a format shall be considered obsolete if the machine or device necessary to render perceptible a work stored in that format is no longer manufactured or is no longer reasonably available in the commercial marketplace.

(d) The rights of reproduction and distribution under this section apply to a copy, made from the collection of a library or archives where the user makes his or her request or from that of an-

---

technological capabilities, the exemption set out in section 110(2) of title 17, United States Code;

(7) the extent to which the availability of licenses for the use of copyrighted works in distance education through interactive digital networks should be considered in assessing eligibility for any distance education exemption; and

(8) such other issues relating to distance education through interactive digital networks that the Register considers appropriate.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 732 2005

other library or archives, of no more than one article or other contribution to a copyrighted collection or periodical issue, or to a copy or phonorecord of a small part of any other copyrighted work, if—

(1) the copy or phonorecord becomes the property of the user, and the library or archives has had no notice that the copy or phonorecord would be used for any purpose other than private study, scholarship, or research; and

(2) the library or archives displays prominently, at the place where orders are accepted, and includes on its order form, a warning of copyright in accordance with requirements that the Register of Copyrights shall prescribe by regulation.

(e) The rights of reproduction and distribution under this section apply to the entire work, or to a substantial part of it, made from the collection of a library or archives where the user makes his or her request or from that of another library or archives, if the library or archives has first determined, on the basis of a reasonable investigation, that a copy or phonorecord of the copyrighted work cannot be obtained at a fair price, if—

(1) the copy or phonorecord becomes the property of the user, and the library or archives has had no notice that the copy or phonorecord would be used for any purpose other than private study, scholarship, or research; and

(2) the library or archives displays prominently, at the place where orders are accepted, and includes on its order form, a warning of copyright in accordance with requirements that the Register of Copyrights shall prescribe by regulation.

(f) Nothing in this section—

(1) shall be construed to impose liability for copyright infringement upon a library or archives or its employees for the unsupervised use of reproducing equipment located on its premises: Provided, That such equipment displays a notice that the making of a copy may be subject to the copyright law;

(2) excuses a person who uses such reproducing equipment or who requests a copy or phonorecord under subsection (d) from liability for copyright infringement for any such act, or for any later use of such copy or phonorecord, if it exceeds fair use as provided by section 107;

(3) shall be construed to limit the reproduction and distribution by lending of a limited number of copies and excerpts by a library or archives of an audiovisual news program, subject to clauses (1), (2), and (3) of subsection (a); or

(4) in any way affects the right of fair use as provided by section 107, or any contractual obligations assumed at any time by the library or archives when it obtained a copy or phonorecord of a work in its collections.

(g) The rights of reproduction and distribution under this section extend to the isolated and unrelated reproduction or distribution of a single copy or phonorecord of the same material on separate occasions, but do not extend to cases where the library or archives, or its employee—

(1) is aware or has substantial reason to believe that it is engaging in the related or concerted reproduction or distribution of multiple copies or phonorecords of the same material, whether made on one occasion or over a period of time, and

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 733 2005

whether intended for aggregate use by one or more individuals or for separate use by the individual members of a group; or

(2) engages in the systematic reproduction or distribution of single or multiple copies or phonorecords of material described in subsection (d): Provided, That nothing in this clause prevents a library or archives from participating in interlibrary arrangements that do not have, as their purpose or effect, that the library or archives receiving such copies or phonorecords for distribution does so in such aggregate quantities as to substitute for a subscription to or purchase of such work.

(h)(1) For purposes of this section, during the last 20 years of any term of copyright of a published work, a library or archives, including a nonprofit educational institution that functions as such, may reproduce, distribute, display, or perform in facsimile or digital form a copy or phonorecord of such work, or portions thereof, for purposes of preservation, scholarship, or research, if such library or archives has first determined, on the basis of a reasonable investigation, that none of the conditions set forth in subparagraphs (A), (B), and (C) of paragraph (2) apply.

(2) No reproduction, distribution, display, or performance is authorized under this subsection if—

(A) the work is subject to normal commercial exploitation;

(B) a copy or phonorecord of the work can be obtained at a reasonable price; or

(C) the copyright owner or its agent provides notice pursuant to regulations promulgated by the Register of Copyrights that either of the conditions set forth in subparagraphs (A) and (B) applies.

(3) The exemption provided in this subsection does not apply to any subsequent uses by users other than such library or archives.

(i) The rights of reproduction and distribution under this section do not apply to a musical work, a pictorial, graphic or sculptural work, or a motion picture or other audiovisual work other than an audiovisual work dealing with news, except that no such limitation shall apply with respect to rights granted by subsections (b), (c), and (h), or with respect to pictorial or graphic works published as illustrations, diagrams, or similar adjuncts to works of which copies are reproduced or distributed in accordance with subsections (d) and (e).

* * * * * * *

§ 111. Limitations on exclusive rights: Secondary transmissions

(a) CERTAIN SECONDARY TRANSMISSIONS EXEMPTED.—The secondary transmission of a performance or display of a work embodied in a primary transmission is not an infringement of copyright if—

(1) the secondary transmission is not made by a cable system, and consists entirely of the relaying, by the management of a hotel, apartment house, or similar establishment, of signals transmitted by a broadcast station licensed by the Federal Communications Commission, within the local service area of

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 734 2005

such station, to the private lodgings of guests or residents of such establishment, and no direct charge is made to see or hear the secondary transmission; or

(2) the secondary transmission is made solely for the purpose and under the conditions specified by clause (2) of section 110; or

(3) the secondary transmission is made by any carrier who has no direct or indirect control over the content or selection of the primary transmission or over the particular recipients of the secondary transmission, and whose activities with respect to the secondary transmission consist solely of providing wires, cables, or other communications channels for the use of others: Provided, That the provisions of this clause extend only to the activities of said carrier with respect to secondary transmissions and do not exempt from liability the activities of others with respect to their own primary or secondary transmissions;

(4) the secondary transmission is made by a satellite carrier pursuant to a statutory license under section 119; or

(5) the secondary transmission is not made by a cable system but is made by a governmental body, or other nonprofit organization, without any purpose of direct or indirect commercial advantage, and without charge to the recipients of the secondary transmission other than assessments necessary to defray the actual and reasonable costs of maintaining and operating the secondary transmission service.

(b) SECONDARY TRANSMISSION OF PRIMARY TRANSMISSION TO CONTROLLED GROUP.—Notwithstanding the provisions of subsections (a) and (c), the secondary transmission to the public of a performance or display of a work embodied in a primary transmission is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, if the primary transmission is not made for reception by the public at large but is controlled and limited to reception by particular members of the public: Provided, however, That such secondary transmission is not actionable as an act of infringement if—

(1) the primary transmission is made by a broadcast station licensed by the Federal Communications Commission; and

(2) the carriage of the signals comprising the secondary transmission is required under the rules, regulations, or authorizations of the Federal Communications Commission; and

(3) the signal of the primary transmitter is not altered or changed in any way by the secondary transmitter.

(c) SECONDARY TRANSMISSIONS BY CABLE SYSTEMS.—

(1) Subject to the provisions of clauses (2), (3), and (4) of this subsection and section 114(d), secondary transmissions to the public by a cable system of a performance or display of a work embodied in a primary transmission made by a broadcast station licensed by the Federal Communications Commission or by an appropriate governmental authority of Canada or Mexico shall be subject to statutory licensing upon compliance with the requirements of subsection (d) where the carriage of

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 735 2005

the signals comprising the secondary transmission is permissible under the rules, regulations, or authorizations of the Federal Communications Commission.

(2) Notwithstanding the provisions of clause (1) of this subsection, the willful or repeated secondary transmission to the public by a cable system of a primary transmission made by a broadcast station licensed by the Federal Communications Commission or by an appropriate governmental authority of Canada or Mexico and embodying a performance or display of a work is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, in the following cases:

(A) where the carriage of the signals comprising the secondary transmission is not permissible under the rules, regulations, or authorizations of the Federal Communications Commission; or

(B) where the cable system has not deposited the statement of account and royalty fee required by subsection (d).

(3) Notwithstanding the provisions of clause (1) of this subsection and subject to the provisions of subsection (e) of this section, the secondary transmission to the public by a cable system of a performance or display of a work embodied in a primary transmission made by a broadcast station licensed by the Federal Communications Commission or by an appropriate governmental authority of Canada or Mexico is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and sections 509 and 510, if the content of the particular program in which the performance or display is embodied, or any commercial advertising or station announcements transmitted by the primary transmitter during, or immediately before or after, the transmission of such program, is in any way willfully altered by the cable system through changes, deletions, or additions, except for the alteration, deletion, or substitution of commercial advertisements performed by those engaged in television commercial advertising market research: Provided, That the research company has obtained the prior consent of the advertiser who has purchased the original commercial advertisement, the television station broadcasting that commercial advertisement, and the cable system performing the secondary transmission: And provided further, That such commercial alteration, deletion, or substitution is not performed for the purpose of deriving income from the sale of that commercial time.

(4) Notwithstanding the provisions of clause (1) of this subsection, the secondary transmission to the public by a cable system of a performance or display of a work embodied in a primary transmission made by a broadcast station licensed by an appropriate governmental authority of Canada or Mexico is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and section 509, if (A) with respect to Canadian signals, the community of the cable system is located more than 150

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 736 2005

miles from the United States-Canadian border and is also located south of the forty-second parallel of latitude, or (B) with respect to Mexican signals, the secondary transmission is made by a cable system which received the primary transmission by means other than direct interception of a free space radio wave emitted by such broadcast television station, unless prior to April 15, 1976, such cable system was actually carrying, or was specifically authorized to carry, the signal of such foreign station on the system pursuant to the rules, regulations, or authorizations of the Federal Communications Commission.

(d) STATUTORY LICENSE FOR SECONDARY TRANSMISSIONS BY CABLE SYSTEMS.—

(1) A cable system whose secondary transmissions have been subject to statutory licensing under subsection (c) shall, on a semiannual basis, deposit with the Register of Copyrights, in accordance with requirements that the Register shall prescribe by regulation—

(A) a statement of account, covering the six months next preceding, specifying the number of channels on which the cable system made secondary transmissions to its subscribers, the names and locations of all primary transmitters whose transmissions were further transmitted by the cable system, the total number of subscribers, the gross amounts paid to the cable system for the basic service of providing secondary transmissions of primary broadcast transmitters, and such other data as the Register of Copyrights may from time to time prescribe by regulation. In determining the total number of subscribers and the gross amounts paid to the cable system for the basic service of providing secondary transmissions of primary broadcast transmitters, the system shall not include subscribers and amounts collected from subscribers receiving secondary transmissions pursuant to section 119. Such statement shall also include a special statement of account covering any nonnetwork television programming that was carried by the cable system in whole or in part beyond the local service area of the primary transmitter, under rules, regulations, or authorizations of the Federal Communications Commission permitting the substitution or addition of signals under certain circumstances, together with logs showing the times, dates, stations, and programs involved in such substituted or added carriage; and

(B) except in the case of a cable system whose royalty is specified in subclause (C) or (D), a total royalty fee for the period covered by the statement, computed on the basis of specified percentages of the gross receipts from subscribers to the cable service during said period for the basic service of providing secondary transmissions of primary broadcast transmitters, as follows:

(i) 0.675 of 1 per centum of such gross receipts for the privilege of further transmitting any nonnetwork programming of a primary transmitter in whole or in part beyond the local service area of such primary

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 737 2005

transmitter, such amount to be applied against the fee, if any, payable pursuant to paragraphs (ii) through (iv);

(ii) 0.675 of 1 per centum of such gross receipts for the first distant signal equivalent;

(iii) 0.425 of 1 per centum of such gross receipts for each of the second, third, and fourth distant signal equivalents;

(iv) 0.2 of 1 per centum of such gross receipts for the fifth distant signal equivalent and each additional distant signal equivalent thereafter; and

in computing the amounts payable under paragraphs (ii) through (iv), above, any fraction of a distant signal equivalent shall be computed at its fractional value and, in the case of any cable system located partly within and partly without the local service area of a primary transmitter, gross receipts shall be limited to those gross receipts derived from subscribers located without the local service area of such primary transmitter; and

(C) if the actual gross receipts paid by subscribers to a cable system for the period covered by the statement for the basic service of providing secondary transmissions of primary broadcast transmitters total $80,000 or less, gross receipts of the cable system for the purpose of this subclause shall be computed by subtracting from such actual gross receipts the amount by which $80,000 exceeds such actual gross receipts, except that in no case shall a cable system's gross receipts be reduced to less than $3,000. The royalty fee payable under this subclause shall be 0.5 of 1 per centum, regardless of the number of distant signal equivalents, if any; and

(D) if the actual gross receipts paid by subscribers to a cable system for the period covered by the statement, for the basic service of providing secondary transmissions of primary broadcast transmitters, are more than $80,000 but less than $160,000, the royalty fee payable under this subclause shall be (i) 0.5 of 1 per centum of any gross receipts up to $80,000; and (ii) 1 per centum of any gross receipts in excess of $80,000 but less than $160,000, regardless of the number of distant signal equivalents, if any.

(2) The Register of Copyrights shall receive all fees deposited under this section and, after deducting the reasonable costs incurred by the Copyright Office under this section, shall deposit the balance in the Treasury of the United States, in such manner as the Secretary of the Treasury directs. All funds held by the Secretary of the Treasury shall be invested in interest-bearing United States securities for later distribution with interest by the Librarian of Congress in the event no controversy over distribution exists, or by the Copyright Royalty Judges. [1] in the event a controversy over such distribution exists.

[1] So in original. The period probably should not appear.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 738 2005

(3) The royalty fees thus deposited shall, in accordance with the procedures provided by clause (4), be distributed to those among the following copyright owners who claim that their works were the subject of secondary transmissions by cable systems during the relevant semiannual period:

(A) any such owner whose work was included in a secondary transmission made by a cable system of a nonnetwork television program in whole or in part beyond the local service area of the primary transmitter; and

(B) any such owner whose work was included in a secondary transmission identified in a special statement of account deposited under clause (1)(A);

(C) any such owner whose work was included in nonnetwork programming consisting exclusively of aural signals carried by a cable system in whole or in part beyond the local service area of the primary transmitter of such programs.

(4) The royalty fees thus deposited shall be distributed in accordance with the following procedures:

(A) During the month of July in each year, every person claiming to be entitled to statutory license fees for secondary transmissions shall file a claim with the Copyright Royalty Judges, in accordance with requirements that the Copyright Royalty Judges shall prescribe by regulation. Notwithstanding any provisions of the antitrust laws, for purposes of this clause any claimants may agree among themselves as to the proportionate division of statutory licensing fees among them, may lump their claims together and file them jointly or as a single claim, or may designate a common agent to receive payment on their behalf.

(B) After the first day of August of each year, the Copyright Royalty Judges shall determine whether there exists a controversy concerning the distribution of royalty fees. If the Copyright Royalty Judges determine that no such controversy exists, the Librarian shall, after deducting reasonable administrative costs under this section, distribute such fees to the copyright owners entitled to such fees, or to their designated agents. If the Copyright Royalty Judges finds [1] the existence of a controversy, the Copyright Royalty Judges shall, pursuant to chapter 8 of this title, conduct a proceeding to determine the distribution of royalty fees.

(C) During the pendency of any proceeding under this subsection, the Copyright Royalty Judges shall withhold from distribution an amount sufficient to satisfy all claims with respect to which a controversy exists, but shall have discretion to proceed to distribute any amounts that are not in controversy.

(e) NONSIMULTANEOUS SECONDARY TRANSMISSIONS BY CABLE SYSTEMS.—

(1) Notwithstanding those provisions of the second paragraph of subsection (f) relating to nonsimultaneous secondary

[1] So in original. Probably should read "find".

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 739 2005

transmissions by a cable system, any such transmissions are actionable as an act of infringement under section 501, and are fully subject to the remedies provided by sections 502 through 506 and sections 509 and 510, unless—

(A) the program on the videotape is transmitted no more than one time to the cable system's subscribers; and

(B) the copyrighted program, episode, or motion picture videotape, including the commercials contained within such program, episode, or picture, is transmitted without deletion or editing; and

(C) an owner or officer of the cable system (i) prevents the duplication of the videotape while in the possession of the system, (ii) prevents unauthorized duplication while in the possession of the facility making the videotape for the system if the system owns or controls the facility, or takes reasonable precautions to prevent such duplication if it does not own or control the facility, (iii) takes adequate precautions to prevent duplication while the tape is being transported, and (iv) subject to clause (2), erases or destroys, or causes the erasure or destruction of, the videotape; and

(D) within forty-five days after the end of each calendar quarter, an owner or officer of the cable system executes an affidavit attesting (i) to the steps and precautions taken to prevent duplication of the videotape, and (ii) subject to clause (2), to the erasure or destruction of all videotapes made or used during such quarter; and

(E) such owner or officer places or causes each such affidavit, and affidavits received pursuant to clause (2)(C), to be placed in a file, open to public inspection, at such system's main office in the community where the transmission is made or in the nearest community where such system maintains an office; and

(F) the nonsimultaneous transmission is one that the cable system would be authorized to transmit under the rules, regulations, and authorizations of the Federal Communications Commission in effect at the time of the nonsimultaneous transmission if the transmission had been made simultaneously, except that this subclause shall not apply to inadvertent or accidental transmissions.

(2) If a cable system transfers to any person a videotape of a program nonsimultaneously transmitted by it, such transfer is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509; except that, pursuant to a written, nonprofit contract providing for the equitable sharing of the costs of such videotape and its transfer, a videotape nonsimultaneously transmitted by it, in accordance with clause (1), may be transferred by one cable system in Alaska to another system in Alaska, by one cable system in Hawaii permitted to make such nonsimultaneous transmissions to another such cable system in Hawaii, or by one cable system in Guam, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands, to another cable system in any of those three territories, if—

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 740 2005

(A) each such contract is available for public inspection in the offices of the cable systems involved, and a copy of such contract is filed, within thirty days after such contract is entered into, with the Copyright Office (which Office shall make each such contract available for public inspection); and

(B) the cable system to which the videotape is transferred complies with clause (1)(A), (B), (C)(i), (iii), and (iv), and

(D) through (F); and

(C) such system provides a copy of the affidavit required to be made in accordance with clause (1)(D) to each cable system making a previous nonsimultaneous transmission of the same videotape.

(3) This subsection shall not be construed to supersede the exclusivity protection provisions of any existing agreement, or any such agreement hereafter entered into, between a cable system and a television broadcast station in the area in which the cable system is located, or a network with which such station is affiliated.

(4) As used in this subsection, the term "videotape", and each of its variant forms, means the reproduction of the images and sounds of a program or programs broadcast by a television broadcast station licensed by the Federal Communications Commission, regardless of the nature of the material objects, such as tapes or films, in which the reproduction is embodied.

(f) DEFINITIONS.—As used in this section, the following terms and their variant forms mean the following:

A "primary transmission" is a transmission made to the public by the transmitting facility whose signals are being received and further transmitted by the secondary transmission service, regardless of where or when the performance or display was first transmitted.

A "secondary transmission" is the further transmitting of a primary transmission simultaneously with the primary transmission, or nonsimultaneously with the primary transmission if by a "cable system" not located in whole or in part within the boundary of the forty-eight contiguous States, Hawaii, or Puerto Rico: Provided, however, That a nonsimultaneous further transmission by a cable system located in Hawaii of a primary transmission shall be deemed to be a secondary transmission if the carriage of the television broadcast signal comprising such further transmission is permissible under the rules, regulations, or authorizations of the Federal Communications Commission.

A "cable system" is a facility, located in any State, Territory, Trust Territory, or Possession, that in whole or in part receives signals transmitted or programs broadcast by one or more television broadcast stations licensed by the Federal Communications Commission, and makes secondary transmissions of such signals or programs by wires, cables, microwave, or other communications channels to subscribing members of the public who pay for such service. For purposes of determining the royalty fee under subsection (d)(1), two or

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 741 2005

more cable systems in contiguous communities under common ownership or control or operating from one headend shall be considered as one system.

The "local service area of a primary transmitter", in the case of a television broadcast station, comprises the area in which such station is entitled to insist upon its signal being retransmitted by a cable system pursuant to the rules, regulations, and authorizations of the Federal Communications Commission in effect on April 15, 1976, or such station's television market as defined in section 76.55 (e) of title 47, Code of Federal Regulations (as in effect on September 18, 1993), or any modifications to such television market made, on or after September 18, 1993, pursuant to section 76.55(e) or 76.59 of title 47 of the Code of Federal Regulations, or in the case of a television broadcast station licensed by an appropriate governmental authority of Canada or Mexico, the area in which it would be entitled to insist upon its signal being retransmitted if it were a television broadcast station subject to such rules, regulations, and authorizations. In the case of a low power television station, as defined by the rules and regulations of the Federal Communications Commission, the "local service area of a primary transmitter" comprises the area within 35 miles of the transmitter site, except that in the case of such a station located in a standard metropolitan statistical area which has one of the 50 largest populations of all standard metropolitan statistical areas (based on the 1980 decennial census of population taken by the Secretary of Commerce), the number of miles shall be 20 miles. The "local service area of a primary transmitter", in the case of a radio broadcast station, comprises the primary service area of such station, pursuant to the rules and regulations of the Federal Communications Commission.

A "distant signal equivalent" is the value assigned to the secondary transmission of any nonnetwork television programming carried by a cable system in whole or in part beyond the local service area of the primary transmitter of such programming. It is computed by assigning a value of one to each independent station and a value of one-quarter to each network station and noncommercial educational station for the nonnetwork programming so carried pursuant to the rules, regulations, and authorizations of the Federal Communications Commission. The foregoing values for independent, network, and noncommercial educational stations are subject, however, to the following exceptions and limitations. Where the rules and regulations of the Federal Communications Commission require a cable system to omit the further transmission of a particular program and such rules and regulations also permit the substitution of another program embodying a performance or display of a work in place of the omitted transmission, or where such rules and regulations in effect on the date of enactment of this Act permit a cable system, at its election, to effect such deletion and substitution of a nonlive program or to carry additional programs not transmitted by primary transmitters within whose local service area the cable system is located, no value shall be assigned for the substituted or additional pro-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 742 2005

gram; where the rules, regulations, or authorizations of the Federal Communications Commission in effect on the date of enactment of this Act permit a cable system, at its election, to omit the further transmission of a particular program and such rules, regulations, or authorizations also permit the substitution of another program embodying a performance or display of a work in place of the omitted transmission, the value assigned for the substituted or additional program shall be, in the case of a live program, the value of one full distant signal equivalent multiplied by a fraction that has as its numerator the number of days in the year in which such substitution occurs and as its denominator the number of days in the year. In the case of a station carried pursuant to the late-night or specialty programming rules of the Federal Communications Commission, or a station carried on a part-time basis where full-time carriage is not possible because the cable system lacks the activated channel capacity to retransmit on a full-time basis all signals which it is authorized to carry, the values for independent, network, and noncommercial educational stations set forth above, as the case may be, shall be multiplied by a fraction which is equal to the ratio of the broadcast hours of such station carried by the cable system to the total broadcast hours of the station.

A "network station" is a television broadcast station that is owned or operated by, or affiliated with, one or more of the television networks in the United States providing nationwide transmissions, and that transmits a substantial part of the programming supplied by such networks for a substantial part of that station's typical broadcast day.

An "independent station" is a commercial television broadcast station other than a network station.

A "noncommercial educational station" is a television station that is a noncommercial educational broadcast station as defined in section 397 of title 47.

§ 112. Limitations on exclusive rights: Ephemeral recordings

(a)(1) Notwithstanding the provisions of section 106, and except in the case of a motion picture or other audiovisual work, it is not an infringement of copyright for a transmitting organization entitled to transmit to the public a performance or display of a work, under a license, including a statutory license under section 114(f), or transfer of the copyright or under the limitations on exclusive rights in sound recordings specified by section 114(a), or for a transmitting organization that is a broadcast radio or television station licensed as such by the Federal Communications Commission and that makes a broadcast transmission of a performance of a sound recording in a digital format on a nonsubscription basis, to make no more than one copy or phonorecord of a particular transmission program embodying the performance or display, if—

(A) the copy or phonorecord is retained and used solely by the transmitting organization that made it, and no further copies or phonorecords are reproduced from it; and

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 743 2005

(B) the copy or phonorecord is used solely for the transmitting organization's own transmissions within its local service area, or for purposes of archival preservation or security; and

(C) unless preserved exclusively for archival purposes, the copy or phonorecord is destroyed within six months from the date the transmission program was first transmitted to the public.

(2) In a case in which a transmitting organization entitled to make a copy or phonorecord under paragraph (1) in connection with the transmission to the public of a performance or display of a work is prevented from making such copy or phonorecord by reason of the application by the copyright owner of technical measures that prevent the reproduction of the work, the copyright owner shall make available to the transmitting organization the necessary means for permitting the making of such copy or phonorecord as permitted under that paragraph, if it is technologically feasible and economically reasonable for the copyright owner to do so. If the copyright owner fails to do so in a timely manner in light of the transmitting organization's reasonable business requirements, the transmitting organization shall not be liable for a violation of section 1201(a)(1) of this title for engaging in such activities as are necessary to make such copies or phonorecords as permitted under paragraph (1) of this subsection.

(b) Notwithstanding the provisions of section 106, it is not an infringement of copyright for a governmental body or other nonprofit organization entitled to transmit a performance or display of a work, under section 110(2) or under the limitations on exclusive rights in sound recordings specified by section 114(a), to make no more than thirty copies or phonorecords of a particular transmission program embodying the performance or display, if—

(1) no further copies or phonorecords are reproduced from the copies or phonorecords made under this clause; and

(2) except for one copy or phonorecord that may be preserved exclusively for archival purposes, the copies or phonorecords are destroyed within seven years from the date the transmission program was first transmitted to the public.

(c) Notwithstanding the provisions of section 106, it is not an infringement of copyright for a governmental body or other nonprofit organization to make for distribution no more than one copy or phonorecord, for each transmitting organization specified in clause (2) of this subsection, of a particular transmission program embodying a performance of a nondramatic musical work of a religious nature, or of a sound recording of such a musical work, if—

(1) there is no direct or indirect charge for making or distributing any such copies or phonorecords; and

(2) none of such copies or phonorecords is used for any performance other than a single transmission to the public by a transmitting organization entitled to transmit to the public a performance of the work under a license or transfer of the copyright; and

(3) except for one copy or phonorecord that may be preserved exclusively for archival purposes, the copies or phonorecords are all destroyed within one year from the date the transmission program was first transmitted to the public.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 744 2005

(d) Notwithstanding the provisions of section 106, it is not an infringement of copyright for a governmental body or other nonprofit organization entitled to transmit a performance of a work under section 110(8) to make no more than ten copies or phonorecords embodying the performance, or to permit the use of any such copy or phonorecord by any governmental body or nonprofit organization entitled to transmit a performance of a work under section 110(8), if—

(1) any such copy or phonorecord is retained and used solely by the organization that made it, or by a governmental body or nonprofit organization entitled to transmit a performance of a work under section 110(8), and no further copies or phonorecords are reproduced from it; and

(2) any such copy or phonorecord is used solely for transmissions authorized under section 110(8), or for purposes of archival preservation or security; and

(3) the governmental body or nonprofit organization permitting any use of any such copy or phonorecord by any governmental body or nonprofit organization under this subsection does not make any charge for such use.

(e) STATUTORY LICENSE.—(1) A transmitting organization entitled to transmit to the public a performance of a sound recording under the limitation on exclusive rights specified by section 114(d)(1)(C)(iv) or under a statutory license in accordance with section 114(f) is entitled to a statutory license, under the conditions specified by this subsection, to make no more than 1 phonorecord of the sound recording (unless the terms and conditions of the statutory license allow for more), if the following conditions are satisfied:

(A) The phonorecord is retained and used solely by the transmitting organization that made it, and no further phonorecords are reproduced from it.

(B) The phonorecord is used solely for the transmitting organization's own transmissions originating in the United States under a statutory license in accordance with section 114(f) or the limitation on exclusive rights specified by section 114(d)(1)(C)(iv).

(C) Unless preserved exclusively for purposes of archival preservation, the phonorecord is destroyed within 6 months from the date the sound recording was first transmitted to the public using the phonorecord.

(D) Phonorecords of the sound recording have been distributed to the public under the authority of the copyright owner or the copyright owner authorizes the transmitting entity to transmit the sound recording, and the transmitting entity makes the phonorecord under this subsection from a phonorecord lawfully made and acquired under the authority of the copyright owner.

(2) Notwithstanding any provision of the antitrust laws, any copyright owners of sound recordings and any transmitting organizations entitled to a statutory license under this subsection may negotiate and agree upon royalty rates and license terms and conditions for making phonorecords of such sound recordings under this section and the proportionate division of fees paid among copy-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 745 2005

right owners, and may designate common agents to negotiate, agree to, pay, or receive such royalty payments.

(3) Proceedings under chapter 8 shall determine reasonable rates and terms of royalty payments for the activities specified by paragraph (1) during the 5-year period beginning on January 1 of the second year following the year in which the proceedings are to be commenced, or such other period as the parties may agree. Such rates shall include a minimum fee for each type of service offered by transmitting organizations. Any copyright owners of sound recordings or any transmitting organizations entitled to a statutory license under this subsection may submit to the Copyright Royalty Judges licenses covering such activities with respect to such sound recordings. The parties to each proceeding shall bear their own costs.

(4) The schedule of reasonable rates and terms determined by the Copyright Royalty Judges shall, subject to paragraph (5), be binding on all copyright owners of sound recordings and transmitting organizations entitled to a statutory license under this subsection during the 5-year period specified in paragraph (3), or such other period as the parties may agree. Such rates shall include a minimum fee for each type of service offered by transmitting organizations. The Copyright Royalty Judges shall establish rates that most clearly represent the fees that would have been negotiated in the marketplace between a willing buyer and a willing seller. In determining such rates and terms, the Copyright Royalty Judges shall base their decision on economic, competitive, and programming information presented by the parties, including—

(A) whether use of the service may substitute for or may promote the sales of phonorecords or otherwise interferes with or enhances the copyright owner's traditional streams of revenue; and

(B) the relative roles of the copyright owner and the transmitting organization in the copyrighted work and the service made available to the public with respect to relative creative contribution, technological contribution, capital investment, cost, and risk.

In establishing such rates and terms, the Copyright Royalty Judges may consider the rates and terms under voluntary license agreements described in paragraphs (2) and (3). The Copyright Royalty Judges shall also establish requirements by which copyright owners may receive reasonable notice of the use of their sound recordings under this section, and under which records of such use shall be kept and made available by transmitting organizations entitled to obtain a statutory license under this subsection.

(5) License agreements voluntarily negotiated at any time between 1 or more copyright owners of sound recordings and 1 or more transmitting organizations entitled to obtain a statutory license under this subsection shall be given effect in lieu of any decision by the Librarian of Congress or determination by the Copyright Royalty Judges.

(6)(A) Any person who wishes to make a phonorecord of a sound recording under a statutory license in accordance with this subsection may do so without infringing the exclusive right of the copyright owner of the sound recording under section 106(1)—

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 746 2005

(i) by complying with such notice requirements as the Copyright Royalty Judges shall prescribe by regulation and by paying royalty fees in accordance with this subsection; or

(ii) if such royalty fees have not been set, by agreeing to pay such royalty fees as shall be determined in accordance with this subsection.

(B) Any royalty payments in arrears shall be made on or before the 20th day of the month next succeeding the month in which the royalty fees are set.

(7) If a transmitting organization entitled to make a phonorecord under this subsection is prevented from making such phonorecord by reason of the application by the copyright owner of technical measures that prevent the reproduction of the sound recording, the copyright owner shall make available to the transmitting organization the necessary means for permitting the making of such phonorecord as permitted under this subsection, if it is technologically feasible and economically reasonable for the copyright owner to do so. If the copyright owner fails to do so in a timely manner in light of the transmitting organization's reasonable business requirements, the transmitting organization shall not be liable for a violation of section 1201(a)(1) of this title for engaging in such activities as are necessary to make such phonorecords as permitted under this subsection.

(8) Nothing in this subsection annuls, limits, impairs, or otherwise affects in any way the existence or value of any of the exclusive rights of the copyright owners in a sound recording, except as otherwise provided in this subsection, or in a musical work, including the exclusive rights to reproduce and distribute a sound recording or musical work, including by means of a digital phonorecord delivery, under sections 106(1), 106(3), and 115, and the right to perform publicly a sound recording or musical work, including by means of a digital audio transmission, under sections 106(4) and 106(6).

(f)(1) Notwithstanding the provisions of section 106, and without limiting the application of subsection (b), it is not an infringement of copyright for a governmental body or other nonprofit educational institution entitled under section 110(2) to transmit a performance or display to make copies or phonorecords of a work that is in digital form and, solely to the extent permitted in paragraph (2), of a work that is in analog form, embodying the performance or display to be used for making transmissions authorized under section 110(2), if—

(A) such copies or phonorecords are retained and used solely by the body or institution that made them, and no further copies or phonorecords are reproduced from them, except as authorized under section 110(2); and

(B) such copies or phonorecords are used solely for transmissions authorized under section 110(2).

(2) This subsection does not authorize the conversion of print or other analog versions of works into digital formats, except that such conversion is permitted hereunder, only with respect to the amount of such works authorized to be performed or displayed under section 110(2), if—

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 747 2005

(A) no digital version of the work is available to the institution; or

(B) the digital version of the work that is available to the institution is subject to technological protection measures that prevent its use for section 110(2).

(g) The transmission program embodied in a copy or phonorecord made under this section is not subject to protection as a derivative work under this title except with the express consent of the owners of copyright in the preexisting works employed in the program.

* * * * * * *

§ 114. Scope of exclusive rights in sound recordings

(a) The exclusive rights of the owner of copyright in a sound recording are limited to the rights specified by clauses (1), (2), (3) and (6) of section 106, and do not include any right of performance under section 106(4).

(b) The exclusive right of the owner of copyright in a sound recording under clause (1) of section 106 is limited to the right to duplicate the sound recording in the form of phonorecords or copies that directly or indirectly recapture the actual sounds fixed in the recording. The exclusive right of the owner of copyright in a sound recording under clause (2) of section 106 is limited to the right to prepare a derivative work in which the actual sounds fixed in the sound recording are rearranged, remixed, or otherwise altered in sequence or quality. The exclusive rights of the owner of copyright in a sound recording under clauses (1) and (2) of section 106 do not extend to the making or duplication of another sound recording that consists entirely of an independent fixation of other sounds, even though such sounds imitate or simulate those in the copyrighted sound recording. The exclusive rights of the owner of copyright in a sound recording under clauses (1), (2), and (3) of section 106 do not apply to sound recordings included in educational television and radio programs (as defined in section 397 of title 47) distributed or transmitted by or through public broadcasting entities (as defined by section 118(g)): Provided, That copies or phonorecords of said programs are not commercially distributed by or through public broadcasting entities to the general public.

(c) This section does not limit or impair the exclusive right to perform publicly, by means of a phonorecord, any of the works specified by section 106(4).

(d) LIMITATIONS ON EXCLUSIVE RIGHT.—Notwithstanding the provisions of section 106(6)—

(1) EXEMPT TRANSMISSIONS AND RETRANSMISSIONS.—The performance of a sound recording publicly by means of a digital audio transmission, other than as a part of an interactive service, is not an infringement of section 106(6) if the performance is part of—

(A) a nonsubscription broadcast transmission;

(B) a retransmission of a nonsubscription broadcast transmission: Provided, That, in the case of a retransmission of a radio station's broadcast transmission—

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 748 2005

(i) the radio station's broadcast transmission is not willfully or repeatedly retransmitted more than a radius of 150 miles from the site of the radio broadcast transmitter, however—

(I) the 150 mile limitation under this clause shall not apply when a nonsubscription broadcast transmission by a radio station licensed by the Federal Communications Commission is retransmitted on a nonsubscription basis by a terrestrial broadcast station, terrestrial translator, or terrestrial repeater licensed by the Federal Communications Commission; and

(II) in the case of a subscription retransmission of a nonsubscription broadcast retransmission covered by subclause (I), the 150 mile radius shall be measured from the transmitter site of such broadcast retransmitter;

(II) in the case of a subscription retransmission of a nonsubscription broadcast retransmission covered by subclause (I), the 150 mile radius shall be measured from the transmitter site of such broadcast retransmitter;

(ii) the retransmission is of radio station broadcast transmissions that are—

(I) obtained by the retransmitter over the air;

(II) not electronically processed by the retransmitter to deliver separate and discrete signals; and

(III) retransmitted only within the local communities served by the retransmitter;

(iii) the radio station's broadcast transmission was being retransmitted to cable systems (as defined in section 111(f)) by a satellite carrier on January 1, 1995, and that retransmission was being retransmitted by cable systems as a separate and discrete signal, and the satellite carrier obtains the radio station's broadcast transmission in an analog format: Provided, That the broadcast transmission being retransmitted may embody the programming of no more than one radio station; or

(iv) the radio station's broadcast transmission is made by a noncommercial educational broadcast station funded on or after January 1, 1995, under section 396(k) of the Communications Act of 1934 (47 U.S.C. 396(k)), consists solely of noncommercial educational and cultural radio programs, and the retransmission, whether or not simultaneous, is a nonsubscription terrestrial broadcast retransmission; or

(C) a transmission that comes within any of the following categories—

(i) a prior or simultaneous transmission incidental to an exempt transmission, such as a feed received by and then retransmitted by an exempt transmitter: Provided, That such incidental transmissions do not

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 749 2005

include any subscription transmission directly for reception by members of the public;

(ii) a transmission within a business establishment, confined to its premises or the immediately surrounding vicinity;

(iii) a retransmission by any retransmitter, including a multichannel video programming distributor as defined in section 602(12) of the Communications Act of 1934 (47 U.S.C. 522(12)), of a transmission by a transmitter licensed to publicly perform the sound recording as a part of that transmission, if the retransmission is simultaneous with the licensed transmission and authorized by the transmitter;

(iv) a transmission to a business establishment for use in the ordinary course of its business: Provided, That the business recipient does not retransmit the transmission outside of its premises or the immediately surrounding vicinity, and that the transmission does not exceed the sound recording performance complement. Nothing in this clause shall limit the scope of the exemption in clause (ii).

(2) STATUTORY LICENSING OF CERTAIN TRANSMISSIONS.—The performance of a sound recording publicly by means of a subscription digital audio transmission not exempt under paragraph (1), an eligible nonsubscription transmission, or a transmission not exempt under paragraph (1) that is made by a preexisting satellite digital audio radio service shall be subject to statutory licensing, in accordance with subsection (f) if—

(A)(i) the transmission is not part of an interactive service;

(ii) except in the case of a transmission to a business establishment, the transmitting entity does not automatically and intentionally cause any device receiving the transmission to switch from one program channel to another; and

(iii) except as provided in section 1002(e), the transmission of the sound recording is accompanied, if technically feasible, by the information encoded in that sound recording, if any, by or under the authority of the copyright owner of that sound recording, that identifies the title of the sound recording, the featured recording artist who performs on the sound recording, and related information, including information concerning the underlying musical work and its writer;

(B) in the case of a subscription transmission not exempt under paragraph (1) that is made by a preexisting subscription service in the same transmission medium used by such service on July 31, 1998, or in the case of a transmission not exempt under paragraph (1) that is made by a preexisting satellite digital audio radio service—

(i) the transmission does not exceed the sound recording performance complement; and

(ii) the transmitting entity does not cause to be published by means of an advance program schedule

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 750 2005

or prior announcement the titles of the specific sound recordings or phonorecords embodying such sound recordings to be transmitted; and

(C) in the case of an eligible nonsubscription transmission or a subscription transmission not exempt under paragraph (1) that is made by a new subscription service or by a preexisting subscription service other than in the same transmission medium used by such service on July 31, 1998—

(i) the transmission does not exceed the sound recording performance complement, except that this requirement shall not apply in the case of a retransmission of a broadcast transmission if the retransmission is made by a transmitting entity that does not have the right or ability to control the programming of the broadcast station making the broadcast transmission, unless—

(I) the broadcast station makes broadcast transmissions—

(aa) in digital format that regularly exceed the sound recording performance complement; or

(bb) in analog format, a substantial portion of which, on a weekly basis, exceed the sound recording performance complement; and

(II) the sound recording copyright owner or its representative has notified the transmitting entity in writing that broadcast transmissions of the copyright owner's sound recordings exceed the sound recording performance complement as provided in this clause;

(ii) the transmitting entity does not cause to be published, or induce or facilitate the publication, by means of an advance program schedule or prior announcement, the titles of the specific sound recordings to be transmitted, the phonorecords embodying such sound recordings, or, other than for illustrative purposes, the names of the featured recording artists, except that this clause does not disqualify a transmitting entity that makes a prior announcement that a particular artist will be featured within an unspecified future time period, and in the case of a retransmission of a broadcast transmission by a transmitting entity that does not have the right or ability to control the programming of the broadcast transmission, the requirement of this clause shall not apply to a prior oral announcement by the broadcast station, or to an advance program schedule published, induced, or facilitated by the broadcast station, if the transmitting entity does not have actual knowledge and has not received written notice from the copyright owner or its representative that the broadcast station publishes or induces or facilitates the publication of such advance

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 751 2005

program schedule, or if such advance program schedule is a schedule of classical music programming published by the broadcast station in the same manner as published by that broadcast station on or before September 30, 1998;

(iii) the transmission—

(I) is not part of an archived program of less than 5 hours duration;

(II) is not part of an archived program of 5 hours or greater in duration that is made available for a period exceeding 2 weeks;

(III) is not part of a continuous program which is of less than 3 hours duration; or

(IV) is not part of an identifiable program in which performances of sound recordings are rendered in a predetermined order, other than an archived or continuous program, that is transmitted at—

(aa) more than 3 times in any 2-week period that have been publicly announced in advance, in the case of a program of less than 1 hour in duration, or

(bb) more than 4 times in any 2-week period that have been publicly announced in advance, in the case of a program of 1 hour or more in duration,

except that the requirement of this subclause shall not apply in the case of a retransmission of a broadcast transmission by a transmitting entity that does not have the right or ability to control the programming of the broadcast transmission, unless the transmitting entity is given notice in writing by the copyright owner of the sound recording that the broadcast station makes broadcast transmissions that regularly violate such requirement;

(iv) the transmitting entity does not knowingly perform the sound recording, as part of a service that offers transmissions of visual images contemporaneously with transmissions of sound recordings, in a manner that is likely to cause confusion, to cause mistake, or to deceive, as to the affiliation, connection, or association of the copyright owner or featured recording artist with the transmitting entity or a particular product or service advertised by the transmitting entity, or as to the origin, sponsorship, or approval by the copyright owner or featured recording artist of the activities of the transmitting entity other than the performance of the sound recording itself;

(v) the transmitting entity cooperates to prevent, to the extent feasible without imposing substantial costs or burdens, a transmission recipient or any other person or entity from automatically scanning the transmitting entity's transmissions alone or together

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 752 2005

with transmissions by other transmitting entities in order to select a particular sound recording to be transmitted to the transmission recipient, except that the requirement of this clause shall not apply to a satellite digital audio service that is in operation, or that is licensed by the Federal Communications Commission, on or before July 31, 1998;

(vi) the transmitting entity takes no affirmative steps to cause or induce the making of a phonorecord by the transmission recipient, and if the technology used by the transmitting entity enables the transmitting entity to limit the making by the transmission recipient of phonorecords of the transmission directly in a digital format, the transmitting entity sets such technology to limit such making of phonorecords to the extent permitted by such technology;

(vii) phonorecords of the sound recording have been distributed to the public under the authority of the copyright owner or the copyright owner authorizes the transmitting entity to transmit the sound recording, and the transmitting entity makes the transmission from a phonorecord lawfully made under the authority of the copyright owner, except that the requirement of this clause shall not apply to a retransmission of a broadcast transmission by a transmitting entity that does not have the right or ability to control the programming of the broadcast transmission, unless the transmitting entity is given notice in writing by the copyright owner of the sound recording that the broadcast station makes broadcast transmissions that regularly violate such requirement;

(viii) the transmitting entity accommodates and does not interfere with the transmission of technical measures that are widely used by sound recording copyright owners to identify or protect copyrighted works, and that are technically feasible of being transmitted by the transmitting entity without imposing substantial costs on the transmitting entity or resulting in perceptible aural or visual degradation of the digital signal, except that the requirement of this clause shall not apply to a satellite digital audio service that is in operation, or that is licensed under the authority of the Federal Communications Commission, on or before July 31, 1998, to the extent that such service has designed, developed, or made commitments to procure equipment or technology that is not compatible with such technical measures before such technical measures are widely adopted by sound recording copyright owners; and

(ix) the transmitting entity identifies in textual data the sound recording during, but not before, the time it is performed, including the title of the sound recording, the title of the phonorecord embodying such sound recording, if any, and the featured recording

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 753 2005

artist, in a manner to permit it to be displayed to the transmission recipient by the device or technology intended for receiving the service provided by the transmitting entity, except that the obligation in this clause shall not take effect until 1 year after the date of the enactment of the Digital Millennium Copyright Act and shall not apply in the case of a retransmission of a broadcast transmission by a transmitting entity that does not have the right or ability to control the programming of the broadcast transmission, or in the case in which devices or technology intended for receiving the service provided by the transmitting entity that have the capability to display such textual data are not common in the marketplace.

(3) LICENSES FOR TRANSMISSIONS BY INTERACTIVE SERVICES.—

(A) No interactive service shall be granted an exclusive license under section 106(6) for the performance of a sound recording publicly by means of digital audio transmission for a period in excess of 12 months, except that with respect to an exclusive license granted to an interactive service by a licensor that holds the copyright to 1,000 or fewer sound recordings, the period of such license shall not exceed 24 months: Provided, however, That the grantee of such exclusive license shall be ineligible to receive another exclusive license for the performance of that sound recording for a period of 13 months from the expiration of the prior exclusive license.

(B) The limitation set forth in subparagraph (A) of this paragraph shall not apply if—

(i) the licensor has granted and there remain in effect licenses under section 106(6) for the public performance of sound recordings by means of digital audio transmission by at least 5 different interactive services: Provided, however, That each such license must be for a minimum of 10 percent of the copyrighted sound recordings owned by the licensor that have been licensed to interactive services, but in no event less than 50 sound recordings; or

(ii) the exclusive license is granted to perform publicly up to 45 seconds of a sound recording and the sole purpose of the performance is to promote the distribution or performance of that sound recording.

(C) Notwithstanding the grant of an exclusive or nonexclusive license of the right of public performance under section 106(6), an interactive service may not publicly perform a sound recording unless a license has been granted for the public performance of any copyrighted musical work contained in the sound recording: Provided, That such license to publicly perform the copyrighted musical work may be granted either by a performing rights society representing the copyright owner or by the copyright owner.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 754 2005

(D) The performance of a sound recording by means of a retransmission of a digital audio transmission is not an infringement of section 106(6) if—

(i) the retransmission is of a transmission by an interactive service licensed to publicly perform the sound recording to a particular member of the public as part of that transmission; and

(ii) the retransmission is simultaneous with the licensed transmission, authorized by the transmitter, and limited to that particular member of the public intended by the interactive service to be the recipient of the transmission.

(E) For the purposes of this paragraph—

(i) a "licensor" shall include the licensing entity and any other entity under any material degree of common ownership, management, or control that owns copyrights in sound recordings; and

(ii) a "performing rights society" is an association or corporation that licenses the public performance of nondramatic musical works on behalf of the copyright owner, such as the American Society of Composers, Authors and Publishers, Broadcast Music, Inc., and SESAC, Inc.

(4) RIGHTS NOT OTHERWISE LIMITED.—

(A) Except as expressly provided in this section, this section does not limit or impair the exclusive right to perform a sound recording publicly by means of a digital audio transmission under section 106(6).

(B) Nothing in this section annuls or limits in any way—

(i) the exclusive right to publicly perform a musical work, including by means of a digital audio transmission, under section 106(4);

(ii) the exclusive rights in a sound recording or the musical work embodied therein under sections 106(1), 106(2) and 106(3); or

(iii) any other rights under any other clause of section 106, or remedies available under this title, as such rights or remedies exist either before or after the date of enactment of the Digital Performance Right in Sound Recordings Act of 1995.

(C) Any limitations in this section on the exclusive right under section 106(6) apply only to the exclusive right under section 106(6) and not to any other exclusive rights under section 106. Nothing in this section shall be construed to annul, limit, impair or otherwise affect in any way the ability of the owner of a copyright in a sound recording to exercise the rights under sections 106(1), 106(2) and 106(3), or to obtain the remedies available under this title pursuant to such rights, as such rights and remedies exist either before or after the date of enactment of the Digital Performance Right in Sound Recordings Act of 1995.

(e) AUTHORITY FOR NEGOTIATIONS.—

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 755 2005

(1) Notwithstanding any provision of the antitrust laws, in negotiating statutory licenses in accordance with subsection (f), any copyright owners of sound recordings and any entities performing sound recordings affected by this section may negotiate and agree upon the royalty rates and license terms and conditions for the performance of such sound recordings and the proportionate division of fees paid among copyright owners, and may designate common agents on a nonexclusive basis to negotiate, agree to, pay, or receive payments.

(2) For licenses granted under section 106(6), other than statutory licenses, such as for performances by interactive services or performances that exceed the sound recording performance complement—

(A) copyright owners of sound recordings affected by this section may designate common agents to act on their behalf to grant licenses and receive and remit royalty payments:

Provided, That each copyright owner shall establish the royalty

rates and material license terms and conditions unilaterally,

that is, not in agreement, combination, or concert with other

copyright owners of sound recordings; and

(B) entities performing sound recordings affected by this section may designate common agents to act on their behalf to obtain licenses and collect and pay royalty fees: Provided, That each entity performing sound recordings shall determine the royalty rates and material license terms and conditions unilaterally, that is, not in agreement, combination, or concert with other entities performing sound recordings.

(f) LICENSES FOR CERTAIN NONEXEMPT TRANSMISSIONS.—

(1)(A) Proceedings under chapter 8 shall determine reasonable rates and terms of royalty payments for subscription transmissions by preexisting subscription services and transmissions by preexisting satellite digital audio radio services specified by subsection (d)(2) during the 5-year period beginning on January 1 of the second year following the year in which the proceedings are to be commenced, except where a different transitional period is provided under section 6(b)(3) of the Copyright Royalty and Distribution Reform Act of 2004 or such other period. Such terms and rates shall distinguish among the different types of digital audio transmission services then in operation. Any copyright owners of sound recordings, preexisting subscription services, or preexisting satellite digital audio radio services may submit to the Copyright Royalty Judges licenses covering such subscription transmissions with respect to such sound recordings. The parties to each proceeding shall bear their own costs.

(B) The schedule of reasonable rates and terms determined by the Copyright Royalty Judges shall, subject to paragraph (3), be binding on all copyright owners of sound recordings and entities performing sound recordings affected by this para-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 756 2005

graph during the 5-year period specified in subparagraph (A), a transitional period provided under section 6(b)(3) of the Copyright Royalty and Distribution Reform Act of 2004, or such other period as the parties may agree. In establishing rates and terms for preexisting subscription services and preexisting satellite digital audio radio services, in addition to the objectives set forth in section 801(b)(1), the Copyright Royalty Judges may consider the rates and terms for comparable types of subscription digital audio transmission services and comparable circumstances under voluntary license agreements described in subparagraph (A).

(C) The procedures under subparagraphs (A) and (B) also shall be initiated pursuant to a petition filed by any copyright owners of sound recordings, any preexisting subscription services, or any preexisting satellite digital audio radio services indicating that a new type of subscription digital audio transmission service on which sound recordings are performed is or is about to become operational, for the purpose of determining reasonable terms and rates of royalty payments with respect to such new type of transmission service for the period beginning with the inception of such new type of service and ending on the date on which the royalty rates and terms for subscription digital audio transmission services most recently determined under subparagraph (A) or (B) and chapter 8 expire, or such other period as the parties may agree.

(2)(A) Proceedings under chapter 8 shall determine reasonable rates and terms of royalty payments for subscription transmissions by eligible nonsubscription transmission services and transmissions by new subscription services specified by subsection (d)(2) during the 5-year period beginning on January 1 of the second year following the year in which the proceedings are to be commenced, except where a different transitional period is provided under section 6(b)(3) of the Copyright Royalty and Distribution Reform Act of 2004, or such other period as the parties may agree. Such rates and terms shall distinguish among the different types of eligible nonsubscription transmission services and new subscription services then in operation and shall include a minimum fee for each such type of service. Any copyright owners of sound recordings or any entities performing sound recordings affected by this paragraph may submit to the Copyright Royalty Judges licenses covering such eligible nonsubscription transmissions and new subscription services with respect to such sound recordings. The parties to each proceeding shall bear their own costs.

(B) The schedule of reasonable rates and terms determined by the Copyright Royalty Judges shall, subject to paragraph (3), be binding on all copyright owners of sound recordings and entities performing sound recordings affected by this paragraph during the 5-year period specified in subparagraph (A), a transitional period provided under section 6(b)(3) of the Copyright Royalty and Distribution Act of 2004, or such other period as the parties may agree. Such rates and terms shall distinguish among the different types of eligible nonsubscription transmission services then in operation and shall include

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 757 2005

a minimum fee for each such type of service, such differences to be based on criteria including, but not limited to, the quantity and nature of the use of sound recordings and the degree to which use of the service may substitute for or may promote the purchase of phonorecords by consumers. In establishing rates and terms for transmissions by eligible nonsubscription services and new subscription services, the Copyright Royalty Judges shall establish rates and terms that most clearly represent the rates and terms that would have been negotiated in the marketplace between a willing buyer and a willing seller. In determining such rates and terms, the Copyright Royalty Judges shall base its decision on economic, competitive and programming information presented by the parties, including—

(i) whether use of the service may substitute for or may promote the sales of phonorecords or otherwise may interfere with or may enhance the sound recording copyright owner's other streams of revenue from its sound recordings; and

(ii) the relative roles of the copyright owner and the transmitting entity in the copyrighted work and the service made available to the public with respect to relative creative contribution, technological contribution, capital investment, cost, and risk.

In establishing such rates and terms, the Copyright Royalty Judges may consider the rates and terms for comparable types of digital audio transmission services and comparable circumstances under voluntary license agreements described in subparagraph (A).

(C) The procedures under subparagraphs (A) and (B) shall also be initiated pursuant to a petition filed by any copyright owners of sound recordings or any eligible nonsubscription service or new subscription service indicating that a new type of eligible nonsubscription service or new subscription service on which sound recordings are performed is or is about to become operational, for the purpose of determining reasonable terms and rates of royalty payments with respect to such new type of service for the period beginning with the inception of such new type of service and ending on the date on which the royalty rates and terms for preexisting subscription digital audio transmission services or preexisting satellite digital radio audio services, as the case may be, most recently determined under subparagraph (A) or (B) and chapter 8 expire, or such other period as the parties may agree.

(3) License agreements voluntarily negotiated at any time between 1 or more copyright owners of sound recordings and 1 or more entities performing sound recordings shall be given effect in lieu of any decision by the Librarian of Congress or determination by the Copyright Royalty Judges.

(4)(A) The Copyright Royalty Judges shall also establish requirements by which copyright owners may receive reasonable notice of the use of their sound recordings under this section, and under which records of such use shall be kept and made available by entities performing sound recordings. The notice and recordkeeping rules in effect on the day before the

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 758 2005

effective date of the Copyright Royalty and Distribution Reform Act of 2004 shall remain in effect unless and until new regulations are promulgated by the Copyright Royalty Judges. If new regulations are promulgated under this subparagraph, the Copyright Royalty Judges shall take into account the substance and effect of the rules in effect on the day before the effective date of the Copyright Royalty and Distribution Reform Act of 2004 and shall, to the extent practicable, avoid significant disruption of the functions of any designated agent authorized to collect and distribute royalty fees.

(B) Any person who wishes to perform a sound recording publicly by means of a transmission eligible for statutory licensing under this subsection may do so without infringing the exclusive right of the copyright owner of the sound recording—

(i) by complying with such notice requirements as the Copyright Royalty Judges shall prescribe by regulation and by paying royalty fees in accordance with this subsection; or

(ii) if such royalty fees have not been set, by agreeing to pay such royalty fees as shall be determined in accordance with this subsection.

(C) Any royalty payments in arrears shall be made on or before the twentieth day of the month next succeeding the month in which the royalty fees are set.

(5)(A) Notwithstanding section 112(e) and the other provisions of this subsection, the receiving agent may enter into agreements for the reproduction and performance of sound recordings under section 112(e) and this section by any 1 or more small commercial webcasters or noncommercial webcasters during the period beginning on October 28, 1998, and ending on December 31, 2004, that, once published in the Federal Register pursuant to subparagraph (B), shall be binding on all copyright owners of sound recordings and other persons entitled to payment under this section, in lieu of any determination by a copyright arbitration royalty panel or decision by the Librarian of Congress. Any such agreement for small commercial webcasters shall include provisions for payment of royalties on the basis of a percentage of revenue or expenses, or both, and include a minimum fee. Any such agreement may include other terms and conditions, including requirements by which copyright owners may receive notice of the use of their sound recordings and under which records of such use shall be kept and made available by small commercial webcasters or noncommercial webcasters. The receiving agent shall be under no obligation to negotiate any such agreement. The receiving agent shall have no obligation to any copyright owner of sound recordings or any other person entitled to payment under this section in negotiating any such agreement, and no liability to any copyright owner of sound recordings or any other person entitled to payment under this section for having entered into such agreement.

(B) The Copyright Office shall cause to be published in the Federal Register any agreement entered into pursuant to subparagraph (A). Such publication shall include a statement con-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 759 2005

taining the substance of subparagraph (C). Such agreements shall not be included in the Code of Federal Regulations. Thereafter, the terms of such agreement shall be available, as an option, to any small commercial webcaster or noncommercial webcaster meeting the eligibility conditions of such agreement.

(C) Neither subparagraph (A) nor any provisions of any agreement entered into pursuant to subparagraph (A), including any rate structure, fees, terms, conditions, or notice and recordkeeping requirements set forth therein, shall be admissible as evidence or otherwise taken into account in any administrative, judicial, or other government proceeding involving the setting or adjustment of the royalties payable for the public performance or reproduction in ephemeral phonorecords or copies of sound recordings, the determination of terms or conditions related thereto, or the establishment of notice or recordkeeping requirements by the Librarian of Congress under paragraph (4) or section 112(e)(4). It is the intent of Congress that any royalty rates, rate structure, definitions, terms, conditions, or notice and recordkeeping requirements, included in such agreements shall be considered as a compromise motivated by the unique business, economic and political circumstances of small webcasters, copyright owners, and performers rather than as matters that would have been negotiated in the marketplace between a willing buyer and a willing seller, or otherwise meet the objectives set forth in section 801(b).

(D) Nothing in the Small Webcaster Settlement Act of 2002 or any agreement entered into pursuant to subparagraph (A) shall be taken into account by the United States Court of Appeals for the District of Columbia Circuit in its review of the determination by the Librarian of Congress of July 8, 2002, of rates and terms for the digital performance of sound recordings and ephemeral recordings, pursuant to sections 112 and 114.

(E) As used in this paragraph—

(i) the term "noncommercial webcaster" means a webcaster that—

(I) is exempt from taxation under section 501 of the Internal Revenue Code of 1986 (26 U.S.C. 501);

(II) has applied in good faith to the Internal Revenue Service for exemption from taxation under section 501 of the Internal Revenue Code and has a commercially reasonable expectation that such exemption shall be granted; or

(II) has applied in good faith to the Internal Revenue Service for exemption from taxation under section 501 of the Internal Revenue Code and has a commercially reasonable expectation that such exemption shall be granted; or

(III) is operated by a State or possession or any governmental entity or subordinate thereof, or by the United States or District of Columbia, for exclusively public purposes;

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 760 2005

(ii) the term "receiving agent" shall have the meaning given that term in section 261.2 of title 37, Code of Federal Regulations, as published in the Federal Register on July 8, 2002; and

(iii) the term "webcaster" means a person or entity that has obtained a compulsory license under section 112 or 114 and the implementing regulations therefor to make eligible nonsubscription transmissions and ephemeral recordings.

(F) The authority to make settlements pursuant to subparagraph (A) shall expire December 15, 2002, except with respect to noncommercial webcasters for whom the authority shall expire May 31, 2003.

(g) PROCEEDS FROM LICENSING OF TRANSMISSIONS.—

(1) Except in the case of a transmission licensed under a statutory license in accordance with subsection (f) of this section—

(A) a featured recording artist who performs on a sound recording that has been licensed for a transmission shall be entitled to receive payments from the copyright owner of the sound recording in accordance with the terms of the artist's contract; and

(B) a nonfeatured recording artist who performs on a sound recording that has been licensed for a transmission shall be entitled to receive payments from the copyright owner of the sound recording in accordance with the terms of the nonfeatured recording artist's applicable contract or other applicable agreement.

(2) An agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) shall distribute such receipts as follows:

(A) 50 percent of the receipts shall be paid to the copyright owner of the exclusive right under section 106(6) of this title to publicly perform a sound recording by means of a digital audio transmission.

(B) 2½ percent of the receipts shall be deposited in an escrow account managed by an independent administrator jointly appointed by copyright owners of sound recordings and the American Federation of Musicians (or any successor entity) to be distributed to nonfeatured musicians (whether or not members of the American Federation of Musicians) who have performed on sound recordings.

(C) 2½ percent of the receipts shall be deposited in an escrow account managed by an independent administrator jointly appointed by copyright owners of sound recordings and the American Federation of Television and Radio Artists (or any successor entity) to be distributed to nonfeatured vocalists (whether or not members of the American Federation of Television and Radio Artists) who have performed on sound recordings.

(D) 45 percent of the receipts shall be paid, on a per sound recording basis, to the recording artist or artists featured on such sound recording (or the persons conveying rights in the artists' performance in the sound recordings).

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 761 2005

(3) A nonprofit agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) may deduct from any of its receipts, prior to the distribution of such receipts to any person or entity entitled thereto other than copyright owners and performers who have elected to receive royalties from another designated agent and have notified such nonprofit agent in writing of such election, the reasonable costs of such agent incurred after November 1, 1995, in—

(A) the administration of the collection, distribution, and calculation of the royalties;

(B) the settlement of disputes relating to the collection and calculation of the royalties; and

(C) the licensing and enforcement of rights with respect to the making of ephemeral recordings and performances subject to licensing under section 112 and this section, including those incurred in participating in negotiations or arbitration proceedings under section 112 and this section, except that all costs incurred relating to the section 112 ephemeral recordings right may only be deducted from the royalties received pursuant to section 112.

(4) Notwithstanding paragraph (3), any designated agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) may deduct from any of its receipts, prior to the distribution of such receipts, the reasonable costs identified in paragraph (3) of such agent incurred after November 1, 1995, with respect to such copyright owners and performers who have entered with such agent a contractual relationship that specifies that such costs may be deducted from such royalty receipts.

(h) LICENSING TO AFFILIATES.—

(1) If the copyright owner of a sound recording licenses an affiliated entity the right to publicly perform a sound recording by means of a digital audio transmission under section 106(6), the copyright owner shall make the licensed sound recording available under section 106(6) on no less favorable terms and conditions to all bona fide entities that offer similar services, except that, if there are material differences in the scope of the requested license with respect to the type of service, the particular sound recordings licensed, the frequency of use, the number of subscribers served, or the duration, then the copyright owner may establish different terms and conditions for such other services.

(2) The limitation set forth in paragraph (1) of this subsection shall not apply in the case where the copyright owner of a sound recording licenses—

(A) an interactive service; or

(B) an entity to perform publicly up to 45 seconds of the sound recording and the sole purpose of the performance is to promote the distribution or performance of that sound recording.

(i) NO EFFECT ON ROYALTIES FOR UNDERLYING WORKS.—License fees payable for the public performance of sound recordings under section 106(6) shall not be taken into account in any admin-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 762 2005

istrative, judicial, or other governmental proceeding to set or adjust the royalties payable to copyright owners of musical works for the public performance of their works. It is the intent of Congress that royalties payable to copyright owners of musical works for the public performance of their works shall not be diminished in any respect as a result of the rights granted by section 106(6).

(j) DEFINITIONS.—As used in this section, the following terms have the following meanings:

(1) An "affiliated entity" is an entity engaging in digital audio transmissions covered by section 106(6), other than an interactive service, in which the licensor has any direct or indirect partnership or any ownership interest amounting to 5 percent or more of the outstanding voting or non-voting stock.

(2) An "archived program" is a predetermined program that is available repeatedly on the demand of the transmission recipient and that is performed in the same order from the beginning, except that an archived program shall not include a recorded event or broadcast transmission that makes no more than an incidental use of sound recordings, as long as such recorded event or broadcast transmission does not contain an entire sound recording or feature a particular sound recording.

(3) A "broadcast" transmission is a transmission made by a terrestrial broadcast station licensed as such by the Federal Communications Commission.

(4) A "continuous program" is a predetermined program that is continuously performed in the same order and that is accessed at a point in the program that is beyond the control of the transmission recipient.

(5) A "digital audio transmission" is a digital transmission as defined in section 101, that embodies the transmission of a sound recording. This term does not include the transmission of any audiovisual work.

(6) An "eligible nonsubscription transmission" is a noninteractive nonsubscription digital audio transmission not exempt under subsection (d)(1) that is made as part of a service that provides audio programming consisting, in whole or in part, of performances of sound recordings, including retransmissions of broadcast transmissions, if the primary purpose of the service is to provide to the public such audio or other entertainment programming, and the primary purpose of the service is not to sell, advertise, or promote particular products or services other than sound recordings, live concerts, or other music-related events.

(7) An "interactive service" is one that enables a member of the public to receive a transmission of a program specially created for the recipient, or on request, a transmission of a particular sound recording, whether or not as part of a program, which is selected by or on behalf of the recipient. The ability of individuals to request that particular sound recordings be performed for reception by the public at large, or in the case of a subscription service, by all subscribers of the service, does not make a service interactive, if the programming on each channel of the service does not substantially consist of

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 763 2005

sound recordings that are performed within 1 hour of the request or at a time designated by either the transmitting entity or the individual making such request. If an entity offers both interactive and noninteractive services (either concurrently or at different times), the noninteractive component shall not be treated as part of an interactive service.

(8) A "new subscription service" is a service that performs sound recordings by means of noninteractive subscription digital audio transmissions and that is not a preexisting subscription service or a preexisting satellite digital audio radio service.

(9) A "nonsubscription" transmission is any transmission that is not a subscription transmission.

(10) A "preexisting satellite digital audio radio service" is a subscription satellite digital audio radio service provided pursuant to a satellite digital audio radio service license issued by the Federal Communications Commission on or before July 31, 1998, and any renewal of such license to the extent of the scope of the original license, and may include a limited number of sample channels representative of the subscription service that are made available on a nonsubscription basis in order to promote the subscription service.

(11) A "preexisting subscription service" is a service that performs sound recordings by means of noninteractive audio-only subscription digital audio transmissions, which was in existence and was making such transmissions to the public for a fee on or before July 31, 1998, and may include a limited number of sample channels representative of the subscription service that are made available on a nonsubscription basis in order to promote the subscription service.

(12) A "retransmission" is a further transmission of an initial transmission, and includes any further retransmission of the same transmission. Except as provided in this section, a transmission qualifies as a "retransmission" only if it is simultaneous with the initial transmission. Nothing in this definition shall be construed to exempt a transmission that fails to satisfy a separate element required to qualify for an exemption under section 114(d)(1).

(13) The "sound recording performance complement" is the transmission during any 3-hour period, on a particular channel used by a transmitting entity, of no more than—

(A) 3 different selections of sound recordings from any one phonorecord lawfully distributed for public performance or sale in the United States, if no more than 2 such selections are transmitted consecutively; or

(B) 4 different selections of sound recordings—

(i) by the same featured recording artist; or

(ii) from any set or compilation of phonorecords lawfully distributed together as a unit for public performance or sale in the United States,

if no more than three such selections are transmitted consecutively:

Provided, That the transmission of selections in excess of the numerical limits provided for in clauses (A) and (B) from

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 764 2005

multiple phonorecords shall nonetheless qualify as a sound recording performance complement if the programming of the multiple phonorecords was not willfully intended to avoid the numerical limitations prescribed in such clauses.

(14) A "subscription" transmission is a transmission that is controlled and limited to particular recipients, and for which consideration is required to be paid or otherwise given by or on behalf of the recipient to receive the transmission or a package of transmissions including the transmission.

(15) A "transmission" is either an initial transmission or a retransmission.

§ 117. Limitations on exclusive rights: Computer programs[1]

(a) Making of Additional Copy or Adaptation by Owner of Copy-Notwithstanding the provisions of section 106, it is not an infringement for the owner of a copy of a computer program to make or authorize the making of another copy or adaptation of that computer program provided:

(1) that such a new copy or adaptation is created as an essential step in the utilization of the computer program in conjunction with a machine and that it is used in no other manner, or

(2) that such new copy or adaptation is for archival purposes only and that all archival copies are destroyed in the event that continued possession of the computer program should cease to be rightful.

(b) Lease, Sale, or Other Transfer of Additional Copy or Adaptation-Any exact copies prepared in accordance with the provisions of this section may be leased, sold, or otherwise transferred, along with the copy from which such copies were prepared, only as part of the lease, sale, or other transfer of all rights in the program. Adaptations so prepared may be transferred only with the authorization of the copyright owner.

(c) MACHINE MAINTENANCE OR REPAIR.—Notwithstanding the provisions of section 106, it is not an infringement for the owner or lessee of a machine to make or authorize the making of a copy of a computer program if such copy is made solely by virtue of the activation of a machine that lawfully contains an authorized copy

[1] Section 104 of the Digital Millennium Copyright Act (Public Law 105–304) provides as follows:

SEC. 104. [17 U.S.C. 109 note] EVALUATION OF IMPACT OF COPYRIGHT LAW AND AMENDMENTS ON ELECTRONIC COMMERCE AND TECHNOLOGICAL DEVELOPMENT.

(a) EVALUATION BY THE REGISTER OF COPYRIGHTS AND THE ASSISTANT SECRETARY FOR COMMUNICATIONS AND INFORMATION.—The Register of Copyrights and the Assistant Secretary for Communications and Information of the Department of Commerce shall jointly evaluate—

(1) the effects of the amendments made by this title and the development of electronic commerce and associated technology on the operation of sections 109 and 117 of title 17, United States Code; and

(2) the relationship between existing and emergent technology and the operation of sections 109 and 117 of title 17, United States Code.

(b) REPORT TO CONGRESS.—The Register of Copyrights and the Assistant Secretary for Communications and Information of the Department of Commerce shall, not later than 24 months after the date of the enactment of this Act, submit to the Congress a joint report on the evaluation conducted under subsection (a), including any legislative recommendations the Register and the Assistant Secretary may have.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 765 2005

of the computer program, for purposes only of maintenance or repair of that machine, if—

(1) such new copy is used in no other manner and is destroyed immediately after the maintenance or repair is completed; and

(2) with respect to any computer program or part thereof that is not necessary for that machine to be activated, such program or part thereof is not accessed or used other than to make such new copy by virtue of the activation of the machine.

(d) DEFINITIONS.—For purposes of this section—

(1) the "maintenance" of a machine is the servicing of the machine in order to make it work in accordance with its original specifications and any changes to those specifications authorized for that machine; and

(2) the "repair" of a machine is the restoring of the machine to the state of working in accordance with its original specifications and any changes to those specifications authorized for that machine.

§ 119. Limitations on exclusive rights: Secondary transmissions of superstations and network stations for private home viewing[1]

(a) SECONDARY TRANSMISSIONS BY SATELLITE CARRIERS.—

(1) SUPERSTATIONS.—Subject to the provisions of paragraphs (5), (6), and (8) of this subsection and section 114(d), secondary transmissions of a performance or display of a work embodied in a primary transmission made by a superstation shall be subject to statutory licensing under this section if the secondary transmission is made by a satellite carrier to the public for private home viewing or for viewing in a commercial establishment, with regard to secondary transmissions the satellite carrier is in compliance with the rules, regulations, or authorizations of the Federal Communications Commission governing the carriage of television broadcast station signals, and the carrier makes a direct or indirect charge for each retransmission service to each subscriber receiving the secondary transmission or to a distributor that has contracted with the carrier for direct or indirect delivery of the secondary transmission to the public for private home viewing or for viewing in a commercial establishment.

(2) NETWORK STATIONS.—

(A) IN GENERAL.—Subject to the provisions of subparagraphs (B) and (C) of this paragraph and paragraphs (5), (6), (7), and (8) of this subsection and section 114(d), secondary transmissions of a performance or display of a

[1] Section 4(a) of the Satellite Home Viewer Act of 1994 (P.L. 103–369), as amended by section 1003 of the Intellectual Property and Communications Omnibus Reform Act of 1999 (S. 1948 as introduced by the Senate during the 106th Congress, 1st Session and enacted by section 1000(a)(9) of Public Law 106–113) and section 101(a) of the Satellite Home Viewer Extension and Reauthorization Act of 2004 (title IX of division J of Public Law 108–447), provides as follows:

SEC. 4. [17 U.S.C. 119 note] TERMINATION.

(a) EXPIRATION OF AMENDMENTS.—Section 119 of title 17, United States Code, as amended by section 2 of this Act, ceases to be effective on December 31, 2009.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 766 2005

work embodied in a primary transmission made by a network station shall be subject to statutory licensing under this section if the secondary transmission is made by a satellite carrier to the public for private home viewing, with regard to secondary transmissions the satellite carrier is in compliance with the rules, regulations, or authorizations of the Federal Communications Commission governing the carriage of television broadcast station signals, and the carrier makes a direct or indirect charge for such retransmission service to each subscriber receiving the secondary transmission.

(B) SECONDARY TRANSMISSIONS TO UNSERVED HOUSEHOLDS.—

(i) IN GENERAL.—The statutory license provided for in subparagraph (A) shall be limited to secondary transmissions of the signals of no more than two network stations in a single day for each television network to persons who reside in unserved households. The limitation in this clause shall not apply to secondary transmissions under paragraph (3).

(ii) ACCURATE DETERMINATIONS OF ELIGIBILITY.—

(I) ACCURATE PREDICTIVE MODEL.—In determining presumptively whether a person resides in an unserved household under subsection (d)(10)(A), a court shall rely on the Individual Location Longley-Rice model set forth by the Federal Communications Commission in Docket No. 98–201, as that model may be amended by the Commission over time under section 339(c)(3) of the Communications Act of 1934 to increase the accuracy of that model.

(II) ACCURATE MEASUREMENTS.—For purposes of site measurements to determine whether a person resides in an unserved household under subsection (d)(10)(A), a court shall rely on section 339(c)(4) of the Communications Act of 1934.

(II) For purposes of site measurements to determine whether a person resides in an unserved household under subsection (d)(10)(A), a court shall rely on section 339(c)(4) of the Communications Act of 1934.

(iii) C-BAND EXEMPTION TO UNSERVED HOUSEHOLDS.—

(I) IN GENERAL.—The limitations of clause (i) shall not apply to any secondary transmissions by C-band services of network stations that a subscriber to C-band service received before any termination of such secondary transmissions before October 31, 1999.

(II) DEFINITION.—In this clause the term "C-band service" means a service that is licensed by the Federal Communications Commission and operates in the Fixed Satellite Service under part 25 of title 47 of the Code of Federal Regulations.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 767 2005

(C) EXCEPTIONS.—

(i) STATES WITH SINGLE FULL-POWER NETWORK STATION.—In a State in which there is licensed by the Federal Communications Commission a single full-power station that was a network station on January 1, 1995, the statutory license provided for in subparagraph (A) shall apply to the secondary transmission by a satellite carrier of the primary transmission of that station to any subscriber in a community that is located within that State and that is not within the first 50 television markets as listed in the regulations of the Commission as in effect on such date (47 CFR 76.51).

(ii) STATES WITH ALL NETWORK STATIONS AND SUPERSTATIONS IN SAME LOCAL MARKET.—In a State in which all network stations and superstations licensed by the Federal Communications Commission within that State as of January 1, 1995, are assigned to the same local market and that local market does not encompass all counties of that State, the statutory license provided under subparagraph (A) shall apply to the secondary transmission by a satellite carrier of the primary transmissions of such station to all subscribers in the State who reside in a local market that is within the first 50 major television markets as listed in the regulations of the Commission as in effect on such date (section 76.51 of title 47 of the Code of Federal Regulations).

(iii) ADDITIONAL STATIONS.—In the case of that State in which are located 4 counties that—

(I) on January 1, 2004, were in local markets principally comprised of counties in another State, and

(II) had a combined total of 41,340 television households, according to the U.S. Television Household Estimates by Nielsen Media Research for 2004,

the statutory license provided under subparagraph (A) shall apply to secondary transmissions by a satellite carrier to subscribers in any such county of the primary transmissions of any network station located in that State, if the satellite carrier was making such secondary transmissions to any subscribers in that county on January 1, 2004.

(iv) CERTAIN ADDITIONAL STATIONS.—If 2 adjacent counties in a single State are in a local market comprised principally of counties located in another State, the statutory license provided for in subparagraph (A) shall apply to the secondary transmission by a satellite carrier to subscribers in those 2 counties of the primary transmissions of any network station located in the capital of the State in which such 2 counties are located, if—

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 768 2005

(I) the 2 counties are located in a local market that is in the top 100 markets for the year 2003 according to Nielsen Media Research; and

(II) the total number of television households in the 2 counties combined did not exceed 10,000 for the year 2003 according to Nielsen Media Research.

(v) APPLICABILITY OF ROYALTY RATES.—The royalty rates under subsection (b)(1)(B) apply to the secondary transmissions to which the statutory license under subparagraph (A) applies under clauses (i), (ii), (iii), and (iv).

(D) SUBMISSION OF SUBSCRIBER LISTS TO NETWORKS.—

(i) INITIAL LISTS.—A satellite carrier that makes secondary transmissions of a primary transmission made by a network station pursuant to subparagraph (A) shall, 90 days after commencing such secondary transmissions, submit to the network that owns or is affiliated with the network station—

(I) a list identifying (by name and address, including street or rural route number, city, State, and zip code) all subscribers to which the satellite carrier makes secondary transmissions of that primary transmission to subscribers in unserved households; and

(II) a separate list, aggregated by designated market area (as defined in section 122(j)) (by name and address, including street or rural route number, city, State, and zip code), which shall indicate those subscribers being served pursuant to paragraph (3), relating to significantly viewed stations.

(ii) MONTHLY LISTS.—After the submission of the initial lists under clause (i), on the 15th of each month, the satellite carrier shall submit to the network—

(I) a list identifying (by name and address, including street or rural route number, city, State, and zip code) any persons who have been added or dropped as subscribers under clause (i)(I) since the last submission under clause (i); and

(II) a separate list, aggregated by designated market area (by name and street address, including street or rural route number, city, State, and zip code), identifying those subscribers whose service pursuant to paragraph (3), relating to significantly viewed stations, has been added or dropped.

(iii) USE OF SUBSCRIBER INFORMATION.—Subscriber information submitted by a satellite carrier under this subparagraph may be used only for purposes of monitoring compliance by the satellite carrier with this subsection.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 769 2005

(iv) APPLICABILITY.—The submission requirements of this subparagraph shall apply to a satellite carrier only if the network to which the submissions are to be made places on file with the Register of Copyrights a document identifying the name and address of the person to whom such submissions are to be made. The Register shall maintain for public inspection a file of all such documents.

(3) SECONDARY TRANSMISSIONS OF SIGNIFICANTLY VIEWED SIGNALS.—

(A) IN GENERAL.—Notwithstanding the provisions of paragraph (2)(B), and subject to subparagraph (B) of this paragraph, the statutory license provided for in paragraphs (1) and (2) shall apply to the secondary transmission of the primary transmission of a network station or a superstation to a subscriber who resides outside the station's local market (as defined in section 122(j)) but within a community in which the signal has been determined by the Federal Communications Commission, to be significantly viewed in such community, pursuant to the rules, regulations, and authorizations of the Federal Communications Commission in effect on April 15, 1976, applicable to determining with respect to a cable system whether signals are significantly viewed in a community.

(B) LIMITATION.—Subparagraph (A) shall apply only to secondary transmissions of the primary transmissions of network stations and superstations to subscribers who receive secondary transmissions from a satellite carrier pursuant to the statutory license under section 122.

(C) WAIVER.—

(i) IN GENERAL.—A subscriber who is denied the secondary transmission of the primary transmission of a network station under subparagraph (B) may request a waiver from such denial by submitting a request, through the subscriber's satellite carrier, to the network station in the local market affiliated with the same network where the subscriber is located. The network station shall accept or reject the subscriber's request for a waiver within 30 days after receipt of the request. If the network station fails to accept or reject the subscriber's request for a waiver within that 30-day period, that network station shall be deemed to agree to the waiver request. Unless specifically stated by the network station, a waiver that was granted before the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004 under section 339(c)(2) of the Communications Act of 1934 shall not constitute a waiver for purposes of this subparagraph.

(ii) SUNSET.—The authority under clause (i) to grant waivers shall terminate on December 31, 2008, and any such waiver in effect shall terminate on that date.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 770 2005

(4) STATUTORY LICENSE WHERE RETRANSMISSIONS INTO LOCAL MARKET AVAILABLE.—

(A) RULES FOR SUBSCRIBERS TO ANALOG SIGNALS UNDER SUBSECTION (E).—

(i) FOR THOSE RECEIVING DISTANT ANALOG SIGNALS.—In the case of a subscriber of a satellite carrier who is eligible to receive the secondary transmission of the primary analog transmission of a network station solely by reason of subsection (e) (in this subparagraph referred to as a "distant analog signal"), and who, as of October 1, 2004, is receiving the distant analog signal of that network station, the following shall apply:

(I) In a case in which the satellite carrier makes available to the subscriber the secondary transmission of the primary analog transmission of a local network station affiliated with the same television network pursuant to the statutory license under section 122, the statutory license under paragraph (2) shall apply only to secondary transmissions by that satellite carrier to that subscriber of the distant analog signal of a station affiliated with the same television network—

(aa) if, within 60 days after receiving the notice of the satellite carrier under section 338(h)(1) of the Communications Act of 1934, the subscriber elects to retain the distant analog signal; but

(bb) only until such time as the subscriber elects to receive such local analog signal.

(II) Notwithstanding subclause (I), the statutory license under paragraph (2) shall not apply with respect to any subscriber who is eligible to receive the distant analog signal of a television network station solely by reason of subsection (e), unless the satellite carrier, within 60 days after the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, submits to that television network a list, aggregated by designated market area (as defined in section 122(j)(2)(C)), that—

(aa) identifies that subscriber by name and address (street or rural route number, city, State, and zip code) and specifies the distant analog signals received by the subscriber; and

(bb) states, to the best of the satellite carrier's knowledge and belief, after having made diligent and good faith inquiries, that the subscriber is eligible under subsection (e) to receive the distant analog signals.

(ii) FOR THOSE NOT RECEIVING DISTANT ANALOG SIGNALS.—In the case of any subscriber of a satellite

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 771 2005

carrier who is eligible to receive the distant analog signal of a network station solely by reason of subsection (e) and who did not receive a distant analog signal of a station affiliated with the same network on October 1, 2004, the statutory license under paragraph (2) shall not apply to secondary transmissions by that satellite carrier to that subscriber of the distant analog signal of a station affiliated with the same network.

(B) RULES FOR OTHER SUBSCRIBERS.—In the case of a subscriber of a satellite carrier who is eligible to receive the secondary transmission of the primary analog transmission of a network station under the statutory license under paragraph (2) (in this subparagraph referred to as a "distant analog signal"), other than subscribers to whom subparagraph (A) applies, the following shall apply:

(i) In a case in which the satellite carrier makes available to that subscriber, on January 1, 2005, the secondary transmission of the primary analog transmission of a local network station affiliated with the same television network pursuant to the statutory license under section 122, the statutory license under paragraph (2) shall apply only to secondary transmissions by that satellite carrier to that subscriber of the distant analog signal of a station affiliated with the same television network if the subscriber's satellite carrier, not later than March 1, 2005, submits to that television network a list, aggregated by designated market area (as defined in section 122(j)(2)(C)), that identifies that subscriber by name and address (street or rural route number, city, State, and zip code) and specifies the distant analog signals received by the subscriber.

(ii) In a case in which the satellite carrier does not make available to that subscriber, on January 1, 2005, the secondary transmission of the primary analog transmission of a local network station affiliated with the same television network pursuant to the statutory license under section 122, the statutory license under paragraph (2) shall apply only to secondary transmissions by that satellite carrier of the distant analog signal of a station affiliated with the same network to that subscriber if—

(I) that subscriber seeks to subscribe to such distant analog signal before the date on which such carrier commences to provide pursuant to the statutory license under section 122 the secondary transmissions of the primary analog transmission of stations from the local market of such local network station; and

(II) the satellite carrier, within 60 days after such date, submits to each television network a list that identifies each subscriber in that local market provided such an analog signal by name and address (street or rural route number, city,

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 772 2005

State, and zip code) and specifies the distant analog signals received by the subscriber.

(C) FUTURE APPLICABILITY.—The statutory license under paragraph (2) shall not apply to the secondary transmission by a satellite carrier of a primary analog transmission of a network station to a person who—

(i) is not a subscriber lawfully receiving such secondary transmission as of the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004; and

(ii) at the time such person seeks to subscribe to receive such secondary transmission, resides in a local market where the satellite carrier makes available to that person the secondary transmission of the primary analog transmission of a local network station affiliated with the same television network pursuant to the statutory license under section 122, and such secondary transmission of such primary transmission can reach such person.

(D) SPECIAL RULES FOR DISTANT DIGITAL SIGNALS.—The statutory license under paragraph (2) shall apply to secondary transmissions by a satellite carrier to a subscriber of primary digital transmissions of network stations if such secondary transmissions to such subscriber are permitted under section 339(a)(2)(D) of the Communications Act of 1934, as in effect on the day after the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, except that the reference to section 73.683(a) of title 47, Code of Federal Regulations, referred to in section 339(a)(2)(D)(i)(I) shall refer to such section as in effect on the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004.

(E) OTHER PROVISIONS NOT AFFECTED.—This paragraph shall not affect the applicability of the statutory license to secondary transmissions under paragraph (3) or to unserved households included under paragraph (12).

(F) WAIVER.—A subscriber who is denied the secondary transmission of a network station under subparagraph (C) or (D) may request a waiver from such denial by submitting a request, through the subscriber's satellite carrier, to the network station in the local market affiliated with the same network where the subscriber is located. The network station shall accept or reject the subscriber's request for a waiver within 30 days after receipt of the request. If the network station fails to accept or reject the subscriber's request for a waiver within that 30-day period, that network station shall be deemed to agree to the waiver request. Unless specifically stated by the network station, a waiver that was granted before the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004 under section 339(c)(2) of the Communications Act of 1934 shall not constitute a waiver for purposes of this subparagraph.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 773 2005

(G) AVAILABLE DEFINED.—For purposes of this paragraph, a satellite carrier makes available a secondary transmission of the primary transmission of a local station to a subscriber or person if the satellite carrier offers that secondary transmission to other subscribers who reside in the same zip code as that subscriber or person.

(5) NONCOMPLIANCE WITH REPORTING AND PAYMENT REQUIREMENTS.—Notwithstanding the provisions of paragraphs (1) and (2), the willful or repeated secondary transmission to the public by a satellite carrier of a primary transmission made by a superstation or a network station and embodying a performance or display of a work is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, where the satellite carrier has not deposited the statement of account and royalty fee required by subsection (b), or has failed to make the submissions to networks required by paragraph (2)(C).

(6) WILLFUL ALTERATIONS.—Notwithstanding the provisions of paragraphs (1) and (2), the secondary transmission to the public by a satellite carrier of a performance or display of a work embodied in a primary transmission made by a superstation or a network station is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and sections 509 and 510, if the content of the particular program in which the performance or display is embodied, or any commercial advertising or station announcement transmitted by the primary transmitter during, or immediately before or after, the transmission of such program, is in any way willfully altered by the satellite carrier through changes, deletions, or additions, or is combined with programming from any other broadcast signal.

(7) VIOLATION OF TERRITORIAL RESTRICTIONS ON STATUTORY LICENSE FOR NETWORK STATIONS.—

(A) INDIVIDUAL VIOLATIONS.—The willful or repeated secondary transmission by a satellite carrier of a primary transmission made by a network station and embodying a performance or display of a work to a subscriber who is not eligible to receive the transmission under this section is actionable as an act of infringement under section 501 and is fully subject to the remedies provided by sections 502 through 506 and 509, except that—

(i) no damages shall be awarded for such act of infringement if the satellite carrier took corrective action by promptly withdrawing service from the ineligible subscriber, and

(ii) any statutory damages shall not exceed $5 for such subscriber for each month during which the violation occurred.

(B) PATTERN OF VIOLATIONS.—If a satellite carrier engages in a willful or repeated pattern or practice of delivering a primary transmission made by a network station and embodying a performance or display of a work to subscribers who are not eligible to receive the transmission

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 774 2005

under this section, then in addition to the remedies set forth in subparagraph (A)—

(i) if the pattern or practice has been carried out on a substantially nationwide basis, the court shall order a permanent injunction barring the secondary transmission by the satellite carrier, for private home viewing, of the primary transmissions of any primary network station affiliated with the same network, and the court may order statutory damages of not to exceed $250,000 for each 6-month period during which the pattern or practice was carried out; and

(ii) if the pattern or practice has been carried out on a local or regional basis, the court shall order a permanent injunction barring the secondary transmission, for private home viewing in that locality or region, by the satellite carrier of the primary transmissions of any primary network station affiliated with the same network, and the court may order statutory damages of not to exceed $250,000 for each 6-month period during which the pattern or practice was carried out.

(C) PREVIOUS SUBSCRIBERS EXCLUDED.—Subparagraphs (A) and (B) do not apply to secondary transmissions by a satellite carrier to persons who subscribed to receive such secondary transmissions from the satellite carrier or a distributor before November 16, 1988.

(D) BURDEN OF PROOF.—In any action brought under this paragraph, the satellite carrier shall have the burden of proving that its secondary transmission of a primary transmission by a network station is to a subscriber who is eligible to receive the secondary transmission under this section.

(E) EXCEPTION.—The secondary transmission by a satellite carrier of a performance or display of a work embodied in a primary transmission made by a network station to subscribers who do not reside in unserved households shall not be an act of infringement if—

(i) the station on May 1, 1991, was retransmitted by a satellite carrier and was not on that date owned or operated by or affiliated with a television network that offered interconnected program service on a regular basis for 15 or more hours per week to at least 25 affiliated television licensees in 10 or more States;

(ii) as of July 1, 1998, such station was retransmitted by a satellite carrier under the statutory license of this section; and

(iii) the station is not owned or operated by or affiliated with a television network that, as of January 1, 1995, offered interconnected program service on a regular basis for 15 or more hours per week to at least 25 affiliated television licensees in 10 or more States.

(8) DISCRIMINATION BY A SATELLITE CARRIER.—Notwithstanding the provisions of paragraph (1), the willful or repeated secondary transmission to the public by a satellite carrier of a performance or display of a work embodied in a pri-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 775 2005

mary transmission made by a superstation or a network station is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, if the satellite carrier unlawfully discriminates against a distributor.

(9) GEOGRAPHIC LIMITATION ON SECONDARY TRANSMISSIONS.—The statutory license created by this section shall apply only to secondary transmissions to households located in the United States.

(10) LOSER PAYS FOR SIGNAL INTENSITY MEASUREMENT; RECOVERY OF MEASUREMENT COSTS IN A CIVIL ACTION.—In any civil action filed relating to the eligibility of subscribing households as unserved households—

(A) a network station challenging such eligibility shall, within 60 days after receipt of the measurement results and a statement of such costs, reimburse the satellite carrier for any signal intensity measurement that is conducted by that carrier in response to a challenge by the network station and that establishes the household is an unserved household; and

(B) a satellite carrier shall, within 60 days after receipt of the measurement results and a statement of such costs, reimburse the network station challenging such eligibility for any signal intensity measurement that is conducted by that station and that establishes the household is not an unserved household.

(11) INABILITY TO CONDUCT MEASUREMENT.—If a network station makes a reasonable attempt to conduct a site measurement of its signal at a subscriber's household and is denied access for the purpose of conducting the measurement, and is otherwise unable to conduct a measurement, the satellite carrier shall within 60 days notice thereof, terminate service of the station's network to that household.

(12) SERVICE TO RECREATIONAL VEHICLES AND COMMERCIAL TRUCKS.—

(A) EXEMPTION.—

(i) IN GENERAL.—For purposes of this subsection, and subject to clauses (ii) and (iii), the term "unserved household" shall include—

(I) recreational vehicles as defined in regulations of the Secretary of Housing and Urban Development under section 3282.8 of title 24 of the Code of Federal Regulations; and

(II) commercial trucks that qualify as commercial motor vehicles under regulations of the Secretary of Transportation under section 383.5 of title 49 of the Code of Federal Regulations.

(ii) LIMITATION.—Clause (i) shall apply only to a recreational vehicle or commercial truck if any satellite carrier that proposes to make a secondary transmission of a network station to the operator of such a recreational vehicle or commercial truck complies with the documentation requirements under subparagraphs (B) and (C).

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 776 2005

(iii) EXCLUSION.—For purposes of this subparagraph, the terms "recreational vehicle" and "commercial truck" shall not include any fixed dwelling, whether a mobile home or otherwise.

(B) DOCUMENTATION REQUIREMENTS.—A recreational vehicle or commercial truck shall be deemed to be an unserved household beginning 10 days after the relevant satellite carrier provides to the network that owns or is affiliated with the network station that will be secondarily transmitted to the recreational vehicle or commercial truck the following documents:

(i) DECLARATION.—A signed declaration by the operator of the recreational vehicle or commercial truck that the satellite dish is permanently attached to the recreational vehicle or commercial truck, and will not be used to receive satellite programming at any fixed dwelling.

(ii) REGISTRATION.—In the case of a recreational vehicle, a copy of the current State vehicle registration for the recreational vehicle.

(iii) REGISTRATION AND LICENSE.—In the case of a commercial truck, a copy of—

(I) the current State vehicle registration for the truck; and

(II) a copy of a valid, current commercial driver's license, as defined in regulations of the Secretary of Transportation under section 383 of title 49 of the Code of Federal Regulations, issued to the operator.

(C) UPDATED DOCUMENTATION REQUIREMENTS.—If a satellite carrier wishes to continue to make secondary transmissions to a recreational vehicle or commercial truck for more than a 2-year period, that carrier shall provide each network, upon request, with updated documentation in the form described under subparagraph (B) during the 90 days before expiration of that 2-year period.

(13) STATUTORY LICENSE CONTINGENT ON COMPLIANCE WITH FCC RULES AND REMEDIAL STEPS.—Notwithstanding any other provision of this section, the willful or repeated secondary transmission to the public by a satellite carrier of a primary transmission embodying a performance or display of a work made by a broadcast station licensed by the Federal Communications Commission is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, if, at the time of such transmission, the satellite carrier is not in compliance with the rules, regulations, and authorizations of the Federal Communications Commission concerning the carriage of television broadcast station signals.

(14) WAIVERS.—A subscriber who is denied the secondary transmission of a signal of a network station under subsection (a)(2)(B) may request a waiver from such denial by submitting a request, through the subscriber's satellite carrier, to the network station asserting that the secondary transmission is pro-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 777 2005

hibited. The network station shall accept or reject a subscriber's request for a waiver within 30 days after receipt of the request. If a television network station fails to accept or reject a subscriber's request for a waiver within the 30-day period after receipt of the request, that station shall be deemed to agree to the waiver request and have filed such written waiver. Unless specifically stated by the network station, a waiver that was granted before the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004 under section 339(c)(2) of the Communications Act of 1934, and that was in effect on such date of enactment, shall constitute a waiver for purposes of this paragraph.

(15) CARRIAGE OF LOW POWER TELEVISION STATIONS.—

(A) IN GENERAL.—Notwithstanding paragraph (2)(B), and subject to subparagraphs (B) through (F) of this paragraph, the statutory license provided for in paragraphs (1) and (2) shall apply to the secondary transmission of the primary transmission of a network station or a superstation that is licensed as a low power television station, to a subscriber who resides within the same local market.

(B) GEOGRAPHIC LIMITATION.—

(i) NETWORK STATIONS.—With respect to network stations, secondary transmissions provided for in subparagraph (A) shall be limited to secondary transmissions to subscribers who—

(I) reside in the same local market as the station originating the signal; and

(II) reside within 35 miles of the transmitter site of such station, except that in the case of such a station located in a standard metropolitan statistical area which has 1 of the 50 largest populations of all standard metropolitan statistical areas (based on the 1980 decennial census of population taken by the Secretary of Commerce), the number of miles shall be 20.

(ii) SUPERSTATIONS.—With respect to superstations, secondary transmissions provided for in subparagraph (A) shall be limited to secondary transmissions to subscribers who reside in the same local market as the station originating the signal.

(C) NO APPLICABILITY TO REPEATERS AND TRANSLATORS.—Secondary transmissions provided for in subparagraph (A) shall not apply to any low power television station that retransmits the programs and signals of another television station for more than 2 hours each day.

(D) ROYALTY FEES.—Notwithstanding subsection (b)(1)(B), a satellite carrier whose secondary transmissions of the primary transmissions of a low power television station are subject to statutory licensing under this section shall have no royalty obligation for secondary transmissions to a subscriber who resides within 35 miles of the transmitter site of such station, except that in the case of such a station located in a standard metropolitan statistical area which has 1 of the 50 largest populations of all

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 778 2005

standard metropolitan statistical areas (based on the 1980 decennial census of population taken by the Secretary of Commerce), the number of miles shall be 20. Carriage of a superstation that is a low power television station within the station's local market, but outside of the 35-mile or 20-mile radius described in the preceding sentence, shall be subject to royalty payments under subsection (b)(1)(B).

(E) LIMITATION TO SUBSCRIBERS TAKING LOCAL-INTO-LOCAL SERVICE.—Secondary transmissions provided for in subparagraph (A) may be made only to subscribers who receive secondary transmissions of primary transmissions from that satellite carrier pursuant to the statutory license under section 122, and only in conformity with the requirements under 340(b) of the Communications Act of 1934, as in effect on the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004.

(16) RESTRICTED TRANSMISSION OF OUT-OF-STATE DISTANT NETWORK SIGNALS INTO CERTAIN MARKETS.—

(A) OUT-OF-STATE NETWORK AFFILIATES.—Notwithstanding any other provision of this title, the statutory license in this subsection and subsection (b) shall not apply to any secondary transmission of the primary transmission of a network station located outside of the State of Alaska to any subscriber in that State to whom the secondary transmission of the primary transmission of a television station located in that State is made available by the satellite carrier pursuant to section 122.

(B) EXCEPTION.—The limitation in subparagraph (A) shall not apply to the secondary transmission of the primary transmission of a digital signal of a network station located outside of the State of Alaska if at the time that the secondary transmission is made, no television station licensed to a community in the State and affiliated with the same network makes primary transmissions of a digital signal.

(b) STATUTORY LICENSE FOR SECONDARY TRANSMISSIONS FOR PRIVATE HOME VIEWING [1] .—

—

(1) DEPOSITS WITH THE REGISTER OF COPYRIGHTS.—A satellite carrier whose secondary transmissions are subject to statutory licensing under subsection (a) shall, on a semiannual basis, deposit with the Register of Copyrights, in accordance with requirements that the Register shall prescribe by regulation—

(A) a statement of account, covering the preceding 6-month period, specifying the names and locations of all superstations and network stations whose signals were retransmitted, at any time during that period, to subscribers as described in subsections (a)(1) and (a)(2), the total number of subscribers that received such retransmissions, and

[1] So in original. Phrase "for private home viewing" struck out from text without corresponding change in heading. See 2004 Amendment note below.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 779 2005

such other data as the Register of Copyrights may from time to time prescribe by regulation; and

(B) a royalty fee for that 6-month period, computed by multiplying the total number of subscribers receiving each secondary transmission of each superstation or network station during each calendar month by the appropriate rate in effect under this section.

Notwithstanding the provisions of subparagraph (B), a satellite carrier whose secondary transmissions are subject to statutory licensing under paragraph (1) or (2) of subsection (a) shall have no royalty obligation for secondary transmissions to a subscriber under paragraph (3) of such subsection.

(2) INVESTMENT OF FEES.—The Register of Copyrights shall receive all fees deposited under this section and, after deducting the reasonable costs incurred by the Copyright Office under this section (other than the costs deducted under paragraph (4)), shall deposit the balance in the Treasury of the United States, in such manner as the Secretary of the Treasury directs. All funds held by the Secretary of the Treasury shall be invested in interest-bearing securities of the United States for later distribution with interest by the Librarian of Congress as provided by this title.

(3) PERSONS TO WHOM FEES ARE DISTRIBUTED.—The royalty fees deposited under paragraph (2) shall, in accordance with the procedures provided by paragraph (4), be distributed to those copyright owners whose works were included in a secondary transmission made by a satellite carrier during the applicable 6-month accounting period and who file a claim with the Copyright Royalty Judges under paragraph (4).

(4) PROCEDURES FOR DISTRIBUTION.—The royalty fees deposited under paragraph (2) shall be distributed in accordance with the following procedures:

(A) FILING OF CLAIMS FOR FEES.—During the month of July in each year, each person claiming to be entitled to statutory license fees for secondary transmissions shall file a claim with the Copyright Royalty Judges, in accordance with requirements that the Copyright Royalty Judges shall prescribe by regulation. For purposes of this paragraph, any claimants may agree among themselves as to the proportionate division of statutory license fees among them, may lump their claims together and file them jointly or as a single claim, or may designate a common agent to receive payment on their behalf.

(B) DETERMINATION OF CONTROVERSY; DISTRIBUTIONS.—After the first day of August of each year, the Copyright Royalty Judges shall determine whether there exists a controversy concerning the distribution of royalty fees. If the Copyright Royalty Judges determine that no such controversy exists, the Librarian of Congress shall, after deducting reasonable administrative costs under this paragraph, distribute such fees to the copyright owners entitled to receive them, or to their designated agents. If the Copyright Royalty Judges find the existence of a controversy, the Copyright Royalty Judges shall, pursuant to

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 780 2005

chapter 8 of this title, conduct a proceeding to determine the distribution of royalty fees.

(C) WITHHOLDING OF FEES DURING CONTROVERSY.—During the pendency of any proceeding under this subsection, the Copyright Royalty Judges shall withhold from distribution an amount sufficient to satisfy all claims with respect to which a controversy exists, but shall have the discretion to proceed to distribute any amounts that are not in controversy.

(c) ADJUSTMENT OF ROYALTY FEES.—

(1) APPLICABILITY AND DETERMINATION OF ROYALTY FEES FOR ANALOG SIGNALS.—

(A) INITIAL FEE.—The appropriate fee for purposes of determining the royalty fee under subsection (b)(1)(B) for the secondary transmission of the primary analog transmissions of network stations and superstations shall be the appropriate fee set forth in part 258 of title 37, Code of Federal Regulations, as in effect on July 1, 2004, as modified under this paragraph.

(B) FEE SET BY VOLUNTARY NEGOTIATION.—On or before January 2, 2005, the Librarian of Congress shall cause to be published in the Federal Register of the initiation of voluntary negotiation proceedings for the purpose of determining the royalty fee to be paid by satellite carriers for the secondary transmission of the primary analog transmission of network stations and superstations under subsection (b)(1)(B).

(C) NEGOTIATIONS.—Satellite carriers, distributors, and copyright owners entitled to royalty fees under this section shall negotiate in good faith in an effort to reach a voluntary agreement or agreements for the payment of royalty fees. Any such satellite carriers, distributors and copyright owners may at any time negotiate and agree to the royalty fee, and may designate common agents to negotiate, agree to, or pay such fees. If the parties fail to identify common agents, the Librarian of Congress shall do so, after requesting recommendations from the parties to the negotiation proceeding. The parties to each negotiation proceeding shall bear the cost thereof.

(D) AGREEMENTS BINDING ON PARTIES; FILING OF AGREEMENTS; PUBLIC NOTICE.—(i) Voluntary agreements negotiated at any time in accordance with this paragraph shall be binding upon all satellite carriers, distributors, and copyright owners that a parties thereto. Copies of such agreements shall be filed with the Copyright Office within 30 days after execution in accordance with regulations that the Register of Copyrights shall prescribe.

(ii)(I) Within 10 days after publication in the Federal Register of a notice of the initiation of voluntary negotiation proceedings, parties who have reached a voluntary agreement may request that the royalty fees in that agreement be applied to all satellite carriers, distributors, and copyright owners without convening

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 781 2005

an arbitration proceeding pursuant to subparagraph (E).

(II) Upon receiving a request under subclause (I), the Librarian of Congress shall immediately provide public notice of the royalty fees from the voluntary agreement and afford parties an opportunity to state that they object to those fees.

(II) Upon receiving a request under subclause (I), the Librarian of Congress shall immediately provide public notice of the royalty fees from the voluntary agreement and afford parties an opportunity to state that they object to those fees.

(III) The Librarian shall adopt the royalty fees from the voluntary agreement for all satellite carriers, distributors, and copyright owners without convening an arbitration proceeding unless a party with an intent to participate in the arbitration proceeding and a significant interest in the outcome of that proceeding objects under subclause (II).

(E) PERIOD AGREEMENT IS IN EFFECT.—The obligation to pay the royalty fees established under a voluntary agreement which has been filed with the Copyright Office in accordance with this paragraph shall become effective on the date specified in the agreement, and shall remain in effect until December 31, 2009, or in accordance with the terms of the agreement, whichever is later.

(F) FEE SET BY COMPULSORY ARBITRATION.—

(i) NOTICE OF INITIATION OF PROCEEDINGS.—On or before May 1, 2005, the Librarian of Congress shall cause notice to be published in the Federal Register of the initiation of arbitration proceedings for the purpose of determining the royalty fee to be paid for the secondary transmission of primary analog transmission of network stations and superstations under subsection (b)(1)(B) by satellite carriers and distributors

(I) in the absence of a voluntary agreement filed in accordance with subparagraph (D) that establishes royalty fees to be paid by all satellite carriers and distributors; or

(II) if an objection to the fees from a voluntary agreement submitted for adoption by the Librarian of Congress to apply to all satellite carriers, distributors, and copyright owners is received under subparagraph (D) from a party with an intent to participate in the arbitration proceeding and a significant interest in the outcome of that proceeding.

Such arbitrary proceeding shall be conducted under chapter 8 as in effect on the day before the date of the enactment of the Copyright Royalty and Distribution Act of 2004.

(ii) ESTABLISHMENT OF ROYALTY FEES.—In determining royalty fees under this subparagraph, the

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 782 2005

copyright arbitration royalty panel appointed under chapter 8, as in effect on the day before the date of the enactment of the Copyright Royalty and Distribution Act of 2004 shall establish fees for the secondary transmissions of the primary analog transmission of network stations and superstations that most clearly represent the fair market value of secondary transmissions, except that the Librarian of Congress and any copyright arbitration royalty panel shall adjust those fees to account for the obligations of the parties under any applicable voluntary agreement filed with the Copyright Office pursuant to subparagraph (D). In determining the fair market value, the panel shall base its decision on economic, competitive, and programming information presented by the parties, including—

(I) the competitive environment in which such programming is distributed, the cost of similar signals in similar private and compulsory license marketplaces, and any special features and conditions of the retransmission marketplace;

(II) the economic impact of such fees on copyright owners and satellite carriers; and

(III) the impact on the continued availability of secondary transmissions to the public.

(iii) PERIOD DURING WHICH DECISION OF ARBITRATION PANEL OR ORDER OF LIBRARIAN EFFECTIVE.—The obligation to pay the royalty fee established under a determination which—

(I) is made by a copyright arbitration royalty panel in an arbitration proceeding under this paragraph and is adopted by the Librarian of Congress under section 802(f), as in effect on the day before the date of the enactment of the Copyright Royalty and Distribution Act of 2004; or

(II) is established by the Librarian under section 802(f) as in effect on the day before such date of enactment shall be effective as of January 1, 2005.

(iv) PERSONS SUBJECT TO ROYALTY FEE.—The royalty fee referred to in (iii) shall be binding on all satellite carriers, distributors and copyright owners, who are not party to a voluntary agreement filed with the Copyright Office under subparagraph (D).

(2) APPLICABILITY AND DETERMINATION OF ROYALTY FEES FOR DIGITAL SIGNALS.—The process and requirements for establishing the royalty fee payable under subsection (b)(1)(B) for the secondary transmission of the primary digital transmissions of network stations and superstations shall be the same as that set forth in paragraph (1) for the secondary transmission of the primary analog transmission of network stations and superstations, except that—

(A) the initial fee under paragraph (1)(A) shall be the rates set forth in section 298.3(b)(1) and (2) of title 37,

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 783 2005

Code of Federal Regulations, as in effect on the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, reduced by 22.5 percent;

(B) the notice of initiation of arbitration proceedings required in paragraph (1)(F)(i) shall be published on or before December 31, 2005; and

(C) the royalty fees that are established for the secondary transmission of the primary digital transmission of network stations and superstations in accordance with to the procedures set forth in paragraph (1)(F)(iii) and are payable under subsection (b)(1)(B)—

(i) shall be reduced by 22.5 percent; and

(ii) shall be adjusted by the Librarian of Congress on January 1, 2007, and on January 1 of each year thereafter, to reflect any changes occurring during the preceding 12 months in the cost of living as determined by the most recent Consumer Price Index (for all consumers and items) published by the Secretary of Labor.

(d) DEFINITIONS.—As used in this section—

(1) DISTRIBUTOR.—The term "distributor" means an entity which contracts to distribute secondary transmissions from a satellite carrier and, either as a single channel or in a package with other programming, provides the secondary transmission either directly to individual subscribers or indirectly through other program distribution entities in accordance with the provisions of this section.

(2) NETWORK STATION.—The term "network station" means—

(A) a television station licensed by the Federal Communications Commission, including any translator station or terrestrial satellite station that rebroadcasts all or substantially all of the programming broadcast by a network station, that is owned or operated by, or affiliated with, one or more of the television networks in the United States which offer an interconnected program service on a regular basis for 15 or more hours per week to at least 25 of its affiliated television licensees in 10 or more States; or

(B) a noncommercial educational broadcast station (as defined in section 397 of the Communications Act of 1934);

except that the term does not include the signal of the Alaska Rural Communications Service, or any successor entity to that service.

(3) PRIMARY NETWORK STATION.—The term "primary network station" means a network station that broadcasts or rebroadcasts the basic programming service of a particular national network.

(4) PRIMARY TRANSMISSION.—The term "primary transmission" has the meaning given that term in section 111(f) of this title.

(5) PRIVATE HOME VIEWING.—The term "private home viewing" means the viewing, for private use in a household by means of satellite reception equipment which is operated by an individual in that household and which serves only such house-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 784 2005

hold, of a secondary transmission delivered by a satellite carrier of a primary transmission of a television station licensed by the Federal Communications Commission.

(6) SATELLITE CARRIER.—The term "satellite carrier" means an entity that uses the facilities of a satellite or satellite service licensed by the Federal Communications Commission and operates in the Fixed-Satellite Service under part 25 of title 47 of the Code of Federal Regulations or the Direct Broadcast Satellite Service under part 100 of title 47 of the Code of Federal Regulations, to establish and operate a channel of communications for point-to-multipoint distribution of television station signals, and that owns or leases a capacity or service on a satellite in order to provide such point-to-multipoint distribution, except to the extent that such entity provides such distribution pursuant to tariff under the Communications Act of 1934, other than for private home viewing pursuant to this section.

(7) SECONDARY TRANSMISSION.—The term "secondary transmission" has the meaning given that term in section 111(f) of this title.

(8) SUBSCRIBER.—The term "subscriber" means an individual or entity that receives a secondary transmission service by means of a secondary transmission from a satellite carrier and pays a fee for the service, directly or indirectly, to the satellite carrier or to a distributor in accordance with the provisions of this section.

(9) SUPERSTATION.—The term "superstation" means a television station, other than a network station, licensed by the Federal Communications Commission, that is secondarily transmitted by a satellite carrier.

(10) UNSERVED HOUSEHOLD.—The term "unserved household", with respect to a particular television network, means a household that—

(A) cannot receive, through the use of a conventional, stationary, outdoor rooftop receiving antenna, an over-the-air signal of a primary network station affiliated with that network of Grade B intensity as defined by the Federal Communications Commission under section 73.683(a) of title 47 of the Code of Federal Regulations, as in effect on January 1, 1999;

(B) is subject to a waiver that meets the standards of subsection (a)(14) whether or not the waiver was granted before the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004;

(C) is a subscriber to whom subsection (e) applies;

(D) is a subscriber to whom subsection (a)(12) applies; or

(E) is a subscriber to whom the exemption under subsection (a)(2)(B)(iii) applies.

(11) LOCAL MARKET.—The term "local market" has the meaning given such term under section 122(j), except that with respect to a low power television station, the term "local market" means the designated market area in which the station is located.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 785 2005

(12) LOW POWER TELEVISION STATION.—The term "low power television station" means a low power television as defined under section 74.701(f) of title 47, Code of Federal Regulations, as in effect on June 1, 2004. For purposes of this paragraph, the term "low power television station" includes a low power television station that has been accorded primary status as a Class A television licensee under section 73.6001(a) of title 47, Code of Federal Regulations.

(13) COMMERCIAL ESTABLISHMENT.—The term "commercial establishment"—

(A) means an establishment used for commercial purposes, such as a bar, restaurant, private office, fitness club, oil rig, retail store, bank or other financial institution, supermarket, automobile or boat dealership, or any other establishment with a common business area; and

(B) does not include a multi-unit permanent or temporary dwelling where private home viewing occurs, such as a hotel, dormitory, hospital, apartment, condominium, or prison.

(e) MORATORIUM ON COPYRIGHT LIABILITY.—Until December 31, 2009, a subscriber who does not receive a signal of Grade A intensity (as defined in the regulations of the Federal Communications Commission under section 73.683(a) of title 47 of the Code of Federal Regulations, as in effect on January 1, 1999, or predicted by the Federal Communications Commission using the Individual Location Longley-Rice methodology described by the Federal Communications Commission in Docket No. 98–201) of a local network television broadcast station shall remain eligible to receive signals of network stations affiliated with the same network, if that subscriber had satellite service of such network signal terminated after July 11, 1998, and before October 31, 1999, as required by this section, or received such service on October 31, 1999.

(f) EXPEDITED CONSIDERATION BY JUSTICE DEPARTMENT OF VOLUNTARY AGREEMENTS TO PROVIDE SATELLITE SECONDARY TRANSMISSIONS TO LOCAL MARKETS.—

(1) IN GENERAL.—In a case in which no satellite carrier makes available, to subscribers located in a local market, as defined in section 122(j)(2), the secondary transmission into that market of a primary transmission of one or more television broadcast stations licensed by the Federal Communications Commission, and two or more satellite carriers request a business review letter in accordance with section 50.6 of title 28, Code of Federal Regulations (as in effect on July 7, 2004), in order to assess the legality under the antitrust laws of proposed business conduct to make or carry out an agreement to provide such secondary transmission into such local market, the appropriate official of the Department of Justice shall respond to the request no later than 90 days after the date on which the request is received.

(2) DEFINITION.—For purposes of this subsection, the term "antitrust laws"—

(A) has the meaning given that term in subsection (a) of the first section of the Clayton Act (15 U.S.C. 12(a)), except that such term includes section 5 of the Federal Trade

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 786 2005

Commission Act (15 U.S.C. 45) to the extent such section 5 applies to unfair methods of competition; and

(B) includes any State law similar to the laws referred to in paragraph (1).

* * * * * * *

§ 122. Limitations on exclusive rights: Secondary transmissions by satellite carriers within local markets

(a) SECONDARY TRANSMISSIONS OF TELEVISION BROADCAST STATIONS BY SATELLITE CARRIERS.—A secondary transmission of a performance or display of a work embodied in a primary transmission of a television broadcast station into the station's local market shall be subject to statutory licensing under this section if—

(1) the secondary transmission is made by a satellite carrier to the public;

(2) with regard to secondary transmissions, the satellite carrier is in compliance with the rules, regulations, or authorizations of the Federal Communications Commission governing the carriage of television broadcast station signals; and

(3) the satellite carrier makes a direct or indirect charge for the secondary transmission to—

(A) each subscriber receiving the secondary transmission; or

(B) a distributor that has contracted with the satellite carrier for direct or indirect delivery of the secondary transmission to the public.

(b) REPORTING REQUIREMENTS.—

(1) INITIAL LISTS.—A satellite carrier that makes secondary transmissions of a primary transmission made by a network station under subsection (a) shall, within 90 days after commencing such secondary transmissions, submit to the network that owns or is affiliated with the network station a list identifying (by name in alphabetical order and street address, including county and zip code) all subscribers to which the satellite carrier makes secondary transmissions of that primary transmission under subsection (a).

(2) SUBSEQUENT LISTS.—After the list is submitted under paragraph (1), the satellite carrier shall, on the 15th of each month, submit to the network a list identifying (by name in alphabetical order and street address, including county and zip code) any subscribers who have been added or dropped as subscribers since the last submission under this subsection.

(3) USE OF SUBSCRIBER INFORMATION.—Subscriber information submitted by a satellite carrier under this subsection may be used only for the purposes of monitoring compliance by the satellite carrier with this section.

(4) REQUIREMENTS OF NETWORKS.—The submission requirements of this subsection shall apply to a satellite carrier only if the network to which the submissions are to be made places on file with the Register of Copyrights a document identifying the name and address of the person to whom such submissions are to be made. The Register of Copyrights shall maintain for public inspection a file of all such documents.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 787 2005

(c) NO ROYALTY FEE REQUIRED.—A satellite carrier whose secondary transmissions are subject to statutory licensing under subsection (a) shall have no royalty obligation for such secondary transmissions.

(d) NONCOMPLIANCE WITH REPORTING AND REGULATORY REQUIREMENTS.—Notwithstanding subsection (a), the willful or repeated secondary transmission to the public by a satellite carrier into the local market of a television broadcast station of a primary transmission embodying a performance or display of a work made by that television broadcast station is actionable as an act of infringement under section 501, and is fully subject to the remedies provided under sections 502 through 506 and 509, if the satellite carrier has not complied with the reporting requirements of subsection (b) or with the rules, regulations, and authorizations of the Federal Communications Commission concerning the carriage of television broadcast signals.

(e) WILLFUL ALTERATIONS.—Notwithstanding subsection (a), the secondary transmission to the public by a satellite carrier into the local market of a television broadcast station of a performance or display of a work embodied in a primary transmission made by that television broadcast station is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and sections 509 and 510, if the content of the particular program in which the performance or display is embodied, or any commercial advertising or station announcement transmitted by the primary transmitter during, or immediately before or after, the transmission of such program, is in any way willfully altered by the satellite carrier through changes, deletions, or additions, or is combined with programming from any other broadcast signal.

(f) VIOLATION OF TERRITORIAL RESTRICTIONS ON STATUTORY LICENSE FOR TELEVISION BROADCAST STATIONS.—

(1) INDIVIDUAL VIOLATIONS.—The willful or repeated secondary transmission to the public by a satellite carrier of a primary transmission embodying a performance or display of a work made by a television broadcast station to a subscriber who does not reside in that station's local market, and is not subject to statutory licensing under section 119 or a private licensing agreement, is actionable as an act of infringement under section 501 and is fully subject to the remedies provided by sections 502 through 506 and 509, except that—

(A) no damages shall be awarded for such act of infringement if the satellite carrier took corrective action by promptly withdrawing service from the ineligible subscriber; and

(B) any statutory damages shall not exceed $5 for such subscriber for each month during which the violation occurred.

(2) PATTERN OF VIOLATIONS.—If a satellite carrier engages in a willful or repeated pattern or practice of secondarily transmitting to the public a primary transmission embodying a performance or display of a work made by a television broadcast station to subscribers who do not reside in that station's local market, and are not subject to statutory licensing under sec-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 788 2005

tion 119 or a private licensing agreement, then in addition to the remedies under paragraph (1)—

(A) if the pattern or practice has been carried out on a substantially nationwide basis, the court—

(i) shall order a permanent injunction barring the secondary transmission by the satellite carrier of the primary transmissions of that television broadcast station (and if such television broadcast station is a network station, all other television broadcast stations affiliated with such network); and

(ii) may order statutory damages not exceeding $250,000 for each 6-month period during which the pattern or practice was carried out; and

(B) if the pattern or practice has been carried out on a local or regional basis with respect to more than one television broadcast station, the court—

(i) shall order a permanent injunction barring the secondary transmission in that locality or region by the satellite carrier of the primary transmissions of any television broadcast station; and

(ii) may order statutory damages not exceeding $250,000 for each 6-month period during which the pattern or practice was carried out.

(g) BURDEN OF PROOF.—In any action brought under subsection (f), the satellite carrier shall have the burden of proving that its secondary transmission of a primary transmission by a television broadcast station is made only to subscribers located within that station's local market or subscribers being served in compliance with section 119 or a private licensing agreement.

(h) GEOGRAPHIC LIMITATIONS ON SECONDARY TRANSMISSIONS.—The statutory license created by this section shall apply to secondary transmissions to locations in the United States.

(i) EXCLUSIVITY WITH RESPECT TO SECONDARY TRANSMISSIONS OF BROADCAST STATIONS BY SATELLITE TO MEMBERS OF THE PUBLIC.—No provision of section 111 or any other law (other than this section and section 119) shall be construed to contain any authorization, exemption, or license through which secondary transmissions by satellite carriers of programming contained in a primary transmission made by a television broadcast station may be made without obtaining the consent of the copyright owner.

(j) DEFINITIONS.—In this section—

(1) DISTRIBUTOR.—The term "distributor" means an entity which contracts to distribute secondary transmissions from a satellite carrier and, either as a single channel or in a package with other programming, provides the secondary transmission either directly to individual subscribers or indirectly through other program distribution entities.

(2) LOCAL MARKET.—

(A) IN GENERAL.—The term "local market", in the case of both commercial and noncommercial television broadcast stations, means the designated market area in which a station is located, and—

(i) in the case of a commercial television broadcast station, all commercial television broadcast stations li-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 789 2005

censed to a community within the same designated market area are within the same local market; and

(ii) in the case of a noncommercial educational television broadcast station, the market includes any station that is licensed to a community within the same designated market area as the noncommercial educational television broadcast station.

(B) COUNTY OF LICENSE.—In addition to the area described in subparagraph (A), a station's local market includes the county in which the station's community of license is located.

(C) DESIGNATED MARKET AREA.—For purposes of subparagraph (A), the term "designated market area" means a designated market area, as determined by Nielsen Media Research and published in the 1999–2000 Nielsen Station Index Directory and Nielsen Station Index United States Television Household Estimates or any successor publication.

(D) CERTAIN AREAS OUTSIDE OF ANY DESIGNATED MARKET AREA.—Any census area, borough, or other area in the State of Alaska that is outside of a designated market area, as determined by Nielsen Media Research, shall be deemed to be part of one of the local markets in the State of Alaska. A satellite carrier may determine which local market in the State of Alaska will be deemed to be the relevant local market in connection with each subscriber in such census area, borough, or other area.

(3) NETWORK STATION; SATELLITE CARRIER; SECONDARY TRANSMISSION.—The terms "network station", "satellite carrier", and "secondary transmission" have the meanings given such terms under section 119(d).

(4) SUBSCRIBER.—The term "subscriber" means a person who receives a secondary transmission service from a satellite carrier and pays a fee for the service, directly or indirectly, to the satellite carrier or to a distributor.

(5) TELEVISION BROADCAST STATION.—The term "television broadcast station"—

(A) means an over-the-air, commercial or noncommercial television broadcast station licensed by the Federal Communications Commission under subpart E of part 73 of title 47, Code of Federal Regulations, except that such term does not include a low-power or translator television station; and

(B) includes a television broadcast station licensed by an appropriate governmental authority of Canada or Mexico if the station broadcasts primarily in the English language and is a network station as defined in section 119(d)(2)(A).

CHAPTER 5—COPYRIGHT INFRINGEMENT AND REMEDIES

Sec.
501. Infringement of copyright.
* * * * * * *
512. Limitations on liability relating to material online.
* * * * * * *

§ 501. Infringement of copyright

(a) Anyone who violates any of the exclusive rights of the copyright owner as provided by sections 106 through 122 or of the author as provided in section 106A(a), or who imports copies or phonorecords into the United States in violation of section 602, is an infringer of the copyright or right of the author, as the case may be. For purposes of this chapter (other than section 506), any reference to copyright shall be deemed to include the rights conferred by section 106A(a). As used in this subsection, the term "anyone" includes any State, any instrumentality of a State, and any officer or employee of a State or instrumentality of a State acting in his or her official capacity. Any State, and any such instrumentality, officer, or employee, shall be subject to the provisions of this title in the same manner and to the same extent as any nongovernmental entity.

(b) The legal or beneficial owner of an exclusive right under a copyright is entitled, subject to the requirements of section 411, to institute an action for any infringement of that particular right committed while he or she is the owner of it. The court may require such owner to serve written notice of the action with a copy of the complaint upon any person shown, by the records of the Copyright Office or otherwise, to have or claim an interest in the copyright, and shall require that such notice be served upon any person whose interest is likely to be affected by a decision in the case. The court may require the joinder, and shall permit the intervention, of any person having or claiming an interest in the copyright.

(c) For any secondary transmission by a cable system that embodies a performance or a display of a work which is actionable as an act of infringement under subsection (c) of section 111, a television broadcast station holding a copyright or other license to transmit or perform the same version of that work shall, for purposes of subsection (b) of this section, be treated as a legal or beneficial owner if such secondary transmission occurs within the local service area of that television station.

(d) For any secondary transmission by a cable system that is actionable as an act of infringement pursuant to section 111(c)(3), the following shall also have standing to sue: (i) the primary transmitter whose transmission has been altered by the cable system; and (ii) any broadcast station within whose local service area the secondary transmission occurs.

(e) With respect to any secondary transmission that is made by a satellite carrier of a performance or display of a work embodied in a primary transmission and is actionable as an act of infringement under section 119(a)(5), a network station holding a copyright or other license to transmit or perform the same version of that

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 791 2005

work shall, for purposes of subsection (b) of this section, be treated as a legal or beneficial owner if such secondary transmission occurs within the local service area of that station.

(f)(1) With respect to any secondary transmission that is made by a satellite carrier of a performance or display of a work embodied in a primary transmission and is actionable as an act of infringement under section 122, a television broadcast station holding a copyright or other license to transmit or perform the same version of that work shall, for purposes of subsection (b) of this section, be treated as a legal or beneficial owner if such secondary transmission occurs within the local market of that station.

(2) A television broadcast station may file a civil action against any satellite carrier that has refused to carry television broadcast signals, as required under section 122(a)(2), to enforce that television broadcast station's rights under section 338(a) of the Communications Act of 1934.

* * * * * * *

§ 512. Limitations on liability relating to material online

(a) TRANSITORY DIGITAL NETWORK COMMUNICATIONS.—A service provider shall not be liable for monetary relief, or, except as provided in subsection (j), for injunctive or other equitable relief, for infringement of copyright by reason of the provider's transmitting, routing, or providing connections for, material through a system or network controlled or operated by or for the service provider, or by reason of the intermediate and transient storage of that material in the course of such transmitting, routing, or providing connections, if—

(1) the transmission of the material was initiated by or at the direction of a person other than the service provider;

(2) the transmission, routing, provision of connections, or storage is carried out through an automatic technical process without selection of the material by the service provider;

(3) the service provider does not select the recipients of the material except as an automatic response to the request of another person;

(4) no copy of the material made by the service provider in the course of such intermediate or transient storage is maintained on the system or network in a manner ordinarily accessible to anyone other than anticipated recipients, and no such copy is maintained on the system or network in a manner ordinarily accessible to such anticipated recipients for a longer period than is reasonably necessary for the transmission, routing, or provision of connections; and

(5) the material is transmitted through the system or network without modification of its content.

(b) SYSTEM CACHING.—

(1) LIMITATION ON LIABILITY.—A service provider shall not be liable for monetary relief, or, except as provided in subsection (j), for injunctive or other equitable relief, for infringement of copyright by reason of the intermediate and temporary storage of material on a system or network controlled or operated by or for the service provider in a case in which—

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 792 2005

(A) the material is made available online by a person other than the service provider;

(B) the material is transmitted from the person described in subparagraph (A) through the system or network to a person other than the person described in subparagraph (A) at the direction of that other person; and

(C) the storage is carried out through an automatic technical process for the purpose of making the material available to users of the system or network who, after the material is transmitted as described in subparagraph (B), request access to the material from the person described in subparagraph (A),

if the conditions set forth in paragraph (2) are met.

(2) CONDITIONS.—The conditions referred to in paragraph (1) are that—

(A) the material described in paragraph (1) is transmitted to the subsequent users described in paragraph (1)(C) without modification to its content from the manner in which the material was transmitted from the person described in paragraph (1)(A);

(B) the service provider described in paragraph (1) complies with rules concerning the refreshing, reloading, or other updating of the material when specified by the person making the material available online in accordance with a generally accepted industry standard data communications protocol for the system or network through which that person makes the material available, except that this subparagraph applies only if those rules are not used by the person described in paragraph (1)(A) to prevent or unreasonably impair the intermediate storage to which this subsection applies;

(C) the service provider does not interfere with the ability of technology associated with the material to return to the person described in paragraph (1)(A) the information that would have been available to that person if the material had been obtained by the subsequent users described in paragraph (1)(C) directly from that person, except that this subparagraph applies only if that technology—

(i) does not significantly interfere with the performance of the provider's system or network or with the intermediate storage of the material;

(ii) is consistent with generally accepted industry standard communications protocols; and

(iii) does not extract information from the provider's system or network other than the information that would have been available to the person described in paragraph (1)(A) if the subsequent users had gained access to the material directly from that person;

(D) if the person described in paragraph (1)(A) has in effect a condition that a person must meet prior to having access to the material, such as a condition based on payment of a fee or provision of a password or other information, the service provider permits access to the stored

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 793 2005

material in significant part only to users of its system or network that have met those conditions and only in accordance with those conditions; and

(E) if the person described in paragraph (1)(A) makes that material available online without the authorization of the copyright owner of the material, the service provider responds expeditiously to remove, or disable access to, the material that is claimed to be infringing upon notification of claimed infringement as described in subsection (c)(3), except that this subparagraph applies only if—

(i) the material has previously been removed from the originating site or access to it has been disabled, or a court has ordered that the material be removed from the originating site or that access to the material on the originating site be disabled; and

(ii) the party giving the notification includes in the notification a statement confirming that the material has been removed from the originating site or access to it has been disabled or that a court has ordered that the material be removed from the originating site or that access to the material on the originating site be disabled.

(c) INFORMATION RESIDING ON SYSTEMS OR NETWORKS AT DIRECTION OF USERS.—

(1) IN GENERAL.—A service provider shall not be liable for monetary relief, or, except as provided in subsection (j), for injunctive or other equitable relief, for infringement of copyright by reason of the storage at the direction of a user of material that resides on a system or network controlled or operated by or for the service provider, if the service provider—

(A)(i) does not have actual knowledge that the material or an activity using the material on the system or network is infringing;

(ii) in the absence of such actual knowledge, is not aware of facts or circumstances from which infringing activity is apparent; or

(iii) upon obtaining such knowledge or awareness, acts expeditiously to remove, or disable access to, the material;

(B) does not receive a financial benefit directly attributable to the infringing activity, in a case in which the service provider has the right and ability to control such activity; and

(C) upon notification of claimed infringement as described in paragraph (3), responds expeditiously to remove, or disable access to, the material that is claimed to be infringing or to be the subject of infringing activity.

(2) DESIGNATED AGENT.—The limitations on liability established in this subsection apply to a service provider only if the service provider has designated an agent to receive notifications of claimed infringement described in paragraph (3), by making available through its service, including on its website in a location accessible to the public, and by providing to the Copyright Office, substantially the following information:

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 794 2005

(A) the name, address, phone number, and electronic mail address of the agent.

(B) other contact information which the Register of Copyrights may deem appropriate.

The Register of Copyrights shall maintain a current directory of agents available to the public for inspection, including through the Internet, in both electronic and hard copy formats, and may require payment of a fee by service providers to cover the costs of maintaining the directory.

(3) ELEMENTS OF NOTIFICATION.—

(A) To be effective under this subsection, a notification of claimed infringement must be a written communication provided to the designated agent of a service provider that includes substantially the following:

(i) A physical or electronic signature of a person authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

(ii) Identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works at a single online site are covered by a single notification, a representative list of such works at that site.

(iii) Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit the service provider to locate the material.

(iv) Information reasonably sufficient to permit the service provider to contact the complaining party, such as an address, telephone number, and, if available, an electronic mail address at which the complaining party may be contacted.

(v) A statement that the complaining party has a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law.

(vi) A statement that the information in the notification is accurate, and under penalty of perjury, that the complaining party is authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

(B)(i) Subject to clause (ii), a notification from a copyright owner or from a person authorized to act on behalf of the copyright owner that fails to comply substantially with the provisions of subparagraph (A) shall not be considered under paragraph (1)(A) in determining whether a service provider has actual knowledge or is aware of facts or circumstances from which infringing activity is apparent.

(ii) In a case in which the notification that is provided to the service provider's designated agent fails to comply substantially with all the provisions of subparagraph (A) but substantially complies with clauses (ii), (iii), and (iv) of subparagraph (A), clause (i) of this subparagraph applies

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 795 2005

only if the service provider promptly attempts to contact the person making the notification or takes other reasonable steps to assist in the receipt of notification that substantially complies with all the provisions of subparagraph (A).

(d) INFORMATION LOCATION TOOLS.—A service provider shall not be liable for monetary relief, or, except as provided in subsection (j), for injunctive or other equitable relief, for infringement of copyright by reason of the provider referring or linking users to an online location containing infringing material or infringing activity, by using information location tools, including a directory, index, reference, pointer, or hypertext link, if the service provider—

(1)(A) does not have actual knowledge that the material or activity is infringing;

(B) in the absence of such actual knowledge, is not aware of facts or circumstances from which infringing activity is apparent; or

(C) upon obtaining such knowledge or awareness, acts expeditiously to remove, or disable access to, the material;

(2) does not receive a financial benefit directly attributable to the infringing activity, in a case in which the service provider has the right and ability to control such activity; and

(3) upon notification of claimed infringement as described in subsection (c)(3), responds expeditiously to remove, or disable access to, the material that is claimed to be infringing or to be the subject of infringing activity, except that, for purposes of this paragraph, the information described in subsection (c)(3)(A)(iii) shall be identification of the reference or link, to material or activity claimed to be infringing, that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit the service provider to locate that reference or link.

(e) LIMITATION ON LIABILITY OF NONPROFIT EDUCATIONAL INSTITUTIONS.—(1) When a public or other nonprofit institution of higher education is a service provider, and when a faculty member or graduate student who is an employee of such institution is performing a teaching or research function, for the purposes of subsections (a) and (b) such faculty member or graduate student shall be considered to be a person other than the institution, and for the purposes of subsections (c) and (d) such faculty member's or graduate student's knowledge or awareness of his or her infringing activities shall not be attributed to the institution, if—

(A) such faculty member's or graduate student's infringing activities do not involve the provision of online access to instructional materials that are or were required or recommended, within the preceding 3-year period, for a course taught at the institution by such faculty member or graduate student;

(B) the institution has not, within the preceding 3-year period, received more than two notifications described in subsection (c)(3) of claimed infringement by such faculty member or graduate student, and such notifications of claimed infringement were not actionable under subsection (f); and

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 796 2005

(C) the institution provides to all users of its system or network informational materials that accurately describe, and promote compliance with, the laws of the United States relating to copyright.

(2) For the purposes of this subsection, the limitations on injunctive relief contained in subsections (j)(2) and (j)(3), but not those in (j)(1), shall apply.

(f) MISREPRESENTATIONS.—Any person who knowingly materially misrepresents under this section—

(1) that material or activity is infringing, or

(2) that material or activity was removed or disabled by mistake or misidentification,

shall be liable for any damages, including costs and attorneys' fees, incurred by the alleged infringer, by any copyright owner or copyright owner's authorized licensee, or by a service provider, who is injured by such misrepresentation, as the result of the service provider relying upon such misrepresentation in removing or disabling access to the material or activity claimed to be infringing, or in replacing the removed material or ceasing to disable access to it.

(g) REPLACEMENT OF REMOVED OR DISABLED MATERIAL AND LIMITATION ON OTHER LIABILITY.—

(1) NO LIABILITY FOR TAKING DOWN GENERALLY.—Subject to paragraph (2), a service provider shall not be liable to any person for any claim based on the service provider's good faith disabling of access to, or removal of, material or activity claimed to be infringing or based on facts or circumstances from which infringing activity is apparent, regardless of whether the material or activity is ultimately determined to be infringing.

(2) EXCEPTION.—Paragraph (1) shall not apply with respect to material residing at the direction of a subscriber of the service provider on a system or network controlled or operated by or for the service provider that is removed, or to which access is disabled by the service provider, pursuant to a notice provided under subsection (c)(1)(C), unless the service provider—

(A) takes reasonable steps promptly to notify the subscriber that it has removed or disabled access to the material;

(B) upon receipt of a counter notification described in paragraph (3), promptly provides the person who provided the notification under subsection (c)(1)(C) with a copy of the counter notification, and informs that person that it will replace the removed material or cease disabling access to it in 10 business days; and

(C) replaces the removed material and ceases disabling access to it not less than 10, nor more than 14, business days following receipt of the counter notice, unless its designated agent first receives notice from the person who submitted the notification under subsection (c)(1)(C) that such person has filed an action seeking a court order to restrain the subscriber from engaging in infringing activity relating to the material on the service provider's system or network.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 797 2005

(3) CONTENTS OF COUNTER NOTIFICATION.—To be effective under this subsection, a counter notification must be a written communication provided to the service provider's designated agent that includes substantially the following:

(A) A physical or electronic signature of the subscriber.

(B) Identification of the material that has been removed or to which access has been disabled and the location at which the material appeared before it was removed or access to it was disabled.

(C) A statement under penalty of perjury that the subscriber has a good faith belief that the material was removed or disabled as a result of mistake or misidentification of the material to be removed or disabled.

(D) The subscriber's name, address, and telephone number, and a statement that the subscriber consents to the jurisdiction of Federal District Court for the judicial district in which the address is located, or if the subscriber's address is outside of the United States, for any judicial district in which the service provider may be found, and that the subscriber will accept service of process from the person who provided notification under subsection (c)(1)(C) or an agent of such person.

(4) LIMITATION ON OTHER LIABILITY.—A service provider's compliance with paragraph (2) shall not subject the service provider to liability for copyright infringement with respect to the material identified in the notice provided under subsection (c)(1)(C).

(h) SUBPOENA TO IDENTIFY INFRINGER.—

(1) REQUEST.—A copyright owner or a person authorized to act on the owner's behalf may request the clerk of any United States district court to issue a subpoena to a service provider for identification of an alleged infringer in accordance with this subsection.

(2) CONTENTS OF REQUEST.—The request may be made by filing with the clerk—

(A) a copy of a notification described in subsection (c)(3)(A);

(B) a proposed subpoena; and

(C) a sworn declaration to the effect that the purpose for which the subpoena is sought is to obtain the identity of an alleged infringer and that such information will only be used for the purpose of protecting rights under this title.

(3) CONTENTS OF SUBPOENA.—The subpoena shall authorize and order the service provider receiving the notification and the subpoena to expeditiously disclose to the copyright owner or person authorized by the copyright owner information sufficient to identify the alleged infringer of the material described in the notification to the extent such information is available to the service provider.

(4) BASIS FOR GRANTING SUBPOENA.—If the notification filed satisfies the provisions of subsection (c)(3)(A), the proposed subpoena is in proper form, and the accompanying dec-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 798 2005

laration is properly executed, the clerk shall expeditiously issue and sign the proposed subpoena and return it to the requester for delivery to the service provider.

(5) ACTIONS OF SERVICE PROVIDER RECEIVING SUBPOENA.—Upon receipt of the issued subpoena, either accompanying or subsequent to the receipt of a notification described in subsection (c)(3)(A), the service provider shall expeditiously disclose to the copyright owner or person authorized by the copyright owner the information required by the subpoena, notwithstanding any other provision of law and regardless of whether the service provider responds to the notification.

(6) RULES APPLICABLE TO SUBPOENA.—Unless otherwise provided by this section or by applicable rules of the court, the procedure for issuance and delivery of the subpoena, and the remedies for noncompliance with the subpoena, shall be governed to the greatest extent practicable by those provisions of the Federal Rules of Civil Procedure governing the issuance, service, and enforcement of a subpoena duces tecum.

(i) CONDITIONS FOR ELIGIBILITY.—

(1) ACCOMMODATION OF TECHNOLOGY.—The limitations on liability established by this section shall apply to a service provider only if the service provider—

(A) has adopted and reasonably implemented, and informs subscribers and account holders of the service provider's system or network of, a policy that provides for the termination in appropriate circumstances of subscribers and account holders of the service provider's system or network who are repeat infringers; and

(B) accommodates and does not interfere with standard technical measures.

(2) DEFINITION.—As used in this subsection, the term "standard technical measures" means technical measures that are used by copyright owners to identify or protect copyrighted works and—

(A) have been developed pursuant to a broad consensus of copyright owners and service providers in an open, fair, voluntary, multi-industry standards process;

(B) are available to any person on reasonable and nondiscriminatory terms; and

(C) do not impose substantial costs on service providers or substantial burdens on their systems or networks.

(j) INJUNCTIONS.—The following rules shall apply in the case of any application for an injunction under section 502 against a service provider that is not subject to monetary remedies under this section:

(1) SCOPE OF RELIEF.—(A) With respect to conduct other than that which qualifies for the limitation on remedies set forth in subsection (a), the court may grant injunctive relief with respect to a service provider only in one or more of the following forms:

(i) An order restraining the service provider from providing access to infringing material or activity residing at

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 799 2005

a particular online site on the provider's system or network.

(ii) An order restraining the service provider from providing access to a subscriber or account holder of the service provider's system or network who is engaging in infringing activity and is identified in the order, by terminating the accounts of the subscriber or account holder that are specified in the order.

(iii) Such other injunctive relief as the court may consider necessary to prevent or restrain infringement of copyrighted material specified in the order of the court at a particular online location, if such relief is the least burdensome to the service provider among the forms of relief comparably effective for that purpose.

(B) If the service provider qualifies for the limitation on remedies described in subsection (a), the court may only grant injunctive relief in one or both of the following forms:

(i) An order restraining the service provider from providing access to a subscriber or account holder of the service provider's system or network who is using the provider's service to engage in infringing activity and is identified in the order, by terminating the accounts of the subscriber or account holder that are specified in the order.

(ii) An order restraining the service provider from providing access, by taking reasonable steps specified in the order to block access, to a specific, identified, online location outside the United States.

(2) CONSIDERATIONS.—The court, in considering the relevant criteria for injunctive relief under applicable law, shall consider—

(A) whether such an injunction, either alone or in combination with other such injunctions issued against the same service provider under this subsection, would significantly burden either the provider or the operation of the provider's system or network;

(B) the magnitude of the harm likely to be suffered by the copyright owner in the digital network environment if steps are not taken to prevent or restrain the infringement;

(C) whether implementation of such an injunction would be technically feasible and effective, and would not interfere with access to noninfringing material at other online locations; and

(D) whether other less burdensome and comparably effective means of preventing or restraining access to the infringing material are available.

(3) NOTICE AND EX PARTE ORDERS.—Injunctive relief under this subsection shall be available only after notice to the service provider and an opportunity for the service provider to appear are provided, except for orders ensuring the preservation of evidence or other orders having no material adverse effect on the operation of the service provider's communications network.

(k) DEFINITIONS.—

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 800 2005

(1) SERVICE PROVIDER.—(A) As used in subsection (a), the term "service provider" means an entity offering the transmission, routing, or providing of connections for digital online communications, between or among points specified by a user, of material of the user's choosing, without modification to the content of the material as sent or received.

(B) As used in this section, other than subsection (a), the term "service provider" means a provider of online services or network access, or the operator of facilities therefor, and includes an entity described in subparagraph (A).

(2) MONETARY RELIEF.—As used in this section, the term "monetary relief" means damages, costs, attorneys' fees, and any other form of monetary payment.

(l) OTHER DEFENSES NOT AFFECTED.—The failure of a service provider's conduct to qualify for limitation of liability under this section shall not bear adversely upon the consideration of a defense by the service provider that the service provider's conduct is not infringing under this title or any other defense.

(l) The failure of a service provider's conduct to qualify for limitation of liability under this section shall not bear adversely upon the consideration of a defense by the service provider that the service provider's conduct is not infringing under this title or any other defense.

(m) PROTECTION OF PRIVACY.—Nothing in this section shall be construed to condition the applicability of subsections (a) through (d) on—

(1) a service provider monitoring its service or affirmatively seeking facts indicating infringing activity, except to the extent consistent with a standard technical measure complying with the provisions of subsection (i); or

(2) a service provider gaining access to, removing, or disabling access to material in cases in which such conduct is prohibited by law.

(n) CONSTRUCTION.—Subsections (a), (b), (c), and (d) describe separate and distinct functions for purposes of applying this section. Whether a service provider qualifies for the limitation on liability in any one of those subsections shall be based solely on the criteria in that subsection, and shall not affect a determination of whether that service provider qualifies for the limitations on liability under any other such subsection.

CHAPTER 8—PROCEEDINGS BY COPYRIGHT ROYALTY JUDGES

Sec.
801. Copyright Royalty Judges; appointment and functions.

* * * * * * *

§ 801. Copyright Royalty Judges; appointment and functions

(a) APPOINTMENT.—The Librarian of Congress shall appoint 3 full-time Copyright Royalty Judges, and shall appoint 1 of the 3 as the Chief Copyright Royalty Judge. The Librarian shall make

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 801 2005

appointments to such positions after consultation with the Register of Copyrights.

(b) FUNCTIONS.—Subject to the provisions of this chapter, the functions of the Copyright Royalty Judges shall be as follows:

(1) To make determinations and adjustments of reasonable terms and rates of royalty payments as provided in sections 112(e), 114, 115, 116, 118, 119 and 1004. The rates applicable under sections 114(f)(1)(B), 115, and 116 shall be calculated to achieve the following objectives:

(A) To maximize the availability of creative works to the public.

(B) To afford the copyright owner a fair return for his or her creative work and the copyright user a fair income under existing economic conditions.

(C) To reflect the relative roles of the copyright owner and the copyright user in the product made available to the public with respect to relative creative contribution, technological contribution, capital investment, cost, risk, and contribution to the opening of new markets for creative expression and media for their communication.

(D) To minimize any disruptive impact on the structure of the industries involved and on generally prevailing industry practices.

(2) To make determinations concerning the adjustment of the copyright royalty rates under section 111 solely in accordance with the following provisions:

(A) The rates established by section 111(d)(1)(B) may be adjusted to reflect—

(i) national monetary inflation or deflation; or

(ii) changes in the average rates charged cable subscribers for the basic service of providing secondary transmissions to maintain the real constant dollar level of the royalty fee per subscriber which existed as of the date of October 19, 1976,

except that—

(I) if the average rates charged cable system subscribers for the basic service of providing secondary transmissions are changed so that the average rates exceed national monetary inflation, no change in the rates established by section 111(d)(1)(B) shall be permitted; and

(II) no increase in the royalty fee shall be permitted based on any reduction in the average number of distant signal equivalents per subscriber.

(II) no increase in the royalty fee shall be permitted based on any reduction in the average number of distant signal equivalents per subscriber.

The Copyright Royalty Judges may consider all factors relating to the maintenance of such level of payments, including, as an extenuating factor, whether the industry has been restrained by subscriber rate regulating authorities from increasing the rates for the basic service of providing secondary transmissions.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 802 2005

(B) In the event that the rules and regulations of the Federal Communications Commission are amended at any time after April 15, 1976, to permit the carriage by cable systems of additional television broadcast signals beyond the local service area of the primary transmitters of such signals, the royalty rates established by section 111(d)(1)(B) may be adjusted to ensure that the rates for the additional distant signal equivalents resulting from such carriage are reasonable in the light of the changes effected by the amendment to such rules and regulations. In determining the reasonableness of rates proposed following an amendment of Federal Communications Commission rules and regulations, the Copyright Royalty Judges shall consider, among other factors, the economic impact on copyright owners and users; except that no adjustment in royalty rates shall be made under this subparagraph with respect to any distant signal equivalent or fraction thereof represented by—

(i) carriage of any signal permitted under the rules and regulations of the Federal Communications Commission in effect on April 15, 1976, or the carriage of a signal of the same type (that is, independent, network, or noncommercial educational) substituted for such permitted signal; or

(ii) a television broadcast signal first carried after April 15, 1976, pursuant to an individual waiver of the rules and regulations of the Federal Communications Commission, as such rules and regulations were in effect on April 15, 1976.

(C) In the event of any change in the rules and regulations of the Federal Communications Commission with respect to syndicated and sports program exclusivity after April 15, 1976, the rates established by section 111(d)(1)(B) may be adjusted to assure that such rates are reasonable in light of the changes to such rules and regulations, but any such adjustment shall apply only to the affected television broadcast signals carried on those systems affected by the change.

(D) The gross receipts limitations established by section 111(d)(1) (C) and (D) shall be adjusted to reflect national monetary inflation or deflation or changes in the average rates charged cable system subscribers for the basic service of providing secondary transmissions to maintain the real constant dollar value of the exemption provided by such section, and the royalty rate specified therein shall not be subject to adjustment.

(3)(A) To authorize the distribution, under sections 111, 119, and 1007, of those royalty fees collected under sections 111, 119, and 1005, as the case may be, to the extent that the Copyright Royalty Judges have found that the distribution of such fees is not subject to controversy.

(B) In cases where the Copyright Royalty Judges determine that controversy exists, the Copyright Royalty Judges shall determine the distribution of such fees, including partial

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 803 2005

distributions, in accordance with section 111, 119, or 1007, as the case may be.

(C) The Copyright Royalty Judges may make a partial distribution of such fees during the pendency of the proceeding under subparagraph (B) if all participants under section 803(b)(2) in the proceeding that are entitled to receive those fees that are to be partially distributed—

(i) agree to such partial distribution;

(ii) sign an agreement obligating them to return any excess amounts to the extent necessary to comply with the final determination on the distribution of the fees made under subparagraph (B);

(iii) file the agreement with the Copyright Royalty Judges; and

(iv) agree that such funds are available for distribution.

(D) The Copyright Royalty Judges and any other officer or employee acting in good faith in distributing funds under subparagraph (C) shall not be held liable for the payment of any excess fees under subparagraph (C). The Copyright Royalty Judges shall, at the time the final determination is made, calculate any such excess amounts.

(4) To accept or reject royalty claims filed under sections 111, 119, and 1007, on the basis of timeliness or the failure to establish the basis for a claim.

(5) To accept or reject rate adjustment petitions as provided in section 804 and petitions to participate as provided in section 803(b) (1) and (2).

(6) To determine the status of a digital audio recording device or a digital audio interface device under sections 1002 and 1003, as provided in section 1010.

(7)(A) To adopt as a basis for statutory terms and rates or as a basis for the distribution of statutory royalty payments, an agreement concerning such matters reached among some or all of the participants in a proceeding at any time during the proceeding, except that—

(i) the Copyright Royalty Judges shall provide to those that would be bound by the terms, rates, or other determination set by any agreement in a proceeding to determine royalty rates an opportunity to comment on the agreement and shall provide to participants in the proceeding under section 803(b)(2) that would be bound by the terms, rates, or other determination set by the agreement an opportunity to comment on the agreement and object to its adoption as a basis for statutory terms and rates; and

(ii) the Copyright Royalty Judges may decline to adopt the agreement as a basis for statutory terms and rates for participants that are not parties to the agreement, if any participant described in clause (i) objects to the agreement and the Copyright Royalty Judges conclude, based on the record before them if one exists, that the agreement does not provide a reasonable basis for setting statutory terms or rates.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 804 2005

(B) License agreements voluntarily negotiated pursuant to section 112(e)(5), 114(f)(3), 115(c)(3)(E)(i), 116(c), or 118(b)(2) that do not result in statutory terms and rates shall not be subject to clauses (i) and (ii) of subparagraph (A).

(C) Interested parties may negotiate and agree to, and the Copyright Royalty Judges may adopt, an agreement that specifies as terms notice and recordkeeping requirements that apply in lieu of those that would otherwise apply under regulations.

(8) To perform other duties, as assigned by the Register of Copyrights within the Library of Congress, except as provided in section 802(g), at times when Copyright Royalty Judges are not engaged in performing the other duties set forth in this section.

(c) RULINGS.—The Copyright Royalty Judges may make any necessary, procedural or evidentiary rulings in any proceeding under this chapter and may, before commencing a proceeding under this chapter, make any such rulings that would apply to the proceedings conducted by the Copyright Royalty Judges.

(d) ADMINISTRATIVE SUPPORT.—The Librarian of Congress shall provide the Copyright Royalty Judges with the necessary administrative services related to proceedings under this chapter.

(e) LOCATION IN LIBRARY OF CONGRESS.—The offices of the Copyright Royalty Judges and staff shall be in the Library of Congress.

* * * * * * *

CHAPTER 11—SOUND RECORDINGS AND MUSIC VIDEOS

Sec.
1101. Unauthorized fixation and trafficking in sound recordings and music videos.

§ 1101. Unauthorized fixation and trafficking in sound recordings and music videos

(a) UNAUTHORIZED ACTS.—Anyone who, without the consent of the performer or performers involved—

(1) fixes the sounds or sounds and images of a live musical performance in a copy or phonorecord, or reproduces copies or phonorecords of such a performance from an unauthorized fixation,

(2) transmits or otherwise communicates to the public the sounds or sounds and images of a live musical performance, or

(3) distributes or offers to distribute, sells or offers to sell, rents or offers to rent, or traffics in any copy or phonorecord fixed as described in paragraph (1), regardless of whether the fixations occurred in the United States,

shall be subject to the remedies provided in sections 502 through 505, to the same extent as an infringer of copyright.

(b) DEFINITION.—As used in this section, the term "traffic in" means transport, transfer, or otherwise dispose of, to another, as consideration for anything of value, or make or obtain control of with intent to transport, transfer, or dispose of.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 805 2005

(c) APPLICABILITY.—This section shall apply to any act or acts that occur on or after the date of the enactment of the Uruguay Round Agreements Act.

(d) STATE LAW NOT PREEMPTED.—Nothing in this section may be construed to annul or limit any rights or remedies under the common law or statutes of any State.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 806 2005

CHAPTER 12—COPYRIGHT PROTECTION AND MANAGEMENT SYSTEMS

Sec.
1201. Circumvention of copyright protection systems.
1202. Integrity of copyright management information.
1203. Civil remedies.
1204. Criminal offenses and penalties.
1205. Savings clause.

§ 1201. Circumvention of copyright protection systems

(a) VIOLATIONS REGARDING CIRCUMVENTION OF TECHNOLOGICAL MEASURES.—(1)(A) No person shall circumvent a technological measure that effectively controls access to a work protected under this title. The prohibition contained in the preceding sentence shall take effect at the end of the 2-year period beginning on the date of the enactment of this chapter.

(B) The prohibition contained in subparagraph (A) shall not apply to persons who are users of a copyrighted work which is in a particular class of works, if such persons are, or are likely to be in the succeeding 3-year period, adversely affected by virtue of such prohibition in their ability to make noninfringing uses of that particular class of works under this title, as determined under subparagraph (C).

(C) During the 2-year period described in subparagraph (A), and during each succeeding 3-year period, the Librarian of Congress, upon the recommendation of the Register of Copyrights, who shall consult with the Assistant Secretary for Communications and Information of the Department of Commerce and report and comment on his or her views in making such recommendation, shall make the determination in a rulemaking proceeding for purposes of subparagraph (B) of whether persons who are users of a copyrighted work are, or are likely to be in the succeeding 3-year period, adversely affected by the prohibition under subparagraph (A) in their ability to make noninfringing uses under this title of a particular class of copyrighted works. In conducting such rulemaking, the Librarian shall examine—

(i) the availability for use of copyrighted works;

(ii) the availability for use of works for nonprofit archival, preservation, and educational purposes;

(iii) the impact that the prohibition on the circumvention of technological measures applied to copyrighted works has on criticism, comment, news reporting, teaching, scholarship, or research;

(iv) the effect of circumvention of technological measures on the market for or value of copyrighted works; and

(v) such other factors as the Librarian considers appropriate.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 807 2005

(D) The Librarian shall publish any class of copyrighted works for which the Librarian has determined, pursuant to the rulemaking conducted under subparagraph (C), that noninfringing uses by persons who are users of a copyrighted work are, or are likely to be, adversely affected, and the prohibition contained in subparagraph (A) shall not apply to such users with respect to such class of works for the ensuing 3-year period.

(E) Neither the exception under subparagraph (B) from the applicability of the prohibition contained in subparagraph (A), nor any determination made in a rulemaking conducted under subparagraph (C), may be used as a defense in any action to enforce any provision of this title other than this paragraph.

(2) No person shall manufacture, import, offer to the public, provide, or otherwise traffic in any technology, product, service, device, component, or part thereof, that—

(A) is primarily designed or produced for the purpose of circumventing a technological measure that effectively controls access to a work protected under this title;

(B) has only limited commercially significant purpose or use other than to circumvent a technological measure that effectively controls access to a work protected under this title; or

(C) is marketed by that person or another acting in concert with that person with that person's knowledge for use in circumventing a technological measure that effectively controls access to a work protected under this title.

(3) As used in this subsection—

(A) to "circumvent a technological measure" means to descramble a scrambled work, to decrypt an encrypted work, or otherwise to avoid, bypass, remove, deactivate, or impair a technological measure, without the authority of the copyright owner; and

(B) a technological measure "effectively controls access to a work" if the measure, in the ordinary course of its operation, requires the application of information, or a process or a treatment, with the authority of the copyright owner, to gain access to the work.

(b) ADDITIONAL VIOLATIONS.—(1) No person shall manufacture, import, offer to the public, provide, or otherwise traffic in any technology, product, service, device, component, or part thereof, that—

(A) is primarily designed or produced for the purpose of circumventing protection afforded by a technological measure that effectively protects a right of a copyright owner under this title in a work or a portion thereof;

(B) has only limited commercially significant purpose or use other than to circumvent protection afforded by a technological measure that effectively protects a right of a copyright owner under this title in a work or a portion thereof; or

(C) is marketed by that person or another acting in concert with that person with that person's knowledge for use in circumventing protection afforded by a technological measure that effectively protects a right of a copyright owner under this title in a work or a portion thereof.

(2) As used in this subsection—

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 808 2005

(A) to "circumvent protection afforded by a technological measure" means avoiding, bypassing, removing, deactivating, or otherwise impairing a technological measure; and

(B) a technological measure "effectively protects a right of a copyright owner under this title" if the measure, in the ordinary course of its operation, prevents, restricts, or otherwise limits the exercise of a right of a copyright owner under this title.

(c) OTHER RIGHTS, ETC., NOT AFFECTED.—(1) Nothing in this section shall affect rights, remedies, limitations, or defenses to copyright infringement, including fair use, under this title.

(2) Nothing in this section shall enlarge or diminish vicarious or contributory liability for copyright infringement in connection with any technology, product, service, device, component, or part thereof.

(3) Nothing in this section shall require that the design of, or design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure, so long as such part or component, or the product in which such part or component is integrated, does not otherwise fall within the prohibitions of subsection (a)(2) or (b)(1).

(4) Nothing in this section shall enlarge or diminish any rights of free speech or the press for activities using consumer electronics, telecommunications, or computing products.

(d) EXEMPTION FOR NONPROFIT LIBRARIES, ARCHIVES, AND EDUCATIONAL INSTITUTIONS.—(1) A nonprofit library, archives, or educational institution which gains access to a commercially exploited copyrighted work solely in order to make a good faith determination of whether to acquire a copy of that work for the sole purpose of engaging in conduct permitted under this title shall not be in violation of subsection (a)(1)(A). A copy of a work to which access has been gained under this paragraph—

(A) may not be retained longer than necessary to make such good faith determination; and

(B) may not be used for any other purpose.

(2) The exemption made available under paragraph (1) shall only apply with respect to a work when an identical copy of that work is not reasonably available in another form.

(3) A nonprofit library, archives, or educational institution that willfully for the purpose of commercial advantage or financial gain violates paragraph (1)—

(A) shall, for the first offense, be subject to the civil remedies under section 1203; and

(B) shall, for repeated or subsequent offenses, in addition to the civil remedies under section 1203, forfeit the exemption provided under paragraph (1).

(4) This subsection may not be used as a defense to a claim under subsection (a)(2) or (b), nor may this subsection permit a nonprofit library, archives, or educational institution to manufacture, import, offer to the public, provide, or otherwise traffic in any technology, product, service, component, or part thereof, which circumvents a technological measure.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 809 2005

(5) In order for a library or archives to qualify for the exemption under this subsection, the collections of that library or archives shall be—

(A) open to the public; or

(B) available not only to researchers affiliated with the library or archives or with the institution of which it is a part, but also to other persons doing research in a specialized field.

(e) LAW ENFORCEMENT, INTELLIGENCE, AND OTHER GOVERNMENT ACTIVITIES.—This section does not prohibit any lawfully authorized investigative, protective, information security, or intelligence activity of an officer, agent, or employee of the United States, a State, or a political subdivision of a State, or a person acting pursuant to a contract with the United States, a State, or a political subdivision of a State. For purposes of this subsection, the term "information security" means activities carried out in order to identify and address the vulnerabilities of a government computer, computer system, or computer network.

(f) REVERSE ENGINEERING.—(1) Notwithstanding the provisions of subsection (a)(1)(A), a person who has lawfully obtained the right to use a copy of a computer program may circumvent a technological measure that effectively controls access to a particular portion of that program for the sole purpose of identifying and analyzing those elements of the program that are necessary to achieve interoperability of an independently created computer program with other programs, and that have not previously been readily available to the person engaging in the circumvention, to the extent any such acts of identification and analysis do not constitute infringement under this title.

(2) Notwithstanding the provisions of subsections (a)(2) and (b), a person may develop and employ technological means to circumvent a technological measure, or to circumvent protection afforded by a technological measure, in order to enable the identification and analysis under paragraph (1), or for the purpose of enabling interoperability of an independently created computer program with other programs, if such means are necessary to achieve such interoperability, to the extent that doing so does not constitute infringement under this title.

(3) The information acquired through the acts permitted under paragraph (1), and the means permitted under paragraph (2), may be made available to others if the person referred to in paragraph (1) or (2), as the case may be, provides such information or means solely for the purpose of enabling interoperability of an independently created computer program with other programs, and to the extent that doing so does not constitute infringement under this title or violate applicable law other than this section.

(4) For purposes of this subsection, the term "interoperability" means the ability of computer programs to exchange information, and of such programs mutually to use the information which has been exchanged.

(g) ENCRYPTION RESEARCH.—

(1) DEFINITIONS.—For purposes of this subsection—

(A) the term "encryption research" means activities necessary to identify and analyze flaws and vulnerabilities of encryption technologies applied to copyrighted works, if

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 810 2005

these activities are conducted to advance the state of knowledge in the field of encryption technology or to assist in the development of encryption products; and

(B) the term "encryption technology" means the scrambling and descrambling of information using mathematical formulas or algorithms.

(2) PERMISSIBLE ACTS OF ENCRYPTION RESEARCH.—Notwithstanding the provisions of subsection (a)(1)(A), it is not a violation of that subsection for a person to circumvent a technological measure as applied to a copy, phonorecord, performance, or display of a published work in the course of an act of good faith encryption research if—

(A) the person lawfully obtained the encrypted copy, phonorecord, performance, or display of the published work;

(B) such act is necessary to conduct such encryption research;

(C) the person made a good faith effort to obtain authorization before the circumvention; and

(D) such act does not constitute infringement under this title or a violation of applicable law other than this section, including section 1030 of title 18 and those provisions of title 18 amended by the Computer Fraud and Abuse Act of 1986.

(3) FACTORS IN DETERMINING EXEMPTION.—In determining whether a person qualifies for the exemption under paragraph (2), the factors to be considered shall include—

(A) whether the information derived from the encryption research was disseminated, and if so, whether it was disseminated in a manner reasonably calculated to advance the state of knowledge or development of encryption technology, versus whether it was disseminated in a manner that facilitates infringement under this title or a violation of applicable law other than this section, including a violation of privacy or breach of security;

(B) whether the person is engaged in a legitimate course of study, is employed, or is appropriately trained or experienced, in the field of encryption technology; and

(C) whether the person provides the copyright owner of the work to which the technological measure is applied with notice of the findings and documentation of the research, and the time when such notice is provided.

(4) USE OF TECHNOLOGICAL MEANS FOR RESEARCH ACTIVITIES.—Notwithstanding the provisions of subsection (a)(2), it is not a violation of that subsection for a person to—

(A) develop and employ technological means to circumvent a technological measure for the sole purpose of that person performing the acts of good faith encryption research described in paragraph (2); and

(B) provide the technological means to another person with whom he or she is working collaboratively for the purpose of conducting the acts of good faith encryption research described in paragraph (2) or for the purpose of

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 811 2005

having that other person verify his or her acts of good faith encryption research described in paragraph (2).

(5) REPORT TO CONGRESS.—Not later than 1 year after the date of the enactment of this chapter, the Register of Copyrights and the Assistant Secretary for Communications and Information of the Department of Commerce shall jointly report to the Congress on the effect this subsection has had on—

(A) encryption research and the development of encryption technology;

(B) the adequacy and effectiveness of technological measures designed to protect copyrighted works; and

(C) protection of copyright owners against the unauthorized access to their encrypted copyrighted works.

The report shall include legislative recommendations, if any.

(h) EXCEPTIONS REGARDING MINORS.—In applying subsection (a) to a component or part, the court may consider the necessity for its intended and actual incorporation in a technology, product, service, or device, which—

(1) does not itself violate the provisions of this title; and

(2) has the sole purpose to prevent the access of minors to material on the Internet.

(i) PROTECTION OF PERSONALLY IDENTIFYING INFORMATION.—

(1) CIRCUMVENTION PERMITTED.—Notwithstanding the provisions of subsection (a)(1)(A), it is not a violation of that subsection for a person to circumvent a technological measure that effectively controls access to a work protected under this title, if—

(A) the technological measure, or the work it protects, contains the capability of collecting or disseminating personally identifying information reflecting the online activities of a natural person who seeks to gain access to the work protected;

(B) in the normal course of its operation, the technological measure, or the work it protects, collects or disseminates personally identifying information about the person who seeks to gain access to the work protected, without providing conspicuous notice of such collection or dissemination to such person, and without providing such person with the capability to prevent or restrict such collection or dissemination;

(C) the act of circumvention has the sole effect of identifying and disabling the capability described in subparagraph (A), and has no other effect on the ability of any person to gain access to any work; and

(D) the act of circumvention is carried out solely for the purpose of preventing the collection or dissemination of personally identifying information about a natural person who seeks to gain access to the work protected, and is not in violation of any other law.

(2) INAPPLICABILITY TO CERTAIN TECHNOLOGICAL MEASURES.—This subsection does not apply to a technological measure, or a work it protects, that does not collect or disseminate personally identifying information and that is disclosed to a user as not having or using such capability.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 812 2005

(j) SECURITY TESTING.—

(1) DEFINITION.—For purposes of this subsection, the term "security testing" means accessing a computer, computer system, or computer network, solely for the purpose of good faith testing, investigating, or correcting, a security flaw or vulnerability, with the authorization of the owner or operator of such computer, computer system, or computer network.

(2) PERMISSIBLE ACTS OF SECURITY TESTING.—Notwithstanding the provisions of subsection (a)(1)(A), it is not a violation of that subsection for a person to engage in an act of security testing, if such act does not constitute infringement under this title or a violation of applicable law other than this section, including section 1030 of title 18 and those provisions of title 18 amended by the Computer Fraud and Abuse Act of 1986.

(3) FACTORS IN DETERMINING EXEMPTION.—In determining whether a person qualifies for the exemption under paragraph (2), the factors to be considered shall include—

(A) whether the information derived from the security testing was used solely to promote the security of the owner or operator of such computer, computer system or computer network, or shared directly with the developer of such computer, computer system, or computer network; and

(B) whether the information derived from the security testing was used or maintained in a manner that does not facilitate infringement under this title or a violation of applicable law other than this section, including a violation of privacy or breach of security.

(4) USE OF TECHNOLOGICAL MEANS FOR SECURITY TESTING.—Notwithstanding the provisions of subsection (a)(2), it is not a violation of that subsection for a person to develop, produce, distribute or employ technological means for the sole purpose of performing the acts of security testing described in subsection (2), provided such technological means does not otherwise violate section (a)(2)[1].

(k) CERTAIN ANALOG DEVICES AND CERTAIN TECHNOLOGICAL MEASURES.—

(1) CERTAIN ANALOG DEVICES.—

(A) Effective 18 months after the date of the enactment of this chapter, no person shall manufacture, import, offer to the public, provide or otherwise traffic in any—

(i) VHS format analog video cassette recorder unless such recorder conforms to the automatic gain control copy control technology;

(ii) 8mm format analog video cassette camcorder unless such camcorder conforms to the automatic gain control technology;

(iii) Beta format analog video cassette recorder, unless such recorder conforms to the automatic gain control copy control technology, except that this requirement shall not apply until there are 1,000 Beta

[1] So in original. Probably should be subsection "(a)(2)".

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 813 2005

format analog video cassette recorders sold in the United States in any one calendar year after the date of the enactment of this chapter;

(iv) 8mm format analog video cassette recorder that is not an analog video cassette camcorder, unless such recorder conforms to the automatic gain control copy control technology, except that this requirement shall not apply until there are 20,000 such recorders sold in the United States in any one calendar year after the date of the enactment of this chapter; or

(v) analog video cassette recorder that records using an NTSC format video input and that is not otherwise covered under clauses (i) through (iv), unless such device conforms to the automatic gain control copy control technology.

(B) Effective on the date of the enactment of this chapter, no person shall manufacture, import, offer to the public, provide or otherwise traffic in—

(i) any VHS format analog video cassette recorder or any 8mm format analog video cassette recorder if the design of the model of such recorder has been modified after such date of enactment so that a model of recorder that previously conformed to the automatic gain control copy control technology no longer conforms to such technology; or

(ii) any VHS format analog video cassette recorder, or any 8mm format analog video cassette recorder that is not an 8mm analog video cassette camcorder, if the design of the model of such recorder has been modified after such date of enactment so that a model of recorder that previously conformed to the four-line colorstripe copy control technology no longer conforms to such technology.

Manufacturers that have not previously manufactured or sold a VHS format analog video cassette recorder, or an 8mm format analog cassette recorder, shall be required to conform to the four-line colorstripe copy control technology in the initial model of any such recorder manufactured after the date of the enactment of this chapter, and thereafter to continue conforming to the four-line colorstripe copy control technology. For purposes of this subparagraph, an analog video cassette recorder "conforms to" the four-line colorstripe copy control technology if it records a signal that, when played back by the playback function of that recorder in the normal viewing mode, exhibits, on a reference display device, a display containing distracting visible lines through portions of the viewable picture.

(2) CERTAIN ENCODING RESTRICTIONS.—No person shall apply the automatic gain control copy control technology or colorstripe copy control technology to prevent or limit consumer copying except such copying—

(A) of a single transmission, or specified group of transmissions, of live events or of audiovisual works for which a member of the public has exercised choice in se-

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 814 2005

lecting the transmissions, including the content of the transmissions or the time of receipt of such transmissions, or both, and as to which such member is charged a separate fee for each such transmission or specified group of transmissions;

(B) from a copy of a transmission of a live event or an audiovisual work if such transmission is provided by a channel or service where payment is made by a member of the public for such channel or service in the form of a subscription fee that entitles the member of the public to receive all of the programming contained in such channel or service;

(C) from a physical medium containing one or more prerecorded audiovisual works; or

(D) from a copy of a transmission described in subparagraph (A) or from a copy made from a physical medium described in subparagraph (C).

In the event that a transmission meets both the conditions set forth in subparagraph (A) and those set forth in subparagraph (B), the transmission shall be treated as a transmission described in subparagraph (A).

(3) INAPPLICABILITY.—This subsection shall not—

(A) require any analog video cassette camcorder to conform to the automatic gain control copy control technology with respect to any video signal received through a camera lens;

(B) apply to the manufacture, importation, offer for sale, provision of, or other trafficking in, any professional analog video cassette recorder; or

(C) apply to the offer for sale or provision of, or other trafficking in, any previously owned analog video cassette recorder, if such recorder was legally manufactured and sold when new and not subsequently modified in violation of paragraph (1)(B).

(4) DEFINITIONS.—For purposes of this subsection:

(A) An "analog video cassette recorder" means a device that records, or a device that includes a function that records, on electromagnetic tape in an analog format the electronic impulses produced by the video and audio portions of a television program, motion picture, or other form of audiovisual work.

(B) An "analog video cassette camcorder" means an analog video cassette recorder that contains a recording function that operates through a camera lens and through a video input that may be connected with a television or other video playback device.

(C) An analog video cassette recorder "conforms" to the automatic gain control copy control technology if it—

(i) detects one or more of the elements of such technology and does not record the motion picture or transmission protected by such technology; or

(ii) records a signal that, when played back, exhibits a meaningfully distorted or degraded display.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 815 2005

(D) The term "professional analog video cassette recorder" means an analog video cassette recorder that is designed, manufactured, marketed, and intended for use by a person who regularly employs such a device for a lawful business or industrial use, including making, performing, displaying, distributing, or transmitting copies of motion pictures on a commercial scale.

(E) The terms "VHS format", "8mm format", "Beta format", "automatic gain control copy control technology", "colorstripe copy control technology", "four-line version of the colorstripe copy control technology", and "NTSC" have the meanings that are commonly understood in the consumer electronics and motion picture industries as of the date of the enactment of this chapter.

(5) VIOLATIONS.—Any violation of paragraph (1) of this subsection shall be treated as a violation of subsection (b)(1) of this section. Any violation of paragraph (2) of this subsection shall be deemed an "act of circumvention" for the purposes of section 1203(c)(3)(A) of this chapter.

§ 1202. Integrity of copyright management information

(a) FALSE COPYRIGHT MANAGEMENT INFORMATION.—No person shall knowingly and with the intent to induce, enable, facilitate, or conceal infringement—

(1) provide copyright management information that is false, or

(2) distribute or import for distribution copyright management information that is false.

(b) REMOVAL OR ALTERATION OF COPYRIGHT MANAGEMENT INFORMATION.—No person shall, without the authority of the copyright owner or the law—

(1) intentionally remove or alter any copyright management information,

(2) distribute or import for distribution copyright management information knowing that the copyright management information has been removed or altered without authority of the copyright owner or the law, or

(3) distribute, import for distribution, or publicly perform works, copies of works, or phonorecords, knowing that copyright management information has been removed or altered without authority of the copyright owner or the law,

knowing, or, with respect to civil remedies under section 1203, having reasonable grounds to know, that it will induce, enable, facilitate, or conceal an infringement of any right under this title.

(c) DEFINITION.—As used in this section, the term "copyright management information" means any of the following information conveyed in connection with copies or phonorecords of a work or performances or displays of a work, including in digital form, except that such term does not include any personally identifying information about a user of a work or of a copy, phonorecord, performance, or display of a work:

(1) The title and other information identifying the work, including the information set forth on a notice of copyright.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 816 2005

(2) The name of, and other identifying information about, the author of a work.

(3) The name of, and other identifying information about, the copyright owner of the work, including the information set forth in a notice of copyright.

(4) With the exception of public performances of works by radio and television broadcast stations, the name of, and other identifying information about, a performer whose performance is fixed in a work other than an audiovisual work.

(5) With the exception of public performances of works by radio and television broadcast stations, in the case of an audiovisual work, the name of, and other identifying information about, a writer, performer, or director who is credited in the audiovisual work.

(6) Terms and conditions for use of the work.

(7) Identifying numbers or symbols referring to such information or links to such information.

(8) Such other information as the Register of Copyrights may prescribe by regulation, except that the Register of Copyrights may not require the provision of any information concerning the user of a copyrighted work.

(d) LAW ENFORCEMENT, INTELLIGENCE, AND OTHER GOVERNMENT ACTIVITIES.—This section does not prohibit any lawfully authorized investigative, protective, information security, or intelligence activity of an officer, agent, or employee of the United States, a State, or a political subdivision of a State, or a person acting pursuant to a contract with the United States, a State, or a political subdivision of a State. For purposes of this subsection, the term "information security" means activities carried out in order to identify and address the vulnerabilities of a government computer, computer system, or computer network.

(e) LIMITATIONS ON LIABILITY.—

(1) ANALOG TRANSMISSIONS.—In the case of an analog transmission, a person who is making transmissions in its capacity as a broadcast station, or as a cable system, or someone who provides programming to such station or system, shall not be liable for a violation of subsection (b) if—

(A) avoiding the activity that constitutes such violation is not technically feasible or would create an undue financial hardship on such person; and

(B) such person did not intend, by engaging in such activity, to induce, enable, facilitate, or conceal infringement of a right under this title.

(2) DIGITAL TRANSMISSIONS.—

(A) If a digital transmission standard for the placement of copyright management information for a category of works is set in a voluntary, consensus standard-setting process involving a representative cross-section of broadcast stations or cable systems and copyright owners of a category of works that are intended for public performance by such stations or systems, a person identified in paragraph (1) shall not be liable for a violation of subsection (b) with respect to the particular copyright management information addressed by such standard if—

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 817 2005

(i) the placement of such information by someone other than such person is not in accordance with such standard; and

(ii) the activity that constitutes such violation is not intended to induce, enable, facilitate, or conceal infringement of a right under this title.

(B) Until a digital transmission standard has been set pursuant to subparagraph (A) with respect to the placement of copyright management information for a category of works, a person identified in paragraph (1) shall not be liable for a violation of subsection (b) with respect to such copyright management information, if the activity that constitutes such violation is not intended to induce, enable, facilitate, or conceal infringement of a right under this title, and if—

(i) the transmission of such information by such person would result in a perceptible visual or aural degradation of the digital signal; or

(ii) the transmission of such information by such person would conflict with—

(I) an applicable government regulation relating to transmission of information in a digital signal;

(II) an applicable industry-wide standard relating to the transmission of information in a digital signal that was adopted by a voluntary consensus standards body prior to the effective date of this chapter; or

(III) an applicable industry-wide standard relating to the transmission of information in a digital signal that was adopted in a voluntary, consensus standards-setting process open to participation by a representative cross-section of broadcast stations or cable systems and copyright owners of a category of works that are intended for public performance by such stations or systems.

(3) DEFINITIONS.—As used in this subsection—

(A) the term "broadcast station" has the meaning given that term in section 3 of the Communications Act of 1934 (47 U.S.C. 153); and

(B) the term "cable system" has the meaning given that term in section 602 of the Communications Act of 1934 (47 U.S.C. 522).

§ 1203. Civil remedies

(a) CIVIL ACTIONS.—Any person injured by a violation of section 1201 or 1202 may bring a civil action in an appropriate United States district court for such violation.

(b) POWERS OF THE COURT.—In an action brought under subsection (a), the court—

(1) may grant temporary and permanent injunctions on such terms as it deems reasonable to prevent or restrain a violation, but in no event shall impose a prior restraint on free

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 818 2005

speech or the press protected under the 1st amendment to the Constitution;

(2) at any time while an action is pending, may order the impounding, on such terms as it deems reasonable, of any device or product that is in the custody or control of the alleged violator and that the court has reasonable cause to believe was involved in a violation;

(3) may award damages under subsection (c);

(4) in its discretion may allow the recovery of costs by or against any party other than the United States or an officer thereof;

(5) in its discretion may award reasonable attorney's fees to the prevailing party; and

(6) may, as part of a final judgment or decree finding a violation, order the remedial modification or the destruction of any device or product involved in the violation that is in the custody or control of the violator or has been impounded under paragraph (2).

(c) AWARD OF DAMAGES.—

(1) IN GENERAL.—Except as otherwise provided in this title, a person committing a violation of section 1201 or 1202 is liable for either—

(A) the actual damages and any additional profits of the violator, as provided in paragraph (2), or

(B) statutory damages, as provided in paragraph (3).

(2) ACTUAL DAMAGES.—The court shall award to the complaining party the actual damages suffered by the party as a result of the violation, and any profits of the violator that are attributable to the violation and are not taken into account in computing the actual damages, if the complaining party elects such damages at any time before final judgment is entered.

(3) STATUTORY DAMAGES.—(A) At any time before final judgment is entered, a complaining party may elect to recover an award of statutory damages for each violation of section 1201 in the sum of not less than $200 or more than $2,500 per act of circumvention, device, product, component, offer, or performance of service, as the court considers just.

(B) At any time before final judgment is entered, a complaining party may elect to recover an award of statutory damages for each violation of section 1202 in the sum of not less than $2,500 or more than $25,000.

(4) REPEATED VIOLATIONS.—In any case in which the injured party sustains the burden of proving, and the court finds, that a person has violated section 1201 or 1202 within 3 years after a final judgment was entered against the person for another such violation, the court may increase the award of damages up to triple the amount that would otherwise be awarded, as the court considers just.

(5) INNOCENT VIOLATIONS.—

(A) IN GENERAL.—The court in its discretion may reduce or remit the total award of damages in any case in which the violator sustains the burden of proving, and the court finds, that the violator was not aware and had no reason to believe that its acts constituted a violation.

HeinOnline -- 1 Compilation of Selected Acts within the Jurisdiction of the Committee on Energy and Commerce 819 2005

(B) NONPROFIT LIBRARY, ARCHIVES, EDUCATIONAL INSTITUTIONS, OR PUBLIC BROADCASTING ENTITIES.—

(i) DEFINITION.—In this subparagraph, the term "public broadcasting entity" has the meaning given such term under section 118(g).

(ii) IN GENERAL.—In the case of a nonprofit library, archives, educational institution, or public broadcasting entity, the court shall remit damages in any case in which the library, archives, educational institution, or public broadcasting entity sustains the burden of proving, and the court finds, that the library, archives, educational institution, or public broadcasting entity was not aware and had no reason to believe that its acts constituted a violation.

§ 1204. Criminal offenses and penalties

(a) IN GENERAL.—Any person who violates section 1201 or 1202 willfully and for purposes of commercial advantage or private financial gain—

(1) shall be fined not more than $500,000 or imprisoned for not more than 5 years, or both, for the first offense; and

(2) shall be fined not more than $1,000,000 or imprisoned for not more than 10 years, or both, for any subsequent offense.

(b) LIMITATION FOR NONPROFIT LIBRARY, ARCHIVES, EDUCATIONAL INSTITUTION, OR PUBLIC BROADCASTING ENTITY.—Subsection (a) shall not apply to a nonprofit library, archives, educational institution, or public broadcasting entity (as defined under section 118(g).

(c) STATUTE OF LIMITATIONS.—No criminal proceeding shall be brought under this section unless such proceeding is commenced within 5 years after the cause of action arose.

§ 1205. Savings clause

Nothing in this chapter abrogates, diminishes, or weakens the provisions of, nor provides any defense or element of mitigation in a criminal prosecution or civil action under, any Federal or State law that prevents the violation of the privacy of an individual in connection with the individual's use of the Internet.
